Political Education In The Southern Farmers Alliance:

Political Education in the Southern Farmers' Alliance, 1887-1900 Theodore R. Mitchell, 1987 *Political Education in the Southern Farmers Alliance, 1887-1900* Theodore R. Mitchell, 1987 **Official Knowledge** Michael W. Apple, 2014-03-26 This third edition of *Official Knowledge* a classic text from one of education's most distinguished scholars challenges readers to critically examine how certain knowledge comes to be official and whose agendas this knowledge represents A probing and award winning study this new edition builds on the tradition of its predecessors to question the rightist resurgence in education while substantive updates throughout show how such policies continue to define our commonsense notions about what counts as a good school A new preface and two full new chapters address current controversies over curriculum and textbooks and extend the discussion of previous editions to reflect on some of the most important pressures being placed on higher education as well Apple also considers the recent conversion of some prominent neoliberal neoconservative and managerial thinkers to more critical understandings of educational policies proving that progressive change is possible if we examine the roots of these ideologies in the first place As insightful as it is thorough *Official Knowledge* is a refreshing call to challenge the dominant forces within education today as Apple powerfully illustrates how larger social movements are only possible if we purposefully and inclusively deepen our understanding of the existing body of knowledge about education *Populism's Power* Laura Grattan, 2016-01-06 Uprisings such as the Tea Party and Occupy Wall Street signal a resurgence of populist politics in America pitting the people against the establishment in a struggle over control of democracy In the wake of its conservative capture during the Nixon and Reagan eras and given its increasing ubiquity as a mainstream buzzword of politicians and pundits democratic theorists and activists have been eager to abandon populism to right wing demagogues and mega media spin doctors Decades of liberal scholarship have reinforced this shift turning the term populism into a pejorative in academic and public discourse At best they conclude that populism encourages an empty wish to express a unified popular will beyond the mediating institutions of government at worst it has been described as an antidemocratic temperament prone to fomenting backlash against elites and marginalized groups *Populism's Power* argues that such routine dismissals of populism reinforce liberalism as the end of democracy Yet as long as democracy remains true to its meaning that is rule by the people democratic theorists and activists must be able to give an account of the people as collective actors Without such an account of the people's power democracy's future seems fixed by the institutions of today's neoliberal managerial states and not by the always changing demographics of those who live within and across their borders Laura Grattan looks at how populism cultivates the aspirations of ordinary people to exercise power over their everyday lives and their collective fate In evaluating competing theories of populism she looks at a range of populist moments from cultural phenomena such as the Chevrolet ad campaign for Our Country Our Truck to the music of Leonard Cohen and historical and contemporary populist movements including nineteenth century Populism the Tea Party

broad based community organizing and Occupy Wall Street While she ultimately expresses ambivalence about both populism and democracy she reopens the idea that grassroots movements like the insurgent farmers and laborers New Deal agitators and Civil Rights and New Left actors of US history can play a key role in democratizing power and politics in America

Populism in the South Revisited James M. Beeby, 2012-01-26 The Populist Movement was the largest mass movement for political and economic change in the history of the American South until the Civil Rights Movement of the 1950s and 1960s The Populist Movement in this book is defined as the Farmers Alliance and the People's Party as well as the Agricultural Wheel and Knights of Labor in the 1880s and 1890s The Populists threatened the political hegemony of the white racist southern Democratic Party during populism's high point in the mid 1890s and the populists threw the New South into a state of turmoil Populism in the South Revisited New Interpretations and New Departures brings together nine of the best new works on the populist movement in the South that grapple with several larger themes such as the nature of political insurgency the relationship between African Americans and whites electoral reform new economic policies and producerism and the relationship between rural and urban areas in case studies that center on several states and at the local level Each essay offers both new research and new interpretations into the causes course and consequences of the populist insurgency One essay analyzes how notions of debt informed the Populist insurgency in North Carolina the one state where the Populists achieved statewide power while another analyzes the Populists failed attempts in Grant Parish Louisiana to align with African Americans and Republicans to topple the incumbent Democrats Other topics covered include populist grassroots organizing with African Americans to stop disfranchisement in North Carolina the Knights of Labor and the relationship with populism in Georgia organizing urban populism in Dallas Texas Tom Watson's relationship with Midwest Populism the centrality of African Americans in populism a comparative analysis of Populism across the Deep South and how the rhetoric and ideology of populism impacted socialism and the Garvey movement in the early twentieth century Together these studies offer new insights into the nature of southern populism and the legacy of the People's Party in the South **Age of Betrayal** Jack

