Pakistan Mohammad Waseem, 2022-04-01 This book is a major reinterpretation of politics in Pakistan. Its focus is conflict among groups, communities, classes, ideologies, and institutions which has shaped the country's political dynamics. Mohammad Waseem critically examines the theory surrounding the millennium-long conflict between Hindus and Muslims as separate nations who practiced mingled faiths and the Hindu-Muslim and Sikh renaissances that created a twentieth-century clash of communities and led to partition. *Political Conflict in Pakistan* addresses multiple clashes between the high culture as a mission to transform society and the low culture of the land and the people between those committed to the establishment's institutional constitutional framework and those seeking to dismantle the colonial state between the corrupt and those seeking to hold them to account between the political class and the middle class and between civil and military power. The author exposes how the ruling elite centralised power through the militarisation and judicialization of politics, rendering the federalist arrangement an empty shell and thus grossly alienating the provinces. He sets all this within the contexts of education and media as breeders of conflict, the difficulties of establishing an anti-terrorist regime, and the state's pragmatic attempts at conflict resolution by seeking to keep the outsiders inside. This is a wide-ranging account of a country of contestations.

Islam and Pakistan's Political Culture Farhan Mujahid Chak, 2014-09-04 This book explores the ideological rivalry which is fuelling political instability in Muslim polities, discussing this in relation to Pakistan. It argues that the principal dilemma for Muslim polities is how to reconcile modernity and tradition. It discusses existing scholarship on the subject, outlines how Muslim political thought and political culture have developed over time, and then relates all this to Pakistan's political evolution, present political culture, and growing instability. The book concludes that traditionalist and secularist approaches to reconciling modernity and tradition have not succeeded and have in fact led to instability, and that a revivalist approach is more likely to be successful.

Pakistan's Political Parties Mariam Mufti, Sahar Shafqat, Niloufer Siddiqui, 2020-05-01 Pakistan's 2018 general elections marked the second successful transfer of power from one elected civilian government to another, a remarkable achievement considering the country's history of dictatorial rule. *Pakistan's Political Parties* examines how the civilian side of the state's current regime has survived the transition to democracy, providing critical insight into the evolution of political parties in Pakistan and their role in developing democracies in general. Pakistan's numerous political parties span the ideological spectrum as well as represent diverse regional, ethnic, and religious constituencies. The essays in this volume explore the way in which these parties both contend and work with Pakistan's military-bureaucratic establishment to assert and expand their power. Researchers use interviews, surveys, data, and ethnography to illuminate the internal dynamics and motivations of these groups and the mechanisms through which they create policy and influence state and society. *Pakistan's Political Parties* is a one-of-a-kind resource for diplomats, policymakers, journalists, and scholars searching for a comprehensive overview of Pakistan's party system and its unlikely survival against an interventionist military, with insights that extend far beyond the region.

The Political Ecology of Pakistan Gholam Mujtaba, 2018-10-22 Pakistan is about to play a pivotal role in global politics. Serving as a gateway to the Middle East and a conduit to Central and South Asia, it will be a crucial partner as the United States contends with China's rise as an emerging global superpower and seeks to maintain its hegemony in the region. The problem is for many people in the West, Pakistan is somewhat of a black box with few Westerners understanding the country's complex history and current political reality. *The Political Ecology of Pakistan* aims to change this by outlining the geopolitical history of Pakistan since the country gained independence in 1947, focusing in particular on the military's ongoing role in state affairs and the struggle for democracy to take root in the region. In addition, this book outlines Pakistan's improved economy, internal security, religious harmony, equality of opportunity, corruption-free society, and growing transparency and accountability, all of which will make the country a vital partner in securing and maintaining peace in the region. This information will be of interest to policymakers as well as those who are seeking to understand Pakistan's geopolitical significance.

Political and Social Change in Pakistan's Tribal Areas Naveed Ahmad Shinwari, 2025-05-23 This book analyses agency and place of youth within the Pashtun tribal social order in Pakistan. It looks at Pashtun youth as a separate social category, analysing their changing trends of political leadership in Pakistan's former Federally Administered Tribal Areas (FATA). Presenting an in-depth ethnographic inquiry into the intricate dynamics of political leadership manifest among the Pashtun youth hailing from the erstwhile FATA, this book adds more depth to the understanding of political developments and the peculiar relationship between FATA and Pakistan in general. The author argues that events following the Soviet invasion and post-9/11 have disrupted traditional age-based relations in Pashtun society, enabling young adults to assert their political agency in unprecedented ways. This book demonstrates how Pashtun youth have emerged at the forefront of politics through avenues such as Talibanisation, migration, elite politics, and the Pashtun social movement. These young individuals are redefining politics in FATA and across Pakistan, playing a pivotal role in shaping new relationships between the Pashtun community and the Pakistani nation. By demystifying longstanding misconceptions and stereotypes perpetuated since British colonial times and post-independence Pakistan, and the evolving political dynamics in the context of the post-withdrawal phase of US forces from Afghanistan in August 2021, this book provides new empirical evidence and

insights into social injustices faced by Pashtun youth Analysing themes such as political alliances among diverse youth groups identity politics expressions of agency migration and the importance of urban spaces for activism and rights claims the study sheds light on the dynamic role of Pashtun youth in contemporary South Asia making it essential reading for understanding the region s socio political landscape It will be of interest to researchers studying politics and society in Pakistan and Afghanistan anthropology and post conflict reconstruction in South Asia Area Handbook for Pakistan Richard F. Civil Society and Pakistan's Economy Fayyaz Baqir, 2023-03-17 This book analyses the paradoxes of Pakistan's economy meritocratic domestic policy and the role of the state and the civil society It argues that the transition in the country's foreign policy from geo politics to geo economic depends on a fundamental domestic policy transition from kleptocracy to meritocracy Civil Society and Pakistan's Economy discusses how the prevalence of rent seeking practices has undermined merit based practices by increasing the cost of doing business and converting public loss into private profit by awarding inappropriate subsidies and imposing regressive taxes The analyses are supported by describing the instruments and mechanisms used for rent seeking practices and the creation of public awareness of options available to change these practices through citizen's action and civil society engagement The book also shows the path of transformation and the role of participation and argues that aspiring for and capturing power is not the only way to transform Pakistan A novel analysis depicting macro micro linkages of encroachment of socio economic space by the power elites and effective strategies used for its reappropriation by the people the book will be of interest to academics researching South Asian Studies in particular South Asian economics and politics
