

DOGMATISM

DEFINITION

Dogmatism is the unwavering belief in a set of principles or doctrines without considering or accepting alternative viewpoints or evidence. It denotes a rigid stance, often based on religious, philosophical, or ideological beliefs, that resists change or questioning. Such a mindset can inhibit open dialogue and critical thinking.

EXAMPLES

- **Creationism:** Despite extensive evidence supporting evolution, creationists assert otherwise, often due to dogmatic adherence to religious explanations.
- **Climate Change:** Despite overwhelming scientific evidence that humans are causing climate change, some deniers assert that this is not the case.

Islam and the Arab Awakening Tariq Ramadan, 2012-10-12 One of the most important developments in the modern history of the Middle East the so called Arab Spring began in Tunisia in December 2010 bringing down dictators sparking a civil war in Libya and igniting a bloody uprising in Syria Its long term repercussions in Egypt and elsewhere remain unclear Now one of the world s leading Islamic thinkers examines and explains it in this searching provocative and necessary book Time Magazine named Tariq Ramadan one of the most important innovators of the twenty first century A Muslim intellectual and prolific author he has won global renown for his reflections on Islam and the contemporary challenges in both the Muslim majority societies and the West In *Islam and the Arab Awakening* he explores the uprisings offering rare insight into their origin significance and possible futures As early as 2003 he writes there had been talk of democratization in the Middle East and North Africa The U S government and private organizations set up networks and provided training for young leaders especially in the use of the Internet and social media and the West abandoned its unconditional support of authoritarian governments But the West did not create the uprisings Indeed one lesson Ramadan presents is that these mass movements and their consequences cannot be totally controlled Something

irreversible has taken place dictators have been overthrown without weapons But he writes democratic processes are only beginning to emerge and unanswered questions remain What role will religion play How should Islamic principles and goals be rethought Can a sterile polarizing debate between Islamism and secularism be avoided Avoiding both naive confidence and conspiratorial paranoia Ramadan voices a tentative optimism If a true civil society can be established he argues this moment's fragile hope will live

seriously consider the role of divine agency as having a real influence in and on the process of reading Scripture Mark Bowald seeks to correct and clarify this deficiency by demonstrating the inevitable role that divine agency plays in contemporary proposals in relation to human agency enacted in the composition of the biblical text and the reader This book presents an important contribution to the emerging field of theological hermeneutics **Chains of Persuasion** Benjamin R. Hertzberg, 2019 Citizens worldwide appeal to religious ideals institutions and identities in their political activism Yet most liberal democratic theory offers citizens little applicable guidance in evaluating such activism Chains of Persuasion uses democratic theory to develop a new framework for assessing the proper place of religion in democratic political life