Beatty, 2008-04-08 Age of Betrayal is a brilliant reconsideration of America's first Gilded Age when war born dreams of freedom and democracy died of their impossibility Focusing on the alliance between government and railroads forged by bribes and campaign contributions Jack Beatty details the corruption of American political culture that in the words of Rutherford B Hayes transformed a government of the people by the people and for the people into a government by the corporations of the corporations and for the corporations A passionate gripping scandalous and sorrowing history of the triumph of wealth over commonwealth *American Reformers, 1870-1920* Steven L. Piott, 2006-03-07 In this new engaging

work historian Steven L Piott explores the fascinating and provocative lives of twelve influential American reformers of the Gilded Age Populist and Progressive eras From Ida B Wells to Louis Brandeis Jane Addams to Charles Macune Piott examines the diversity of ideas and approaches that characterized this dynamic period He links these men and women together in the

greater context of the reform era and explores the social ideologies that united the reform spirit in America following Reconstruction Designed with students in mind American Reformers provides a thought provoking introduction to some of the most influential and forward thinking minds of the reform era **Rural Education (1991)** Deyoung Alan,2017-09-29 Originally published in 1991 essays discuss and analyse rural schooling in its historical social and political contexts as well as its educational mission Collections covering rural education in the United States are relatively rare particularly texts that focus on available research literature in context and many existing texts are written by educators outside of the University This book covers historical and social factors rural education in the field and the future of American Schooling The chapters comprise not only an airing of issues concerns and findings but also a guide to scholarship in the areas covered Included is a resource guide to information specific to rural education and rural special education **Deep Souths** J. William Harris,2003-03-17 Finalist for the Pulitzer Prize in History Co winner of the James A Rawley Prize from the Organization of American Historians Winner of the Theodore Saloutos Memorial Book Prize from the Agricultural History Society Deep Souths tells the stories of three southern regions from Reconstruction to World War II the Mississippi Yazoo Delta the eastern Piedmont of Georgia and the Georgia Sea Islands and Atlantic coast Though these regions initially shared the histories and populations we associate with the idea of a Deep South all had economies based on slave plantation labor in 1860 their histories diverged sharply during the three generations after Reconstruction With research gathered from oral histories census reports and a wide variety of other sources Harris traces these regional changes in cumulative stories of individuals across the social spectrum Deep Souths presents a comparative and ground level view of history that challenges the idea that the lower South was either uniform or static in the era of segregation By the end of the New Deal era changes in these regions had prepared the way for the civil rights movement and the end of segregation **Marion Butler and American Populism** James Logan Hunt,2003 This first full biography of North Carolina s leading Populist Marion Butler 1863 1938 details his leadership and explores his connections to the history of the Farmers Alliance Populism and progressivism **The Forest City Lynching of 1900** J. Timothy Cole,2016-04-05 Politics in Rutherford County were heated a century ago the developing textile industry the growing population an agricultural crisis and race relations inflamed everyone Mills Higgins Flack a leader of the Farmers Alliance and the county s first Populist in the state House was allegedly murdered on August 28 1900 by Avery Mills an African American This book documents the murder and the lynching of Avery Mills The author Flack s great great grandson considers the phenomena of racial lynching the Populist movement in the county the white supremacy movement of the state s Democratic party and the county s KKK activities Roots of Reform Elizabeth Sanders,1999-08 Offering a revision of the understanding of the rise of the American regulatory state in the late 19th century this book argues that politically mobilised farmers were the driving force behind most of the legislation that increased national control **This Corner of Canaan** Randolph B. Campbell,2013 Randolph B Mike Campbell has spent the better

part of the last five decades helping Texans rediscover their history producing a stream of definitive works on the social political and economic structures of the Texas past Through meticulous research and terrific prose Campbell s collective work has fundamentally remade how historians understand Texan identity and the state s southern heritage as well as our understanding of such contentious issues as slavery westward expansion and Reconstruction Campbell s pioneering work in local and county records has defined the model for grassroots research and community studies in the field More than any other scholar Campbell has shaped our modern understanding of Texas In this collection of seventeen original essays Campbell s colleagues friends and students offer a capacious examination of Texas s history ranging from the Spanish era through the 1960s War on Poverty to honor Campbell s deep influence on the field Focusing on themes and methods that Campbell pioneered the essays debate Texas identity the creation of nineteenth century Texas the legacies of the Civil War and Reconstruction and the remaking of the Lone Star State during the twentieth century Featuring some of the most well known names in the field as well as rising stars the volume offers the latest scholarship on major issues in Texas history and the enduring influence of the most eminent Texas historian of the last half century

The Populist Vision Charles Postel,2009 A major reinterpretation of the Populist movement this text argues that the Populists were modern people rejecting the notion that Populism opposed modernity and progress

