Political Economy And The Changing Global Order

Ian Taylor

Political Economy And The Changing Global Order:

Political Economy and the Changing Global Order Richard Stubbs, Geoffrey R. D. Underhill, 2006 Covering the basics necessary for a course in international political economy IPE this text comes from a non American critical perspective and the contributors are drawn from prominent scholars of IPE around the world

Political Economy and the Changing Global Order Richard Stubbs, Geoffrey R. D. Underhill, 1994 Designed to introduce students to a broad range of perspectives on the rapidly changing field of international political economy this text features 34 specially commissioned chapters written by prominent IPE scholars from around the world This third edition of Political Economy and the Changing Global Order offers a critical assessment of the contemporary discipline and includes a number of new articles on emerging areas of IPE such as gender security environmentalism crime and the role of the Internet As well all articles from the previous edition have been updated and revised to reflect the growing tensions among globalization regionalism and national interests Every chapter includes a list of suggested readings and where appropriate key websites and each of the book's four sections opens with an informative introduction Comprehensive up to date and thoroughly global in its focus Political Economy and the Changing Global Order is an essential text for students of international and comparative economy Book jacket

Political Economy and the Changing Global Order Richard Stubbs, Geoffrey R. D. Underhill, 1994

International Political Economy C. Roe Goddard, John T. Passé-Smith, John G. Conklin, 1996 This anthology introduces and places in context a collection of the most important contributions to our understanding of international political economy The first section introduces the various ideologies of political economy and substantive applications Subsequent sections critically examine the history and current tenor of international monetary and trade relations the evolution and character of development assistance and the role of the transnational enterprise in IPE The inclusion here of chapters examining the functions and evolution of the major multilateral institutions is a distinctive feature of the book

Global Political Economy John Ravenhill, 2014 Dealing with the central themes and issues of the subject this text outlines the different theoretical approaches of the global political economy as well as engaging key contemporary debates such as worldwide trade and production

The Changing Global Order Madeleine O. Hosli, Joren Selleslags, 2019-11-22 This volume offers a comprehensive evaluation of the concept of global order with a particular emphasis on the role of regional organisations within global governance institutions such as the United Nations Building from a solid theoretical base it draws upon the expertise of numerous leading international scholars offering a broad array of timely and relevant case studies These all take into consideration the historical setting before analysing the contemporary situation and offering suggestions for potential realignments and readjustments that may be witnessed in the future The volume adopts an interdisciplinary approach when addressing some of the most pressing issues of global governance which our global community must tackle This presents the readers an opportunity to understand related topics such as political economy international law institutions of global governance in conjunction with the academic field of

International Relations IR It further helps students and interested readers understand the theoretical and practical foundations to the changing nature of global affairs

Global Political Economy Ronen Palan, 2005-08-12 What are the cutting edge debates in global political economy This book presents an invaluable overview of all the major contemporary debates and approaches at the forefront of European and North American global political economy The book covers the following topics the six central concepts of global political economy state firm capital power labour and globalisation theories at the forefront of GPE rational choice neo institutionalism neo Marxism constructivism and postmodernity recent developments in theoretical approaches such as game theory modern rational and public choice theory development theory historical sociology how global political economy is best understood in terms of three traditions of political economy Marxism rationalism and hermeneutics institutionalism No other book provides such succinct summaries by international experts in the field of such topical and wide ranging issues This book represents an essential textbook ideal for students and lecturers in International Political Economy and International Relations

Global Political Economy Robert O'Brien, Marc Williams, 2013-06-14 This text provides a broad ranging historical account of the emergence of a worldwide economy since the 15th century combined with a systematic analysis of the key frameworks of international political economy today

The Political Economy of Geoeconomics: Europe in a Changing World Milan Babić, Adam D. Dixon, Imogen T. Liu, 2022-10-13 This book brings together researchers from different analytical perspectives for the study of contemporary geoeconomics to create a broader and more useful catalogue of conceptual tools empirical entry points and case studies around the subject The distinctive contribution this book offers is its firm rooting in International Political Economy and the hitherto under researched geoeconomics dynamics of Europe Many existing accounts of geoeconomics have been developed in International Relations and often reproduce some of the state centric and static assumptions of the discipline Recent scholarship furthermore tends to focus on the US China rivalry thus discounting the role of other global powers in shaping geoeconomics As a first collective contribution to the topic in the field of International Political Economy the book stands to become a major reference point in the field for the coming years Interest in geoeconomics as well as in related concepts like weaponized interdependence or emerging new rivalries has been on the rise in recent years and will be one of the key research areas in the coming decade of transition and change in Europe and beyond Chapters 1 2 and 7 are available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com)

