Political Consequences Of Modernization:

The Political Consequences of Modernization John H. Kautsky, 1971 Modernization and Its Political Consequences Hans Blokland, 2008-10-01
People's capacity to give meaning and direction to social life is an essential dimension of political freedom. Yet many citizens of Western democracies believe that this freedom has become quite restricted. They feel they are at the mercy of anonymous structures and processes over which they have little control. Structures and processes that present them with options and realities they might not have chosen if they had any real choice. As a result, political interest declines and political cynicism flourishes. The underlying cause of the powerlessness pervading the current political system could be modernization. Taking the work of Max Weber, Karl Mannheim and Joseph Schumpeter as a point of departure, Hans Blokland here examines this process. The topics covered are among others the meaning of modernization, the forces that drive it, and especially the consequences of modernization for the political freedom of citizens to influence the course of their society via democratic politics. DIV Modern Governments and Political Systems S. L. Kaushik, Rama Patnayak, 1995 Overview of trends, consequences, perspectives, and issues United States. Congress. House. Select Committee on Population, 1978 **Political System and Change** Ikuo Kabashima, Lynn T. White III, 2014-07-14
Political System and Change includes articles on the analytic categories political scientists have developed for understanding the Third World. Many essays in this anthology are concise summaries of later books that are now famous landmarks in the study of comparative politics. First published in 2000, Why would Cuba, an isolated and impoverished country, be trying to develop a nuclear energy capability and why would it attempt to expand its energy generation capability when it can barely feed its population? This book seeks to clarify the risks and opportunities associated with the development and expansion of the Cuban energy sector. Once reliant on imported fossil fuels as well as Russia's willingness to underwrite its energy development schemes, post-Cold War Cuba is now confronted with the daunting tasks of expanding its energy capabilities while simultaneously replacing its energy infrastructure. Drawing on extensive fieldwork in Cuba, this book looks in depth at the economic, social, and political implications of what is rapidly becoming one of the next century's most important public policy issues in Cuba **Pluralism, Democracy and Political Knowledge** Hans Blokland, 2016-04-22
The political discontent or malaise that typifies most modern democracies is mainly caused by the widely shared feeling that the political freedom of citizens to influence the development of their society and related to this, their personal life has become rather

limited We can only address this discontent when we rehabilitate politics the deliberate joint effort to give direction to society and to make the best of ourselves In *Pluralism Democracy and Political Knowledge* Hans Blokland examines this challenge via a critical appraisal of the pluralist conception of politics and democracy This conception was formulated by above all Robert A Dahl one of the most important political scholars and democratic theorists of the last half century Taking his work as the point of reference this book not only provides an illuminating history of political science told via Dahl and his critics it also offers a revealing analysis as to what progress we have made in our thinking on pluralism and democracy and what progress we could make given the epistemological constraints of the social sciences Above and beyond this the development and the problems of pluralism and democracy are explored in the context of the process of modernization The author specifically discusses the extent to which individualization differentiation and rationalization contribute to the current political malaise in those countries which adhere to a pluralist political system
