Political Thinking And Consciousness The Private Life Of The Political Mind:

Political Thinking and Consciousness Robert Edwards Lane, 1969 **Women Transforming Politics** Cathy Cohen, Kathleen B. Jones, Joan C. Tronto, 1997-07 Contains over thirty essays which explore the complex contexts of political engagement family and intimate relationships friendships neighborhood community work environment race religious and other cultural groupings that structure perceptions of women's opportunities for political participation *The Handbook of Political Behavior* Samuel Long, 2013-11-11 In the writing of prefaces for works of this sort most editors report being faced with similar challenges and have much in common in relating how these challenges are met They acknowledge that their paramount objective is to provide more than an overview of topics but rather to offer selective critical reviews that will serve to advance theory and research in the particular area reviewed The question of the appropriate audience to be addressed is usually answered by directing material to a potential audience of social scientists graduate students and occasionally advanced undergraduate students Editors who are confronted with the problem of structuring their material often explore various means by which their social science discipline might be subdivided then generally conclude that no particular classification strategy is superior In elaborating on the process by which the enterprise was initiated editors typically resort to a panel of luminaries who provide independent support for the idea and then offer both suggestions for topics and the authors who will write them Editors usually concede that chapter topics and content do not reflect their original conception but are a compromise between their wishes and the authors' expertise and capabilities Editors report that inevitable delays occur authors drop out of projects and are replaced and new topics are introduced Finally editors frequently confess that the final product is incomplete with gaps occurring because of failed commitments by authors or because authors could not be secured to write certain chapters *Latina Politics, Latino Politics* Carol Hardy-Fanta, 2011-02-02 Political organizing by men and women in Boston's Latino community **Theory of Political Sociology** S.P. between Society and Politics **Political Consultants in U.S. Congressional Elections** Stephen K. Medvic, 2001
 Campaign consultants are arguably now as famous in the United States as the politicians themselves During the past decade those who know the names Bill Clinton George Bush Newt Gingrich and Christine Todd Whitman also recognize the names James Carville Mary Matalin Frank Luntz and Ed Rollins Professional consultants once part of the privileged inner circle of presidential and gubernatorial candidates are increasingly found at all levels of politics Indeed more than half of congressional candidates hire campaign consultants These professional have become as important to a candidate s success as money In this innovative study Stephen K Medvic explores all aspects of political consultancy and develops an empirically based theory that ensures the impact consultants have on elections Political Consultants in U S Congressional Elections answers two simple questions What do professional political consultants do and How successful are they Medvic analyzes the way consultants shape political dialogue and uses empirical data to show the benefits and limits of a consultant s involvement in a campaign He focuses on issues as diverse as vote shares outcomes and fundraising Finally the author demonstrates how the adversarial nature of campaigns fosters the kind of electioneering advocated by most political consultants and argues that this process may not be as harmful for the country as is often suggested Latino Politics in Massachusetts Carol Hardy-Fanta, Jeffrey Gerson, 2014-01-14 This collection of original essays explores the major challenges to Latino political representation in cities where Latino populations do not make up the majority of the population and therefore cannot rely on sheer numbers to gain representation Human Needs and Politics Ross Fitzgerald, 2016-06-21 Human Needs and Politics is a collection of papers that examines the intercorrelation between political trends and the fulfillment of society s human needs The title discusses the concepts of human needs wants and politics Next the selection details some theories that will shed light into the mechanisms of human needs politics interaction The text also reviews Maslow s hierarchy of needs along with Marx s opinion on human needs The book will be of great interest to political scientists sociologists and behavioral scientists **Modern Political Analysis** Shyama Prasad Guru, 2024-01-01 Modern Political Analysis constitutes the scientific component of the Discipline of Political Science It is concerned with a realistic study and analysis of Politics and Political Phenomena on employing Scientific Behavioural Theories and Models conceptualized and designed in conformity with the Behavioural Approach In this context some major Theories are The Decision Theory The Power Theory The Group Theory The Systems Theory The Political Culture Theory The Political Cybernetic Theory The Political Participation Theory and The Political Development Theory These Theories are the intellectual products of the Behavioural Movement in Political Science and are intended for undertaking realistic precise and comprehensive analysis of Politics as needed for providing solutions to the pressing political problems of Mankind Along with lucid and systematic elucidation of these Theories and Models this Book contains an exposition of the Nature and Scope of Modern Political Analysis its Limitations and Contemporary Trends It is intended to foster and reinforce the scientific foundation of the Discipline of Political Science

Narratives of Justice Grant Reeher, 2010-05-06 *Narratives of Justice* offers a provocative contemporary look at the timeless questions of justice and fairness Using face to face interviews Grant Reeher plumbs the minds of legislators for their beliefs about distributive justice and attempts to discover the ways in which those beliefs influence their behavior The book calls into question many notions of American political ideology and in particular the idea of an American exceptionalism regarding views from the political left and the dominance in the United States of a liberal tradition Political philosophers have amassed a large body of work on justice and fairness from a theoretical perspective but there is comparatively little empirical work on the subject The work that does exist concentrates on the beliefs of the public We know very little concerning the beliefs about justice held by political elites This work offers a window into the beliefs of legislators a group for which such an inquiry is rarely undertaken The book is based on a set of extended in depth interviews with the members of the Connecticut State Senate as well as a year of close observation of the Senate in action The interviews averaged four hours in length and covered a variety of topics related to fairness Through this material Reeher employs a narrative based framework to understand the patterns in the senators interview responses and develops a typology of the senator s narratives These narratives vary in both content and form and as a whole present a surprising range of views *Narratives of Justice* will be of interest to those concerned with justice political ideologies and political beliefs as well as state and local politics and more generally American politics Its wide research and thorough documentation make it a useful guide to the literature within and beyond political science concerning beliefs ideologies legislative behavior and qualitative research methods Grant Reeher is Assistant Professor Maxwell School of Citizenship and Public Affairs Department of Political Science Syracuse University and currently a Robert Wood Johnson Foundation Scholar in Health Policy Research University of Michigan