Global Political Economy David Reisman, 2023-01-20 In his updated second edition David Reisman examines the ideological and material underpinnings of the global mixed economy Drawing upon current research in economics and international relations Global Political Economy is an impartial and comprehensive analysis of the world order in an age of reappraisal and doubt

International Political Economy: State-Market Relations In A Changing Global Order, **The Political Economy of International Capital Mobility** M. Watson, 2007-07-03 Matthew Watson draws a distinction between the spatial and the functional mobility of

capital allowing fresh insights into existing work on the subject whilst repoliticizing the very idea of capital being in motion The dynamics of capital mobility and the patterns of risk exposure are illustrated through four detailed global case studies

The Limits of Regionalism Robert G. Finbow, 2017-11-28 Assessing the effectiveness of the North American Agreement on Labour Cooperation NAALC this book examines the operation of the core institutions the Secretariat and National Administrative Offices over the past seven years It discusses the main functions of these institutions in hearing public submissions on violations of labour laws and in conducting research and cooperative activities Based on interview research the analysis reviews the strengths and weaknesses of the accord to assess its contribution to a common labour relations regime in North America and its impact in creating new transnational communities of actors in government and civil society in the three countries The NAALC is also compared with the social dimension of the European Union system and a final assessment is made as to whether the NAALC institutions live up to the promises of their founders and whether these can be a model for labour relations in any future Free Trade Area of the Americas FTAA agreement

Jordan and the United States Imad El-Anis, 2010-11-30 Relations between the United States and the Middle East are going through a period of significant change in which the use of force in pursuit of national interests has proved to be increasingly counter productive A new policy direction has been adopted which seeks to promote economic integration development and cooperation The recent proliferation of US Middle East free trade agreements is a corner stone of this new foreign policy approach Imad El Anis here offers an analysis of how free trade and economic integration can impact US Middle East relations by using the Jordan US relationship as an example This book is essential reading for those wishing to understand the new direction of US foreign economic policy towards the Middle East and the accompanying reforms taking shape in the Arab world

Advanced Introduction to International Political Economy Benjamin J. Cohen, 2014-01-01 There is no better guide through the terrain of international political economy Jerry Cohen has been a major contributor since the contemporary field emerged in the late 1960s at the intersection of international relations and international economics He remains a superbly clear writer with first hand knowledge of the key developments in what is now a truly global discipline I recommend this book enthusiastically for introductory courses at the undergraduate or graduate levels Louis W Pauly University of Toronto Canada Benjamin J Cohen s Advanced Introduction to International Political Economy evaluates the fragmented intellectual landscape of international political economy and suggests points of conversation if not integration among its varied elements His analysis is wide ranging and balanced geographically and in its examination of a variety of standpoints it is engaging in its combination of sympathy and criticism All advanced students of the field will benefit from reading it Robert O Keohane Princeton University US A concise readable and deeply informed survey of different approaches to international political economy Essential reading for students in the field Even advanced professionals will appreciate the diversity of perspectives examined Cohen aims to create a more open field of IPE that appreciates and learns from difference This book is a major

contribution towards that goal David A Lake University of California San Diego US Jerry Cohen occupies that rare position from which when he defines a field other people sit up and take notice Here his experience insight and vision are brought to bear on how best to define international political economy IPE for students who are already familiar with its basic subject matter Written with his usual panache and in his usual engaging prose this is a must read book for both advanced students of IPE and the people who teach them Matthew Watson University of Warwick UK Elgar Advanced Introductions are stimulating and thoughtful introductions to major fields in the social sciences and law expertly written by some of the world's leading scholars Designed to be accessible yet rigorous they offer concise and lucid surveys of the substantive and policy issues associated with discrete subject areas In this unique and original advanced introduction Professor Benjamin Cohen pinpoints the essential principles of international political economy and illuminates the full array of perspectives to be found across the globe in this rich field of study Key Features include Provides a comprehensive global survey of IPE Concise introduction to the field written in an easily accessible non technical form In depth analysis of the most established American and British schools of IPE Extended discussion of other key national and regional traditions focusing on the European continent Latin America Australia Canada and China Combines a unique sketch of the geography of IPE with insight into how communities fit together Written in a concise and lively style the volume serves as an accessible yet thoughtful introduction to international political economy that will be an excellent supplement to leading texts used by advanced students and scholars specializing in international political economy and global political economy

