Political Concepts

Georgina Blakeley, Valerie Bryson

Political Concepts:

Political Concepts And Political Theories Gerald Gaus, 2018-02-20 This book presents an analysis of the political concepts It focuses on enduring disputes about the nature of freedom power equality justice democracy and authority The book is useful for both first year and advanced students who seek to learn more about political theory Mind and Political Concepts Ezra Talmor, 2013-10-22 Mind and Political Concepts provides a descriptive account of the Conceptual Method as applied to Political Philosophy The starting point of this six chapter book is the analysis of the notions of psychological coercion and of social coercion and on the basis of this analysis to evolve a notion of political obligation The first three chapters cover the three classical political philosophies Plato s philosophical method and its influence in fixing the realm of inquiry of the political order the structure of human behavior science versus dialectic Hobbes scientific conceptual method and Rousseau unphilosophical analysis of human nature and the state The succeeding chapter describes the structure of a political theory A chapter focuses on the concept of scientific psychology as the ultimate principle The final chapter is devoted to the analysis of the notion of participation as the kind of active or passive part taken by social men statesmen journalists and philosophers in the political continuum This book will be of value to the non specialists who are interested in political structure and psychology **Political Concepts** Felix E. Oppenheim, 1981-01 *Political Concepts* Richard Bellamy, Andrew Mason, 2003-08-02 Table of contents **The Concept of the Political** Carl Schmitt, 2024-05-31 Arguably Schmitt s most influential work recognized as one of the most important tracts of modern political thought Samuel Earle The New Statesman In this his most influential work legal theorist and political philosopher Carl Schmitt argues that liberalism s basis in individual rights cannot provide a reasonable justification for sacrificing oneself for the state a critique as cogent today as when it first appeared George Schwab s introduction to his translation of the 1932 German edition highlights Schmitt s intellectual journey through the turbulent period of German history leading to the Hitlerian one party state In addition to analysis by Leo Strauss and a foreword by Tracy B Strong placing Schmitt s work into contemporary context this expanded edition also includes a translation of Schmitt s 1929 lecture The Age of Neutralizations and Depoliticizations which the author himself added to the 1932 edition of the book An essential update on a modern classic The Concept of the Political Expanded Edition belongs on the bookshelf of anyone interested in political theory or philosophy Contains much of what is fundamental in Schmitt s understanding of the political nature of man and the state including his contentious definition of the political as the distinction between friend and enemy Its scholarship is unquestionable Joseph W Bendersky Canadian Journal of Political and Social Theory The best introduction to Schmitt s thought Mark Lilla New York Review of Books A foundational work Minor disagreements over terms fade in light of the superb job Schwab has done rendering Schmitt s long multi clausal German sentences into concise pellucid English Robert D Rachlin HNet Key Concepts in Politics and International Relations Andrew Heywood, 2015-07-07 Concepts have a particular importance for students of politics and international

relations Political argument often boils down to a struggle over the legitimate meaning of terms and enemies may argue fight and even go to war each claiming to be defending freedom upholding democracy or supporting justice The problem is that words such as freedom democracy and justice have different meanings to different people so that the concepts themselves come to seem problematic This book provides an accessible and comprehensive guide to the major concepts encountered in political analysis Each term is defined clearly and fully and its significance for political argument and practice is explored The text has been updated and expanded to take account of the increasing influence of globalization on politics and now features 70 additional concepts Renowned for its lively engaging style and user friendly approach the second edition is an invaluable companion to the study of politics and international relations

Concepts and Theories of Modern Democracy ,

Contemporary Political Concepts Georgina Blakeley, Valerie Bryson, 2002-04-20 The language of political debate and analysis has changed dramatically in recent years Today both academics and practitioners have largely abandoned the vocabulary of the left and replaced it with a set of concepts that structure debate and set the political agenda Thus the world economy is discussed in terms of globalisation instead of international capitalism Moreover the apparently benign concepts of civil society citizenship and stakeholder have replaced those of class and class conflict poverty is about social exclusion rather than exploitation and consumer choice and worker empowerment have replaced the pursuit of class interests In today's political climate socialism is seen as old fashioned or utopian In contrast capitalism is seen as realistic and the third way is presented as the solution to all our ills This book explores the real issues behind these catchphrases of modern politics explaining what they mean and offering a critique of the ideology of which they are a part

