**Garrett Ward Sheldon, Charles William
Hill**

Political Theory Of John Taylor Of Caroline:

The Political Theory of John Taylor of Caroline Charles William Hill, 1976 Originally presented as the author's thesis American University 1969 Includes index Bibliography p 322 333

The Liberal Republicanism of John Taylor of Caroline Garrett Ward Sheldon, Charles William Hill, 2008 Taylor's conception of government is based on the Lockean view that people are free equal and independent individuals who possess natural rights and should have the moral liberty to choose any form of government that suits them without obligation to hereditary rulers or established social classes When John Taylor of Caroline is viewed from the twin perspectives of Lockeanism and Classical Republicanism his ideas provide inspiration for any who are concerned about homogenization of culture and loss of individual freedom nationally and internationally **BOOK JACKET**

The Political Thought of John Taylor of Caroline Jonathan Munford Bowie, 1973

The Federal Republic in the Political Theory of John Taylor of Caroline Harold Brantley Cline, 1981 *Political Thought and the Origins of the American Presidency* Ben Lowe, 2024-09-17 How the American executive office was constructed in the Constitution and implemented by the first presidents This volume examines the political ideas behind the construction of the presidency in the U S Constitution as well as how these ideas were implemented by the nation's early presidents The framers of the Constitution disagreed about the scope of the new executive role they were creating and this volume reveals the ways the duties and power of the office developed contrary to many expectations Here leading scholars of the early republic examine principles from European thought and culture that were key to establishing the conceptual language and institutional parameters for the American executive office Unpacking the debates at the 1787 Constitutional Convention these essays describe how the Constitution left room for the first presidents to set patterns of behavior and establish a range of duties to make the office functional within a governmental system of checks and balances Contributors explore how these presidents understood their positions and fleshed out their full responsibilities according to the everyday operations required to succeed As disputes continue to surround the limits of executive power today this volume helps identify and explain the circumstances in which limits can be imposed on presidents who seem to dangerously exceed the constitutional parameters of their office *Political Thought and the Origins of the American Presidency* demonstrates that this distinctive time tested role developed from a fraught historically contingent and contested process Contributors Claire Rydell Arcenas Lindsay M Chervinsky Fran ois Furstenberg Jonathan Gienapp Daniel J Hulsebosch Ben Lowe Max Skj nsberg Eric Slauter Caroline Winterer Blair Worden Rosemarie Zagarri A volume in the Alan B and Charna Larkin Series on the American Presidency *The Principles of Constitutional Government* Warren L. McFerran, 1817 [Senators of the United States](#) Diane B. Boyle, 1995 S Doc 103 34 Compiled by Jo Anne McCormick Quatannens Diane B Boyle editorial assistant prepared under the direction of Kelly D Johnston Secretary of the Senate Lists scholarly works that profile the lives and legislative service of senators and their autobiographies and other published works **The Bloomsbury Encyclopedia of**

Philosophers in America John R. Shook, 2016-02-11 For scholars working on almost any aspect of American thought The Bloomsbury Encyclopedia to Philosophers in America presents an indispensable reference work Selecting over 700 figures from the Dictionary of Early American Philosophers and the Dictionary of Modern American Philosophers this condensed edition includes key contributors to philosophical thought From 1600 to the present day entries cover psychology pedagogy sociology anthropology education theology and political science before these disciplines came to be considered distinct from philosophy Clear and accessible each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading Featuring a new preface by the editor and a comprehensive introduction The Bloomsbury Encyclopedia to Philosophers in America includes 30 new entries on twenty first century thinkers including Martha Nussbaum and Patricia Churchland With in depth overviews of Waldo Emerson Margaret Fuller Noah Porter Frederick Rauch Benjamin Franklin Thomas Paine and Thomas Jefferson this is an invaluable one stop research volume to understanding leading figures in American thought and the development of American intellectual history

Political Sovereignty: The Supreme Authority in the United States, *Conservatism and Southern Intellectuals, 1789-1861* Adam L. Tate, 2005

Dictionary of Early American Philosophers John R. Shook, 2012-04-05 The Dictionary of Early American Philosophers which contains over 400 entries by nearly 300 authors provides an account of philosophical thought in the United States and Canada between 1600 and 1860 The label of philosopher has been broadly applied in this Dictionary to intellectuals who have made philosophical contributions regardless of academic career or professional title Most figures were not academic philosophers as few such positions existed then but they did work on philosophical issues and explored philosophical questions involved in such fields as pedagogy rhetoric the arts history politics economics sociology psychology medicine anthropology religion metaphysics and the natural sciences Each entry begins with biographical and career information and continues with a discussion of the subject's writings teaching and thought A cross referencing system refers the reader to other entries The concluding bibliography lists significant publications by the subject posthumous editions and collected works and further reading about the subject

Senators of the United States, 1995 **Science and the Founding Fathers** I. Bernard Cohen, 1997 Thomas Jefferson was the only president who could read and understand Newton's Principia Benjamin Franklin is credited with establishing the science of electricity John Adams had the finest education in science that the new country could provide including Pneumatics Hydrostatics Mechanics Statics Optics James Madison chief architect of the Constitution peppered his Federalist Papers with references to physics chemistry and the life sciences For these men science was an integral part of life including political life This is the story of their scientific education and of how they employed that knowledge in shaping the political issues of the day incorporating scientific reasoning into the Constitution

National Identity and the Agrarian Republic Manuela Albertone, 2016-04-22 With a few exceptions historiography has paid little

attention to the impact of French economic thought during the American Revolution focusing instead on the Revolution's links with Britain. This book outlines how from the mid eighteenth to the early nineteenth century the political and social dimension of French economic thought and particularly of Physiocracy spurred American Republicans to a radical shaping of American agrarian ideology. Such a perspective allows for a reconsideration of several questions that lie at the heart of contemporary historiographic debate: the connection between politics and economics, the meaning of republicanism, the foundations of representation, the role of Europe in the Atlantic world and the interaction between national histories and global context. In particular, the research methodology adopted here makes it possible to reconstruct how American national identity conceived as an expression of society in economic terms emerged through a cosmopolitan way of thinking focused on the uniqueness of the new state.

