## **Political Apocalypse A Study Of Dostoevsky's Grand Inquisitor:**

**Political Apocalypse** Ellis Sandoz, 1971     *Political Apocalypse* Ellis Sandoz, 1971     *The Grand Inquisitor* Fyodor Dostoyevsky, Charles B. Guignon, 1993-01-01 This new edition presents *The Grand Inquisitor* together with the preceding chapter *Rebellion* and the extended reply offered by Dostoevsky in the following sections entitled *The Russian Monk* By showing how Dostoevsky frames the *Grand Inquisitor* story in the wider context of the novel this edition captures the subtlety and power of Dostoevsky's critique of modernity as well as his alternative vision of human fulfillment     **Dostoevsky's Political Thought** Richard Avramenko, Lee Trepanier, 2013-05-23 Recognized as one of the greatest novelists of all time Fyodor Dostoevsky continues to inspire and instigate questions about religion philosophy and literature However there has been a neglect looking at his political thought its philosophical and religious foundations its role in nineteenth century Europe and its relevance for us today Dostoevsky's *Political Thought* explores Dostoevsky's political thought in his fictional and nonfictional works with contributions from scholars of political science philosophy history and Russian Studies From a variety of perspectives these scholars contribute to a greater understanding of Dostoevsky not only as a political thinker but also as a writer philosopher and religious thinker     *The Grand Inquisitor* Ellis Sandoz, 1967     Dostoevsky P.H. Brazier, 2018-01-01 As a writer and prophet Dostoevsky was no academic theologian yet his writings are deeply theological his life beliefs even his epilepsy all had a role in generating his theology and eschatology Dostoevsky's novels are riven with paradoxes are deeply dialectical and represent a criticism of religion offered in the service of the gospel In this task he presented a profound understanding and portrait of humanity Dostoevsky's novels chart the movement of the human into death either the movement through paradox and Christlikeness into Christ's cross a soteriology often characterized by the apophatic negation and self denial what we may term the Mark of Abel leading to salvation and resurrection or conversely the movement of those who refuse Christ's invitation to be redeemed and continue to fall into a self willed death and a self generated hell the Mark of Cain This eschatology becomes a theological axiom which he unceasingly warned people of in his mature works Startlingly original stripped of all religious pretence some prostitutes and criminals might just have a better understanding of salvation than some of the pietistic wealthy and cultured classes Dostoevsky as a prophet forewarned of the politicized humanistic delusions of the twentieth century a prophet crying out through the wilderness     **Behold, My Mother and My Brethren!** Bryan M. Christman, 2022-10-18 In this Kierkegaardian reading of Mark's Gospel two of the most creative and passionate witnesses of Christ's gospel are brought together to mutually inform its superlative wonder Both writers winsomely revealed the nature of human existence in sin and the new life Jesus lived and made possible for all as the paradoxical God man They highlighted the single individual against the frenzied crowd in untruth driven by despair whether conscious or unconscious and vulnerable to enticing publicity and deceptive propaganda The entrenched societal systems unjustly determined for time and eternity who God favored or disfavored In dramatic contrast Mark and Kierkegaard

both elucidated God's good news calling forth the highest and happy passion of faith capable of creating a new family unconstrained by the status quo of the established order's old wineskin. In short through the gospel they powerfully challenged the system whether modern Christendom or its first century equivalent and did so by merely following Jesus out over 70,000 fathoms weathering demonic storms and overcoming dehumanizing societal bureaucracies set against them and humanity at large. This Kierkegaardian reading of Mark reveals two kindred spirits after Christ's spirit demonstrating the redemptive love of God for all humanity centered in Christ.

*Holy Foolishness* Harriet Murav, 1992. This book examines the ways in which Dostoevsky's adoption and reinvention of the medieval Russian holy fool in Russian Orthodoxy—a person who feigned madness or folly as an ascetic feat of self-humiliation—serves as a locus for a critique of his culture's increasing reliance on the scientific paradigms of Claude Bernard's physiology and as a source of formal narrative innovation in his novels. The author first explores the paradoxical hagiography of the holy fool whose saintly acts are disguised under the mask of demonic folly. She then traces the rise of medical science in the nineteenth century and the increasing authority of the new scientific models of human behavior, especially the all-important notion of the normal and the pathological. The book then shifts to close readings of four of Dostoevsky's major novels: *Crime and Punishment*, *The Idiot*, *The Devils*, and *The Brothers Karamazov*, always keeping the double focus of cultural critique and formal innovation. The author examines how Dostoevsky develops a specific literary procedure that is itself holy foolishness. That is, his novels in their structure and in particular in the voice of their narrators mislead, tempt, and scandalize the reader much like the street theater of the medieval holy fool. This difficult relationship between reader and text is mirrored in what is represented in the text as the interaction between the holy fool and other characters. In its theoretical orientation, the book both builds from and criticizes Bakhtin's work on carnival. The author offers a less optimistic account showing how in Dostoevsky carnival is more demonic than jubilant, particularly in *The Devils* where carnival leads to a frightening chaos.