Global Governance and Transnationalizing Capitalist

Hegemony Ian Taylor, 2016-11-25 This book is a critique of claims regarding how emerging economies are supposedly rewriting the rules of global governance and ushering in alternative models to neoliberal orthodoxy It argues that such assumptions are abstractions that ignore both the transnationalizing nature of the global political economy and the actual policy goals of the ruling classes within most emerging economies Considering the larger issues behind the emerging economies or powers debate the book deploys an adapted global capitalism perspective with insights from Gramsci Poulantzas and Cox to argue that the transnational nature of the global political economy and the actual policy goals of the dominant elites within most emerging economies merge to undermine any transformative element Far from challenging the global order these ostensible new rivals in fact seek to integrate their economies more and more within the existing liberal global economy Inter state dynamics and even inter elite tensions exist and it is clear that the nation state has not simply become a transmission belt for global capital but equally we must move beyond the surface phenomena that are most visible in global tensions to get at the underlying essence of social and class forces in the global political economy Looking at the largest emerging powers such as Brazil Russia India and China Taylor explains why the emerging powers elites although essentially subscribing to neoliberalism in all its variegated forms may confront the core in a myriad of ways but that these are not challenges to the ongoing world order and in fact the so called emerging powers serve a legitimizing function for the

extant global system The book will be of great use to graduates and scholars of International Relations Global International Political Economy and International Development

The Oxford Handbook of International Political Economy
,2025-01-17 The field of International Political Economy IPE has rapidly developed into a central pillar in the study of International Relations and its interdisciplinary roots make it a rich and productive area of scholarly interest This Oxford Handbook analyses and evaluates the state of the art in IPE research Bringing together leading experts from a wide geographical and theoretical spectrum the Handbook provides accessible and comprehensive surveys on topics central to the study of International Political Economy As IPE scholarship evolves to explore global events such as financial crises and trade wars examining how politics is both a cause and a consequence of economics it highlights the practical and problem driven nature of the field The Handbook considers the purported European North American divide and the impact of the surrounding debate on the approach taken to the field The chapters review the scholarly literature outline future research opportunities and consider the ways in which world events have contributed to new research in the field The Handbook covers both the theoretical and methodological foundations of the field as well as substantive topics within it including regulation foreign aid migration NGOs capital political military relations and many others The Oxford Handbooks of International Relations is a twelve volume set of reference books offering authoritative and innovative engagements with the principal sub fields of International Relations The series as a whole is under the General Editorship of Christian Reus Smit of the University of Melbourne and Duncan Snidal of the University of Oxford with each volume edited by specialists in the field The series both surveys the broad terrain of International Relations scholarship and reshapes it pushing each sub field in challenging new directions Following the example of Reus Smit and Snidal s original Oxford Handbook of International Relations each volume is organized around a strong central thematic by scholars drawn from different perspectives reading its sub field in an entirely new way and pushing scholarship in challenging new directions

The Making of Southeast Asia Amitav Acharya,2013-02-22 Developing a framework to study what makes a region Amitav Acharya investigates the origins and evolution of Southeast Asian regionalism and international relations He views the Association of Southeast Asian Nations ASEAN from the bottom up as not only a U S inspired ally in the Cold War struggle against communism but also an organization that reflects indigenous traditions Although Acharya deploys the notion of imagined community to examine the changes especially since the Cold War in the significance of ASEAN dealings for a regional identity he insists that imagination is itself not a neutral but rather a culturally variable concept The regional imagination in Southeast Asia imagines a community of nations different from NAFTA or NATO the OAU or the European Union In this new edition of a book first published as The Quest for Identity in 2000 Acharya updates developments in the region through the first decade of the new century the aftermath of the financial crisis of 1997 security affairs after September 2001 the long term impact of the 2004 tsunami and the substantial changes wrought by the rise of China as a regional and global actor Acharya argues in

this important book for the crucial importance of regionalism in a different part of the world Innovation and Transformation in International Studies Stephen Gill, James H. Mittelman, 1997-05-15 This book explores the nature of and conditions for theoretical innovation in international studies **Explaining Global Poverty** ,

Uncover the mysteries within Crafted by is enigmatic creation, **Political Economy And The Changing Global Order** .