American Studies Jack Salzman,1990-05-25 This volume supplements the acclaimed three volume set published in 1986 and consists of an annotated listing of American Studies monographs published between 1984 and 1988 There are more than 6 000 descriptive entries in a wide range of categories anthropology and folklore art and architecture history literature music political science popular culture psychology religion science and technology and sociology

The Land-Grant Colleges and the Reshaping of American Higher Education Roger L. Geiger,2017-07-05 This work provides a critical reexamination of the origin and development of America s land grant colleges and universities created by the most important piece of legislation in higher education The story is divided into five parts that provide closer examinations of representative developments Part I describes the connection between agricultural research and American colleges Part II shows that the responsibility of defining and implementing the land grant act fell to the states which produced a variety of institutions in the nineteenth century Part III details the first phase of the conflict during the latter decades of the nineteenth century about whether land colleges were intended to be agricultural colleges or full academic institutions Part IV focuses on the fact that full fledged universities became dominant institutions of American higher education The final part shows that the land grant mission is alive and well in university colleges of agriculture and in fact is inherent to their identity Including some of the best minds the field has to offer this volume follows in the fine tradition of past books in Transaction s Perspectives on the History of Higher Education series

Textbooks in American Society Philip G. Altbach,J Donald Monan Sj Professor of Higher Education and Director Philip G Altbach,Gail P. Kelly,Hugh G. Petrie,Lois Weis,1991-01-01 In recent years textbooks have been widely criticized for

low standards lack of imaginativeness and insensitivity to racial and gender issues Increasingly they are cited as another weak link in American public education This book goes beyond the headlines to examine how textbooks are produced how they are selected and what pressures are placed on textbook authors and publishers The book focuses on the relationship of the textbook to the educational system and includes important issues such as the politics of textbook policy the determinants of textbook content the role of textbooks in educational reform and the process of selection at the state level The authors offer current research on textbook policy including perspectives from those directly involved with textbooks from several thoughtful analyses by textbook editors and publishers to the views of California's Superintendent of Public Instruction

Schoolbook Nation Joseph Moreau, 2010-02-22 A superior book Many readers will be surprised to see that today's arguments about history education follow the culture wars that go back to almost the beginning of the republic Moreau's writing is engaging with brilliant flashes of insight as well as balance and wit Gary B Nash Director of the National Center for History in the Schools Taking Frances FitzGerald's textbook study *America Revised* as a point of departure Joseph Moreau in *Schoolbook Nation* challenges FitzGerald's premise that the 1960s were the beginning of the end of the glory days of American history education Moreau recounts how in the late twentieth century cultural commentators such as historian Arthur Schlesinger Jr and politician Newt Gingrich preached that a new identity crisis had shaken American history in the sixties and that the grand unified view of our past had given way to various interest groups who dismantled the old national narrative while demanding a more inclusive curriculum for their children Moreau discovered however that American history while grand has never been unified Delving into more than 100 history books from the last 150 years the author reveals that the efforts of pressure groups to influence the history curriculum are nearly as old as the mustiest textbook For those who would influence textbooks and teaching Protestant elites in the 1870s Irish Americans in the 1920s and conservative politicians today the sky has always been falling according to Moreau *Schoolbook Nation* offers a history lesson of its own when the story of the past is written or rewritten truth is often a victim With its comprehensive treatment of the subjects of honesty and politics in the teaching of history this is an essential book on the side of truth in a complex debate **The**

Making of the Populist Movement Adam Slez, 2020 Offering a fresh take on the origins of electoral populism *The Making of the Populist Movement* provides an in depth look at how the decisions that defined the political and economic geography of the American West during the late 19th century contributed to the rise of one of the most significant third party movements in American political history Combining traditional forms of historical inquiry with network analysis and statistics Adam Slez contributes to our understanding of political action by explicitly linking the evolution of the political field to the transformation of physical space through concerted action on the part of elites

Democracy, Education, and Multiculturalism Carlos Alberto Torres, 1998-10-29 This important book looks at developments that are changing our understanding of the role of education in citizenship and the possibilities of democratic participation The first chapter

reviews theories of citizenship and education based on the classical contributions to political theory of C B MacPherson and T H Marshall The second chapter challenges educators to think more politically about education It is based on a seminal analysis that shows the role education plays in the liberal neoliberal and neoconservative state incorporating critical perspectives from neo Marxism postmodernism and feminism In chapter three Professor Torres analyzes the transition from the welfare state to the neoliberal state including the role of international organizations in promoting educational reform and privatization policies In the concluding chapter Torres draws on Hobbes Locke Jefferson Kant Hegel Marx and other writers such as C Mouffe and C Pateman to outline contemporary approaches to multiculturalism in education and citizenship