Introduction to Political

Concepts John Hoffman, Paul Graham, 2006 This student friendly introduction to contemporary concepts and ideas will show why an understanding of political concepts is crucial to an understanding of political issues By using real life examples to relate political ideas to political realities the hugely experienced author team make the subject lively and contentious in order to stimulate students to think about political theories in a new and refreshing way Introduction to Political Concepts discusses traditional concepts such as state liberty and justice Using exposition and argument the book enables readers to understand these traditional concepts and to develop a position on them It also covers contemporary concepts such as difference human rights and terrorism where the problems that these concepts address have either developed recently or have been given a new urgency by contemporary events Suitable for 1st and 2nd year undergraduates studying political theory

The Concepts and Theories of Modern Democracy Anthony Harold Birch, 2001 Anthony Birch's highly successful and widely used text is now available in an updated 2nd edition Taking into account the considerable developments in the field since the last edition was published it continues to provide students with an authoritative and accessible exploration of the principle concepts and theories of modern democracy

Political Concepts Adi M. Ophir, Ann Laura Stoler, 2018-01-02 Deciding what is and what is not political is a fraught perhaps intractably opaque matter Just who

decides the question on what grounds to what ends these seem like properly political questions themselves Deciding what is political and what is not can serve to contain and restrain struggles make existing power relations at once self evident and opaque and blur the possibility of reimagining them differently Political Concepts seeks to revive our common political vocabulary both everyday and academic and to do so critically Its entries take the form of essays in which each contributor presents her or his own original reflection on a concept posed in the traditional Socratic question format What is X and asks what sort of work a rethinking of that concept can do for us now The explicitness of a radical questioning of this kind gives authors both the freedom and the authority to engage intervene in critique and transform the conceptual terrain they have inherited Each entry either implicitly or explicitly attempts to re open the question What is political thinking Each is an effort to reinvent political writing In this setting the political as such may be understood as a property a field of interest a dimension of human existence a set of practices or a kind of event Political Concepts does not stand upon a decided concept of the political but returns in practice and in concern to the question What is the political by submitting the question to a field of plural contention The concepts collected in Political Concepts are Arche Stathis Gourgouris Blood Gil Anidjar Colony Ann Laura Stoler Concept Adi Ophir Constituent Power Andreas Kalyvas Development Gayatri Spivak Exploitation tienne Balibar Federation Jean Cohen Identity Akeel Bilgrami Rule of Law J M Bernstein Sexual Difference Joan Copjec and Translation Jacques Lezra

Analysing Social Policy Concepts and Language Daniel Béland, Klaus Petersen, 2015-10-07

Social policy scholars and practitioners have long employed concepts such as welfare state and social security but where do these concepts come from and how has their meaning changed over time What characterizes social policy language in different places and how do some social concepts travel between them Addressing such questions in a systematic manner the contributors to this collection analyze the concepts and language used to describe contemporary social policy Combining detailed chapters on particular countries with broader comparative chapters the book offers a variety of perspectives on just what we mean when we use these terms

Processing Inaccurate Information David N. Rapp, Jason L.G.

Braasch, 2023-04-04 Interdisciplinary approaches to identifying understanding and remediating people's reliance on inaccurate information that they should know to be wrong Our lives revolve around the acquisition of information Sometimes the information we acquire from other people from books or from the media is wrong Studies show that people rely on such misinformation sometimes even when they are aware that the information is inaccurate or invalid And yet investigations of learning and knowledge acquisition largely ignore encounters with this sort of problematic material This volume fills the gap offering theoretical and empirical perspectives on the processing of misinformation and its consequences The contributors from cognitive science and education science provide analyses that represent a variety of methodologies theoretical orientations and fields of expertise The chapters describe the behavioral consequences of relying on misinformation and outline possible remediations discuss the cognitive activities that underlie encounters with inaccuracies investigating why

