**Debating Regime Legitimacy in Contemporary China** Suisheng Zhao, 2018-10-11 This comprehensive volume is a three part study of whether the Chinese political system has maintained a significant degree of regime legitimacy in the context of rising domestic discontent in particular the popular protests against socio economic inequality and environment degradation Part I presents the scholarly debate on the theoretical refinement and empirical measurement of regime legitimacy in contemporary China Part II focuses on the challenges to regime legitimacy of the increasingly widespread popular protests and civil activism Part III examines the regime s responses to these challenges including coercive repression adaptation and economic performance This book finds that while repression can hardly stop popular protests and often backfires economic performance legitimacy is increasingly difficult to be maintained The only way out is the adaptation to the changing domestic and international environment The chapters in this collection were originally published in the Journal of Contemporary China

**Social Structure Of Contemporary China** Xueyi Lu, 2012-07-24 This book is the third study done by the Research Group on Social Structure Change in Contemporary China a group affiliated with the Institute of Sociology Chinese Academy of Social Sciences The group has focused on the process of development and change in contemporary Chinese social structure and come to the following conclusions Contemporary China is transitioning from a traditional

agricultural and rural society to a modern industrialized and urban society from a highly centralized planned economy to a robust socialist market economic system The entire society is undertaking an unprecedented evolution During the three decades of reform and opening up China has made brilliant achievements never seen before in history Now China is in a critical period of reform and opening up with very complex far reaching and closely intertwined social problems which are also unprecedented After deep and detailed analysis the Research Group believes that these problems cannot be resolved only by economic methods In order to get to the roots of these social problems China must develop new social policies strengthen the social structure and carry out social system reform The core purpose of the book is to recommend theories and methods on social structure to society and readers and to investigate the development and change in China s social structure We believe that social structure theory a brand new point of view to analyze the current situation is capable of deciphering the social contradictions in China s development to some extent as opposed to mere economic theory which is inadequate to fully address the structural problems in China

**Elite Politics in Contemporary China** Joseph Fewsmith,2015-04-15 A discussion of elite politics in contemporary China While a great deal of the text is descriptive much of the emphasis is on drawing out and abstracting the political dynamic at work The past half century has seen many hopes raised and some dashed a succession of fears and false alarms and both triumphs and calamities that were almost entirely unexpected This work offers a short but sweeping history of world politics since 1945 America s postwar pre eminence and the hopes that attended the creation of the United Nations the Cold War and the emergence of a volatile Third World economic transformations and the twin threat of nuclear and ecological disaster the crumbling of the Soviet system and the short lived promise of a peaceful prosperous and democratic new world The author describes these momentous changes concisely in an effort to show how we got here from there and what we might have learned along the way

**Weapons Of The Rich. Strategic Action Of Private Entrepreneurs In Contemporary China** Thomas Heberer, Gunter Schubert, 2020-04-22 This book provides a fresh perspective on the political agency of private entrepreneurs in contemporary China Most Chinese scholarship describes this group as being politically acquiescent due to systematic co optation by the party state This book however argues that private entrepreneurs should be understood and analytically conceptualized as a strategic group that makes use of different formal and informal channels to safeguard and expand its interests though so far it has not challenged the current regime State business relations in contemporary China should thus be understood not in terms of mere clientelism but as a dynamic symbiosis in which private entrepreneurs contribute substantially to policy and institutional change This book is based on several years of comparative empirical fieldwork across China With its rich and unique qualitative data and insights this volume contributes significantly to our understanding of the political behaviour and impact of private entrepreneurs in contemporary China

**State Capacity Building in Contemporary China** Hiroko Naito, Vida Macikenaite, 2020-03-26

This volume explores the governing mechanism employed by the Chinese Communist Party CCP in the light of state capacity building. It is built on the premise that regime type notwithstanding, boosting state capacity and utilizing it in their political survival is of crucial concern for any political leader. Xi Jinping, who is no exception to this, has called for the necessity to expand state capacity while he aims to centralize the power under the party. This volume stands out as it offers a comprehensive view of Chinese party state especially under Xi Jinping. The research presented here is built on the analysis of authentic datasets and materials. It examines the CCP's relations with various state organs in the Chinese political system: mainly administrative organs, legislature, the people's congresses, judicial branch, the people's court system, as well as the military, the People's Liberation Army, and state-owned enterprises. This volume attempts to bring China closer to the field of comparative politics, making it a more comparable case.

*Rural Politics in Contemporary China* Emily T. Yeh, Kevin O'Brien, Jingzhong Ye, 2016-01-22. This collection provides an overview of China's rural politics, bringing scholarship on agrarian politics from various social science disciplines together in one place. The twelve contributions, spanning history, anthropology, sociology, environmental studies, political science, and geography, address enduring questions in peasant studies, including the relationship between states and peasants, taxation, social movements, rural-urban linkages, land rights, and struggles, gender relations, and environmental politics. Taking rural politics as the power-inflected processes and struggles that shape access and control over resources in the countryside, as well as the values, ideologies, and discourses that shape those processes, the volume brings research on China into conversation with the traditions and concerns of peasant studies scholarship. It provides both an introduction to those unfamiliar with Chinese politics, as well as in-depth new research for experts in the field. This book was published as a special issue of the *Journal of Peasant Studies*.