A Source Book of American Political Theory Benjamin Fletcher Wright, 1929

[The Rise of Economic Societies in the Eighteenth Century](#) K. Stapelbroek, J. Marjanen, 2012-08-30 This collection of essays explores the emergence of economic societies in the British Isles and their development into a European American and global reform movement in the eighteenth century. Its fourteen contributions demonstrate the intellectual horizons and international networks of this widespread and influential phenomenon.

[America's Forgotten Founders, second edition](#) Gary L. Gregg, Mark David Hall, 2023-05-30 Beyond Washington and Jefferson: Ranking the Founders. Even as Americans devour books about our Founding Fathers, the focus seldom extends past a half dozen or so icons: Franklin, Washington, Adams, Jefferson, Madison, Hamilton. Many of the men and women who made prodigious contributions to the American founding have been all but forgotten. *America's Forgotten Founders* corrects this injustice. Editors Gary L. Gregg II and Mark David Hall surveyed forty-five top scholars in history, political science, and law to produce the first ever ranking of the most neglected contributors to the American Revolution and our constitutional order. This unique book features engaging short biographies of the top ten most important Founders whose contributions are overlooked today: James Wilson, George Mason, Gouverneur Morris, John Jay, Roger Sherman, John Marshall, John Dickinson, Thomas Paine, Patrick Henry, and John Witherspoon. Part of the *Lives of the Founders* series, *America's Forgotten Founders* reshapes our understanding of America's founding generation.

[What Hath God Wrought](#) Daniel Walker Howe, 2007-10-29 The *Oxford History of the United States* is by far the most respected multi-volume history of our nation. In this Pulitzer prize-winning, critically acclaimed addition to the series, historian Daniel Walker Howe illuminates the period from the battle of New Orleans to the end of the Mexican American War, an era when the United States expanded to the Pacific and won control over the richest part of the North American continent. A panoramic narrative, *What Hath God Wrought* portrays revolutionary improvements in transportation and communications that accelerated the extension of the American empire. Railroads, canals, newspapers, and the telegraph dramatically lowered travel times and spurred the spread of information. These innovations prompted the emergence of mass political parties and stimulated America's economic development from an overwhelmingly rural country to a diversified economy in which commerce and

industry took their place alongside agriculture In his story the author weaves together political and military events with social economic and cultural history Howe examines the rise of Andrew Jackson and his Democratic party but contends that John Quincy Adams and other Whigs advocates of public education and economic integration defenders of the rights of Indians women and African Americans were the true prophets of America s future In addition Howe reveals the power of religion to shape many aspects of American life during this period including slavery and antislavery women s rights and other reform movements politics education and literature Howe s story of American expansion culminates in the bitterly controversial but brilliantly executed war waged against Mexico to gain California and Texas for the United States Winner of the New York Historical Society American History Book Prize Finalist 2007 National Book Critics Circle Award for Nonfiction The Oxford History of the United States The Oxford History of the United States is the most respected multi volume history of our nation The series includes three Pulitzer Prize winners a New York Times bestseller and winners of the Bancroft and Parkman Prizes The Atlantic Monthly has praised it as the most distinguished series in American historical scholarship a series that synthesizes a generation s worth of historical inquiry and knowledge into one literally state of the art book Conceived under the general editorship of C Vann Woodward and Richard Hofstadter and now under the editorship of David M Kennedy this renowned series blends social political economic cultural diplomatic and military history into coherent and vividly written narrative

The Culture of the Market Thomas L. Haskell, Richard F. Teichgraber, III, 1996-06-13 A collection of thirteen essays examining how the market has been perceived represented and experienced differently in different epochs

The Roots of American Individualism Alex Zakaras, 2024-08-20 A panoramic history of American individualism from its nineteenth century origins to today s bitterly divided politics Individualism is a defining feature of American public life Its influence is pervasive today with liberals and conservatives alike promising to expand personal freedom and defend individual rights against unwanted intrusion be it from big government big corporations or intolerant majorities The Roots of American Individualism traces the origins of individualist ideas to the turbulent political controversies of the Jacksonian era 1820 1850 and explores their enduring influence on American politics and culture Alex Zakaras plunges readers into the spirited and rancorous political debates of Andrew Jackson s America drawing on the stump speeches newspaper editorials magazine articles and sermons that captivated mass audiences and shaped partisan identities He shows how these debates popularized three powerful myths that celebrated the young nation as an exceptional land of liberty the myth of the independent proprietor the myth of the rights bearer and the myth of the self made man The Roots of American Individualism reveals how generations of politicians pundits and provocateurs have invoked these myths for competing political purposes Time and again the myths were used to determine who would enjoy equal rights and freedoms and who would not They also conjured up heavily idealized apolitical visions of social harmony and boundless opportunity typically centered on the free market that have distorted American political thought to this day

The Top Books of the Year Political Theory Of John Taylor Of Caroline The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous engrossing novels enthralling the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have charmed audiences this year. Political Theory Of John Taylor Of Caroline : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Political Theory Of John Taylor Of Caroline : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Political Theory Of John Taylor Of Caroline : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and thrilling novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