The Rationalizing Voter Milton Lodge, Charles S. Taber, 2013-04-22 When citizens think about political leaders groups and issues their feelings bias how information is encoded evaluated and acted upon *Neither Liberal nor Conservative* Donald R. Kinder, Nathan P. Kalmoe, 2017-05-24 Congress is crippled by ideological conflict The political parties are more polarized today than at any time since the Civil War Americans disagree fiercely about just about everything from terrorism and national security to taxes and government spending to immigration and gay marriage Well American elites disagree fiercely But average Americans do not This at least was the position staked out by Philip Converse in his famous essay on belief systems which drew on surveys carried out during the Eisenhower Era to conclude that most Americans were innocent of ideology In *Neither Liberal nor Conservative* Donald Kinder and Nathan Kalmoe argue that ideological innocence applies nearly as well to the current state of American public opinion Real liberals and real conservatives are found in impressive numbers only among those who are deeply engaged in political life The ideological battles between American political elites show up as scattered skirmishes in the general public if they show up at all If ideology is out of reach for all but a few who are deeply and seriously engaged in political life how do Americans decide whom to elect president whether affirmative

action is good or bad Kinder and Kalmoe offer a persuasive group centered answer Political preferences arise less from ideological differences than from the attachments and antagonisms of group life *American Political Scientists* Glenn H. Utter, Charles Lockhart, 2002-10-30 This dictionary offers the only comprehensive collection of profiles of American political scientists each of whom contributed significantly to the intellectual development of American political science from its beginnings in the late 19th century to the present This second edition includes 22 new and 110 revised entries reflecting new scholarship that emerged during the 1990s Numerous experts helped the editors develop this consensus group of the 193 political scientists who have made the most important theoretical contributions over the years with attention to varied approaches and the different subfields Alphabetically arranged entries focus on the main ideas and major works by each scholar listing list the most important publications by and about the individual There are numerous cross references to show how the work of one scholar has influenced another in the discipline Appendices list the political scientists by degree granting institutions and by major fields A short bibliography points to important general readings about the profession A general index makes this major reference easily accessible for broad interdisciplinary research **The Nature of Belief Systems Reconsidered** Jeffrey Friedman, Shterna Friedman, 2018-12-07 In the foundational document of modern public opinion research Philip E Converse s *The Nature of Belief Systems in Mass Publics* 1964 established the U S public s startling political ignorance This volume makes Converse s long out of print article available again and brings together a variety of scholars including Converse himself to reflect on Converse s findings after nearly half a century of further research Some chapters update findings on public ignorance Others outline relevant research agendas not only in public opinion and voter behavior studies but in American political development state theory and normative theory Three chapters grapple with whether voter ignorance is rational Several chapters consider the implications of Converse s findings for the democratic ideal of a well informed public others focus on the political elite who are better informed but quite possibly more dogmatic than members of the general public Contributors include Scott Althaus Stephen Earl Bennett Philip E Converse Samuel DeCanio James S Fishkin Jeffrey Friedman Doris A Graber Russell Hardin Donald Kinder Arthur Lupia Samuel L Popkin Ilya Somin and Gregory W Wawro This book was originally published as a special issue of *Critical Review A Journal of Politics and Society* *The New Presidential Elite* Jeane J. Kirkpatrick, 1975-11-02 Explores the idea that a new breed of men and women are actively involved in the majority American political party and that their motives goals ideals and patterns of organizational behavior are different from those of the people who have dominated U S politics in the past This book is based on interviews with 1 300 delegates to the 1972 Democratic and Republican National Conventions and mail questionnaires completed by some 55 percent of the delegates The author identifies women as one part of the new presidential elite and analyzes their social cultural psychological and political characteristics This study was funded jointly by Russell Sage Foundation and The Twentieth Century Fund **New Directions in American Politics** Raymond J. La Raja, 2013-02-15

New Directions in American Politics introduces students not just to how the American political system works but also to how political science works. La Raja brings together top scholars to write original essays across the standard curriculum of American government and politics capturing emerging research in the discipline in a way that is accessible for undergraduates. Each chapter combines substantive knowledge with the kind of skill building and analytical inquiry that is being touted in higher education everywhere. Contributors to New Directions highlight why the questions they seek to answer are critical for understanding American politics and situate them in the broader context of controversies in research. The teaching of American politics follows a well worn path. Textbooks for introductory courses hew to a traditional set of chapters that describe the Founding American institutions, the ways citizens participate in politics and sometimes public policy. The material rarely engages students in the kind of questions that animate scholarship on politics. One hurdle for instructors is finding material that reflects quality scholarship and thus teaches students about why not just what and yet is accessible for undergraduates. Articles in scholarly journals are typically unsuited for undergraduate courses, particularly introductory courses. What is needed is a book that conveys exciting trends in scholarship across vital topics in American politics and illustrates analytical thinking. New Directions in American Politics is that book and will be an ideal companion to standard textbooks that focus mostly on nuts and bolts of politics. The book features Contributions from a top notch cast of active scholars and a highly regarded editor. A focus on analytical thinking that addresses questions of causality. Full coverage of the American politics curriculum. Short interviews with each contributor on a companion website to help the research come alive and prompt critical thinking questions for students. Work that draws on the highest quality research in political science but is written specifically for first year undergraduate students. There is simply no book like this available to the growing number of faculty who want their introductory American politics course to be a reflection of the political science discipline and not just the nuts and bolt facts of the American political system.
