bridge the gap starting from the party side of the relationship. It throws new light on the topic by presenting a theory-driven comprehensive study of Norway's seven major political parties and their relationships with interest groups at the beginning of the new millennium. Based on original and extensive data including party documents in depth interviews with key players and a survey of national party elites, Elin Haugsgjerd Allern paints a nuanced picture of the nature and significance of these relationships and the factors that shape them. A major conclusion is that Norway's parties tend to maintain rather distant but wide-ranging relationships with interest groups today. However, some parties still have fairly strong links with their traditional associates and a narrower network of links with other groups. Hence, Allern also shows that significant differences exist between parties that are apparently exposed to the same social, political, and institutional environment. **Comparative**

Campaigns and Elections Stephen K. Medvic, 2021-11-29. *Stephen K. Medvic's Campaigns and Elections* is a comprehensive yet compact core text that addresses two distinct but related aspects of American electoral democracy: the processes that constitute campaigns and elections and the players who are involved. In addition to balanced coverage of process and actors, it gives equal billing to both campaigns and elections and covers contests for legislative and executive positions at the national, state, and local levels, including issue-oriented campaigns of note. The book opens by providing students with the conceptual distinctions between what happens in an election and the campaigning that precedes it. Significant attention is devoted to setting up the context for these campaigns and elections by covering the rules of the game in the American electoral system as well as aspects of election administration and the funding of elections. Then the book systematically covers the actors at every level: candidates and their organizations, parties, interest groups, the media, and voters, and the macro-level aspects of campaigns such as campaign strategy and determinants of election outcomes. The book concludes with a big picture assessment of campaign ethics and implications of the permanent campaign. New to the Fourth Edition: Fully updated through the 2020 elections, looking ahead to the 2022 midterms. Covers
