*A Political Chronology of Europe* ,2001 *A Political History of Reunifying Europe* Iordan Gheorghe Bărbulescu,2025-01-24 The proposed volume delves into the European Union s expansion into Central and Eastern Europe after the fall of the Berlin Wall It emphasizes the candidate states perspective and seeks to draw parallels between the 1990s expansion and potential future enlargements The historical context is vital particularly the democratization and consolidation effects that past expansions had on both the candidate states and the EU as a whole The work also discusses the recently established European Political Community and its role in creating a unified European political space It contends that past expansions were win win scenarios benefiting both the EU and the candidate states and suggests that similar mutual gains can be achieved in the EU s potential enlargement into the Western Balkans and Eastern Europe The author proposes that analyzing past expansion processes offers valuable insights and concrete strategies for future extensions This may include concepts like pre accession and the European Political Community The current geopolitical climate with a more assertive Russia underscores the importance of further EU expansion to enhance Europe s stability and security Overall the book offers a comprehensive exploration of past and potential EU enlargements highlighting the enduring significance of this ongoing process in shaping the European landscape *The Political History of European Integration* Hagen

Schulz-Forberg,Bo Stråth,2014-06-03 The Maastricht Treaty in 1992 was based on neoliberal ideas of a market driven European economy and democracy and continues to be seen as a step towards a new stage of unification towards a more federal Europe based on market integration The authors demonstrate that European integration as a federal project actually came to an end around 1970 The European Economic Community EEC the precursor of EU was never thought of as a democracy The authors locate a shift in thinking about legitimacy and further integration in the 1980s when the idea of a European democracy was connected with a plan for the internal market the market would pave the way for democracy Since then there has been a growing tension between the official line about a democratic EU and the institutional capacity to carry it through This tension undermined integration The book suggests that instead of democracy through market there are signs of increasing social disintegration political extremism and populism in the wake of economic integration Providing a more realistic historical understanding of European integration this book will be of interest to students and scholars of political science history and European studies *A Political History of Western Europe Since 1945* Derek W. Urwin,2014-07-22

Taking a thematic approach Derek Urwin addresses the major political and economic developments in western Europe since

World War II right up to the present day The book covers issues and developments in national politics and the movement towards greater unity in Western Europe and the role of Europe in global politics and in the international economy The text has been revised throughout and updated to take account of the political consequences of the ending of the Cold War and the troubled progress of European integration since Maastricht The Fifth Edition has lost nothing of its predecessor's clarity and accessibility and in its updated form will win the book a host of new admirers **Towards a Segmented European**

**Political Order** Jozef Bátora, John Erik Fossum, 2019-11-08 This book makes a distinctive contribution to the crucial debate on the European Union EU's present and future development It systematically examines how the range of crises and challenges over the last decade have transformed the EU and relates those findings to the discussion of an increasingly differentiated EU It argues that the post crises EU shows clear signs of becoming a segmented political order with in built biases and constraints The book spells out the key features of such an order in ideational and structural terms and shows how it more concretely manifests itself in the EU's institutional and constitutional make up and in how member states constrain and condition EU action Different states impose different types of constraints as is underlined through paying explicit attention to the Visegrád countries This book will be of key interest to scholars and students of EU politics studies European integration and politics East European politics and foreign policy European Political History 1870-1913

Thomas Mergel, 2017-05-15 The period from 1870 to 1913 saw the emergence of modern mass politics The extension of the franchise the development of party structures and political cleavages and growing state intervention mark this period as one of substantial political change This collection brings together a selection of the most important recent research in this field

**A political history of contemporary Europe since 1814. Transl** Charles Seignobos, 1901 **A Political History of Europe, Since 1814**, Charles Seignobos, 1901 **A Political History of Big Science** Katharina C. Cramer, 2020-08-31

This book investigates the political history of Big Science in Europe in the late twentieth century and the early twenty first century characterised by the founding histories of two collaborative single sited facilities namely the European Synchrotron Radiation Facility ESRF in Grenoble France and the European X Ray Free Electron Laser European XFEL in Schenefeld Germany Under the heading of the other Europe this book presents the history and politics of European Big Science as an alternative road to Western European integration besides the mainstream political integration process of the European Economic Community and the European Union It shows that Big Science has a role to play in European politics and policymaking and that the crucial and unavoidable symbiosis between science technology and politics brings the creation of Big Science projects back to geopolitical realities *Political Democracy and Ethnic Diversity in Modern European History* André Gerrits, Dirk Jan Wolffram, 2005 This is the first volume in which the fate of democracy is directly related to ethnic diversity It highlights the crucial episodes in modern European political history and shows in what sense ethnic diversity was of vital importance **Sources in European Political History** Chris Cook, 1989-06-12 This new publication constitutes the

second volume in the widely acclaimed Sources in European Political History This latest volume provides a wide ranging guide to the surviving private papers of over one thousand statesman politicians and diplomats who played a part in the shaping of modern Europe

