The Ashgate Research Companion to Ethics and International Relations Patrick Hayden, 2016-04-01 While skepticism about the role of moral considerations in international politics has been influential within the discipline of international relations IR those writing on topics such as war peace rights and trade up until the twentieth century took seriously the importance of ethical values and moral debates The 1990s and 2000s have seen a substantial growth of attention to the ways in which IR conceives and analyzes themes of an ethical nature and how issues problems and policies involving ethics are addressed by a variety of actors within the international system This indispensable research companion widens the perspective from ethics and international relations to ethics in international relations redressing the misperception that ethical concepts principles norms and rules are not in part constitutive of the international system and the agents acting within that system Necessarily cross disciplinary expertise is drawn from IR and also philosophy political theory religious studies history and law making this an ideal volume for any library reference collection

Spatiality, Sovereignty and Carl Schmitt Stephen Legg, 2011-05-17 The writings of Carl Schmitt are now indissociable from both an historical period and a contemporary moment He will forever be remembered for his association with the National Socialists of 1930s Germany and as the figure whose writings on sovereignty politics and the law provided justification for authoritarian decisional states Yet at the same time the post September 11th 2001 world is one in which a wide range of scholars have increasingly turned to Schmitt to understand a world of with us or against us Manichaeism spaces of exception which seem to be placed outside the law by

legal mechanisms themselves and the contestation of a uni polar post 1989 world This attention marks out Schmitt as one of the foremost emerging theorists in critical theory and assures his work a large and growing audience This work brings together geographers and Schmitt experts who are attuned to the spatial dimensions of his work to discuss his 1950 work *The Nomos of the Earth in the International Law of the Jus Publicum Europaeum* Explaining the growing audience for Schmitt's work a broad range of contributors also examine the Nomos in relation to broader debates about enmity and war the production of space the work of Michel Foucault and Giorgio Agamben and the recuperability of such an intellect tainted by its anti-Semitism and links to the Nazi party This work will be of great interest to researchers in political theory socio legal studies geopolitics and critical IR theory

Hannah Arendt and Cosmopolitanism Angela Taraborrelli, 2024-09-05 *Hannah Arendt and Cosmopolitanism* presents the first comprehensive study of Hannah Arendt's cosmopolitanism Challenging the common belief that cosmopolitanism is a negligible or incompatible element of Arendt's thought it unpacks various key

elements of her philosophy such as her critique of human rights the defence of the right to have rights as a right to belong to a particular political community the scepticism towards the establishment of a world government as a solution to the problem of statelessness and the importance she attached to the passport Through this the text argues that Arendt is a theorist of cosmopolitanism in her own right by reconstructing as systematically as possible an issue that is relatively neglected in the secondary literature Taraborrelli shows how Arendt anticipates and develops cosmopolitanism in four main forms moral political institutional judicial cultural and how in her thought there is no insuperable contradiction between cosmopolitanism and belonging to a political community or between cosmopolitanism and the conditions of political action