reliance occurs so readily present theoretical and philosophical considerations of the nature of inaccuracies and offer formal empirically driven frameworks that detail when and how inaccuracies will lead to comprehension difficulties Contributors Peter Afflerbach Patricia A Alexander Jessica J Andrews Peter Baggetta Jason L G Braasch Ivar Br ten M Anne Britt Rainer Bromme Luke A Buckland Clark A Chinn Byeong Young Cho Sidney K D Mello Andrea A diSessa Ullrich K H Ecker Arthur C Graesser Douglas J Hacker Brenda Hannon Xiangen Hu Maj Britt Isberner Koto Ishiwa Matthew E Jacovina Panayiota Kendeou Jong Yun Kim Stephan Lewandowsky Elizabeth J Marsh Ruth Mayo Keith K Millis Edward J O Brien Herre van Oostendorp Jos Otero David N Rapp Tobias Richter Ronald W Rinehart Yaacov Schul Colleen M Seifert Marc Stadtler Brent Steffens Helge I Str ms Briony Swire Sharda Umanath

Political Ideas And Institutions In Imperial Russia Marc Raeff, 2019-07-09 Marc Raeff is one of the truly outstanding scholars of Russian history This volume offers a sampling of the best essays from his prolific forty year career they span the history of Russia from the late seventeenth to the late nineteenth century In these essays Raeff considers the problems of imperial Russian politics and administration analyzes Russia s intellectual and social history as it relates to the governance of the multiethnic empire and places the institutional and intellectual history of Russia in the context of other Western and Central European developments Raeff s essays offer a sketch of the generation that came of age in the era of the Napoleonic Wars and the ensuing attempts at constitutional reform the generation that laid the foundations of the modern Russian national consciousness He explores modernization reform and liberalism in the second half of the nineteenth century the acquisition and incorporation of Russia s multiethnic population and the politics and administration of the reigns of Peter III and Catherine II He examines how the Russian lites assimilated values from the Western and Central European Enlightenment and assesses the important intellectual and ideological effects the Enlightenment had on the nation The volume concludes with a comparative look at the process of Westernization focusing on issues of literacy state leadership and the role of the intelligentsia Many of these seminal essays are long out of print and hard to find This timely volume makes Marc Raeff s insights readily available as Russia reemerges as a nation state facing new challenges that are often deeply rooted in its past

Sovereignities R. Prokhovnik, 2007-11-12 Raia Prokhovnik develops a strong argument for sovereignty as a robust concept with many conceptualizations and capable of further fruitful reconceptualization The book explores contemporary theoretical developments and current political issues around sovereignty that have crucial practical and institutional implications

Children's Social Consciousness and the Development of Social Responsibility Sheldon Berman, 1997-01-01 This book breaks new ground in our understanding of the development of social consciousness and social responsibility in young people and the educational practices that promote this development Berman shows that children s awareness of the social and political world emerges far earlier and their social and moral abilities are more advanced than we thought Drawing on the research literature in such fields as moral development citizenship education political socialization prosocial development and psychosocial development Berman

provides educators and researchers with the developmental understandings and instructional strategies necessary to enable students to become active caring and responsible members of our social and political community I believe this book pushes the field of educational and developmental psychology to a new level It addresses some of the most pressing issues of our time Mary Field Belenky University of Vermont author of *Women's Ways of Knowing* Berman pushes us to consider how more than service opportunities or isolated courses in contemporary issues will be needed if students are to become engaged citizens In doing so he lays the groundwork for a movement to reclaim the civic purposes that once undergirded American education Achieving this end will require a transformation of curriculum instruction and school structures aimed at incorporating multiple perspectives providing more room for student voices and supporting the formation of interactive school communities in which students feel cared for and influential Gregory Smith Lewis and Clark College author of *Education and the Environment Learning to Live with Limits*