**Europe in Search of Political Order** Johan P. Olsen, 2007-02-01 This book deals with ongoing processes of European cooperation and integration processes that may have a potential to change the political organization of Europe Based on ideas from the new institutionalism the book offers a systematic perspective on institutional change and in particular the role of institutions in relation to four central and durable issues in the study of political life These are 1 the mediation between unity and diversity what ties a society together and what keeps it apart 2 The relations between citizens and their helpers why the democratic deficit in the European Union can not be eliminated solely by making mechanisms of direct citizens participation and representation more efficient Needed are also institutions that make direct participation redundant because they routinely work with integrity generating expected and desired outcomes 3 The relation between democratic design and historical drift To what degree democracies are able to design and reform key institutions of governance so that their structures reflect popular will understanding and control 4 The co existence of old and new political orders How elements of a new order may supplement rather than replace elements of the old order generating a mixed order based on partly inconsistent principles and rules

The Politics of Famine in European History and Memory Ingrid de Zwarte, Miguel Ángel del Arco Blanco, 2025-05-15 This is the first book to bring together groundbreaking scholarship focusing on the various ways in which famines result from political decision making and how the threat occurrence relief or memory of famine is instrumentalized as a political and military tool Contributions to this volume reveal the complexities variations and motivations behind the instrumentalization of famine by political actors and regimes and how the politics of perpetrating hunger and the politics of relieving it have often been intertwined They also address how famine legacies have been subsequently politicized in public debates educational practices and popular media and how these socially and politically constructed memories and myths in turn have shaped broader narratives about hunger and humanitarianism both in history and today The Politics of Famine in European History and Memory provides a crucial resource for scholars and students from all disciplines interested in the study of famines as well as those interested in the history of war and troubled pasts more generally

The Oxford Handbook of Modern British Political History, 1800-2000 David Brown, Robert Crowcroft, Gordon Pentland, 2018-03-29 The two centuries after 1800 witnessed a series of sweeping changes in the way in which Britain was governed the duties of the state and its role in the wider world Powerful processes from the development of democracy the changing nature of the social contract war and economic dislocation have challenged and at times threatened to overwhelm both governors and governed Such shifts have also presented challenges to the historians who have researched and written about Britain's past politics This Handbook shows the ways in which political historians have responded to these challenges providing a snapshot of a field which has long been at the forefront of conceptual and methodological innovation within

historical studies It comprises thirty three thematic essays by leading and emerging scholars in the field Collectively these essays assess and rethink the nature of modern British political history itself and suggest avenues and questions for future research The Oxford Handbook of Modern British Political History thus provides a unique resource for those who wish to understand Britain's political past and a thought provoking long view for those interested in current political challenges

›**Transition and the Politics of History Education in Southeast Europe** Augusta Dimou,2009-10-07 This collection of essays gives an overview on current developments in the field of education in the successor states of ex Yugoslavia and the Republic of Moldova from the mid 1990s to today The impact of nation and state building processes on the politics of history and on schooling are analysed against the background of the complex social and political transformations that have been taking place in the region changes that are usually subsumed under the problematic and rather unspecific notion of transition The book engages in such issues like What is the role of international actors and which impact have interventions in education What are the preconditions for lasting and sustainable reforms in education What goals are inscribed in history textbook narratives The book addresses these questions from an interdisciplinary perspective and offers insights into the complicated and ambiguous developments in the field of education in Southeast Europe during the last decade

**The Rise of Common Political Order** Jarle Trondal,2017-08-25 The Rise of Common Political Order brings together leading research focusing on the conditions for the formation of common political order in Europe The book aims to define common political order in conceptual terms to study instances of order formation at different levels of governance and ultimately to comprehend how they profoundly challenge inherent political orders

**Democratic Accountability, Political Order, and Change** Johan P. Olsen,2017 This volume examines the theorization of democratic accountability and what accountability processes tell us about political order and orderly change

**The Politics of Moderation in Modern European History** Ido de Haan,Matthijs Lok,2019-09-04 This book charts the varieties of political moderation in modern European history from the French Revolution to the present day It explores the attempts to find a middle way between ideological extremes from the nineteenth century Juste Milieu and balance of power via the Third Ways between capitalism and socialism to the current calls for moderation beyond populism and religious radicalism The essays in this volume are inspired by the widely recognized need for a more nuanced political discourse The contributors demonstrate how the history of modern politics offers a range of experiences and examples of the search for a middle way that can help us to navigate the tensions of the current political climate At the same time the volume offers a diagnosis of the problems and pitfalls of Third Ways of finding the middle between extremes and of the weaknesses of the moderate point of view