**Dostoevsky's Critique of the West** Bruce K. Ward, 2010-10-30. Not much attention has been given to Dostoevsky's concern with the crisis of the modern West, although allusions to almost every aspect of Western civilization, including the political, economic, and social dimensions, are present in his literary works and abound in his secondary writings. This book points the way to a better understanding of the apparent contradiction between Dostoevsky's concern with the highest reaches of human spirituality and at the same time with the most detailed developments in domestic and international politics. Ward argues that the apparent polarization of religious thought and political analysis of the West are held together for Dostoevsky in his search for the best human order. He demonstrates not only that Dostoevsky's observations about the West constitute a coherent critique intimately related to the deepest aspects of his thought but also that these can be rendered more systematic and explicit. What results is an incisive account of both the religious and the political thought of Dostoevsky which helps clarify what Dostoevsky can teach us about the modern situation of the Western world and about the problem of human

order in general for as the author states it was Dostoyevsky's great virtue as a thinker always to see the pressing issues of his particular time and place in the light of the everlasting problems     **Autobiographical Reflections, Revised Edition with Glossary** Eric Voegelin, 2011-06 The 34th volume of the Collected works of Eric Voegelin consists of Voegelin's autobiographical reflections reprinted from the 1989 edition with additional annotations a glossary of terms used in Voegelin's writings illustrated with examples from throughout the Collected works a volume index and a cumulative index     **The Collected Works of Eric Voegelin** Eric Voegelin, 1989     Reference Guide to Russian Literature Neil Cornwell, 2013-12-02 First Published in 1998 This volume will surely be regarded as the standard guide to Russian literature for some considerable time to come It is therefore confidently recommended for addition to reference libraries be they academic or public

*Beginning the Quest* Barry Cooper, 2009 Examines an analysis of the legal and political writing of Eric Voegelin during the 1920s and the 1930s Cooper discusses Voegelin's first systematic effort to bring together the principles of philosophical anthropology with his understanding of comparative social science and examines Voegelin's *The Authoritarian State* and *The New Science of Politics* Provided by publisher     *The Politics of Truth and Other Untimely Essays* Ellis Sandoz, 1999 This volume explores the historical and theoretical underpinnings of personal liberty and free government and provides an analysis of the crisis of civic consciousness endangering both     **America's Forgotten Founders, second edition** Gary L. Gregg, Mark David Hall, 2023-05-30 Beyond Washington and Jefferson Ranking the Founders Even as Americans devour books about our Founding Fathers the focus seldom extends past a half dozen or so icons Franklin Washington Adams Jefferson Madison Hamilton Many of the men and women who made prodigious contributions to the American founding have been all but forgotten America's Forgotten Founders corrects this injustice Editors Gary L. Gregg II and Mark David Hall surveyed forty-five top scholars in history political science and law to produce the first ever ranking of the most neglected contributors to the American Revolution and our constitutional order This unique book features engaging short biographies of the top ten most important Founders whose contributions are overlooked today James Wilson George Mason Gouverneur Morris John Jay Roger Sherman John Marshall John Dickinson Thomas Paine Patrick Henry and John Witherspoon Part of the Lives of the Founders series America's Forgotten Founders reshapes our understanding of America's founding generation     The Growth of the Liberal Soul David Walsh, 1997 The widespread abandonment of the search for foundations by John Rawls Richard Rorty Michael Oakeshott and the deconstructionists has been interpreted as signifying the absence of any sustaining inner resources The result has been the confusion of contemporary liberal democratic self-understanding which cannot make sense of its own extraordinary historical success nor apparently prevent the evident unraveling of its own moral code

*Remembering The End* P. Travis Kroeker, 2018-03-08 Dostoevsky was one of those writers of the nineteenth century who came to be regarded by many readers in the following century as a prophet How does he remain prophetic for us now in the early twenty-first century Remembering the End explores and assesses Dostoevsky's critique of modernity with particular

focus on the Grand Inquisitor in *The Brothers Karamazov* where his prophetic vision finds its most intense expression. The authors write to elucidate the spiritual realism of Dostoevsky's biblically charged literary art and to show how it can help us to remember who we are in this modern postmodern moment in which as individuals and members of communities we are required to make critical choices about the meaning of justice, history, truth and happiness. The book will be of interest to readers in comparative literature, ethics, political theory, philosophy, religious studies and theology. The Cambridge Companion to Dostoevskii William J. Leatherbarrow, 2002-07-18. Key dimensions of Dostoevskii's writing and life are explored in this collection of specially commissioned essays. Contributors examine topics such as Dostoevskii's relation to folk literature, money, religion, the family and science. The essays are well supported by supplementary material including a chronology of the period and detailed guides to further reading. Altogether the volume provides an invaluable resource for scholars and students. *Reading Dostoevsky* Victor Terras, 1998. Admirers have praised Fedor Dostoevsky as the Russian Shakespeare while his critics have slighted his novels as merely cheap amusements. In this critical introduction to Dostoevsky's fiction the author asks readers to draw their own conclusions about the nineteenth century Russian writer. Discussing psychological, political, mythical and philosophical approaches he guides readers through the range of diverse and even contradictory interpretations of Dostoevsky's rich novels. *Dostoevsky* Richard Freeborn, 2003. Fyodor Dostoevsky is known as the author of some of the most important Russian novels of the 19th Century. His greatness is his command of a multitude of human factors from the most saintly to the most pathological, delineating the deepest emotional states from the perversely criminal and the profoundest sense of evil to a sublime belief in a Christian God. Throughout as this biography shows he never became detached from the realities of the Russian world. Book jacket.