Concepts in Law Jaap C. Hage, Dietmar von der Pfordten, 2009-08-24 During the last decades legal theory has focused almost completely on norms rules and arguments as the constitutive elements of law Concepts were mostly neglected The contributions to this volume try to remedy this neglect by elucidating the role concepts play in law from different perspectives A main aim of this volume is to initiate a debate about concepts in law ke Fr ndberg gives an overview of the many different uses of concepts in law and shows amongst others that concepts in the law should not be confused with the role of concepts in descriptions of the law Dietmar von der Pfordten criticizes the restriction to norms as parts of the law in contemporary legal theory by questioning what concepts are and what their function is both in general and in legal conceptual schemes Giovanni Sartor assumes the inferential analysis of meaning proposed by Alf Ross in his ground breaking paper T t and addresses the question how possession of a concept including the rules defining it is possible without endorsing these rules Jaap Hage argues that 1 legal status words such as owner have a meaning because they denote things or relations in institutional reality 2 the meaning of these words consists in this denotation relation 3 knowledge of this meaning presupposes knowledge of the rules governing these words Torben Spaak contributes to this volume with an exemplary analysis of one of the most central concepts of the law namely that of a legal power Lorenz K hler discusses the role of concepts in determining the scope of application of legal rules and raises from this perspective the question to what extent legal concept formation can be arbitrary Ralf Poscher argues that as soon as a concept is used in stating the law the precise scope of application of this concept has become a legal matter This means that the use of moral concepts in the law does not automatically lead to a moral import into the law Dennis Patterson holds that Hart's concept of law can be understood as a so called practice theory and provides an overview of such a theory

Ideology Studies Michael Freeden, 2021-11-05 This book comprehensively collects the thinking over the last 25 years of one the most important contemporary scholars in the field of ideology studies Clearly organised it expounds on the changing nature of the sub discipline its components and methods of investigation As such it serves the need for a general well

informed identification and elaboration of thematic possibilities in current ideology studies and represents the most developed and productive methodological approach to the study of ideologies in the last three decades Freedman presents ideology studies as an evolving and vibrant field encountering and surmounting a series of challenges in its successful path towards recognition as a fully legitimate and respected branch of political theory This book will be of key interest to students and scholars of political ideologies political theory political philosophy and more broadly to sociology political science anthropology human geography international studies and the humanities

Welfare State, Universalism and Diversity
Anneli Anttonen, 2012-01-01 This book is a most timely academic intervention The concept of universalism is central to social policy and welfare state development yet it is rarely explored with such attention to its time and place specificities as in this book Nordic and British authors investigate the different dimensions and meanings of universalism and the challenges it has faced Buffeted by markets and choice on the one side and diversity on the other can universalism survive To find out read on Fiona Williams University of Leeds UK Universalism in social policy is politically challenged and normatively contested This book examines how the principle of universalism can be understood and how it has been put into practice in various national contexts Universalism is contrasted with the idea of diversity which has gained strength as a result of growing affluent middle classes and of multiculturalism in highly developed welfare states The book deals with varieties of universalism and inspires a re thinking of the normative basis of the welfare state Stein Kuhnle University of Bergen Norway and Hertie School of Governance Berlin Germany Welfare State Universalism and Diversity is a thought provoking book dealing with key ideas values and principles of social policies and asking what exactly is meant by universal benefits and policies Is the time of post war universalism over Are universalism and diversity contradictory policy and theory framings Well known scholars from different countries and fields of expertise provide a historically informative and comprehensive view on the making of universal social policies Universalism is defined and implemented differently in the British and Scandinavian social policies Service universalism is different from universalism in pensions The book underlines the multiple and transformative nature of universalism and the challenge of diversity There certainly is need for a greater diversity in meeting citizen s needs Yet universalism remains a principle essential for planning and implementing sustainable and legitimate policies in times characterized by complex interdependences and contradictory political aims This impressive book is an attempt to untangle the multiple meanings of universalism and clarify the concept s relevance to contemporary policy debates It will prove invaluable for students researchers and practitioners in social policy public policy social administration social welfare social history social work sociology and political sciences Policymakers and administrators involved with social and public policies social services social welfare and social work will also find this book groundbreaking

Reflexivity and International Relations
Jack L Amoureux, Brent J. Steele, 2015-09-25 Reflexivity has become a common term in IR scholarship with a variety of uses and meanings Yet for such an important concept and referent understandings of reflexivity have been more

assumed rather than developed by those who use it from realists and constructivists to feminists and post structuralists This volume seeks to provide the first overview of reflexivity in international relations theory offering students and scholars a text that provides a comprehensive and systematic overview of the current reflexivity literature develops important insights into how reflexivity can play a broader role in IR theory pushes reflexivity in new productive directions and offers more nuanced and concrete specifications of reflexivity moves reflexivity beyond the scholar and the scholarly field to political practice Formulates practices of reflexivity Drawing together the work of many of the key scholars in the field into one volume this work will be essential reading for all students of international relations theory
