Has Political Correctness Gone Mad? Tony McKenna, 2024-03-21 Woke social justice warriors lurk around every corner ready to cancel free speakers and police common sense Muslims love nothing better than abolishing Christmas FemiNazi's throw false accusations at the pillars of our society Decried by right wing pundits and politicians alike the idea of political correctness is often painted as a form of left wing totalitarianism but in this pithy clear headed account Tony McKenna explains how the concept itself is in fact one of the great conspiracy theories of our times From the fear of cancel culture to the demonization of grassroots social movements this is a searing dissection of how the exclusionary agendas for so long played out in our media and party politics have been successfully dressed up as campaigns for freedom and common sense Tackling some of the favourite bogeymen of tabloids and scaremongers McKenna dissects the language rhetoric and ideology that turns refugees into insects social justice into wokery and makes predators out of anyone from dark skinned men to trans women He provides a full analysis of historically important social liberation movements like BLM and MeToo giving the historical and cultural contexts for their emergence As the tried and tested politics of stigmatization and exclusion shift from old targets to new this an explanation of one of society's most insidious narratives and how it allows dominant orthodox culture to cast the subjects of its oppressive tactics as the dreaded global liberal elite

Robert A. Taft,2018-04-26 The answer to the question raised in the title of this book is yes This well documented account explores the four culprits progressivism communism Islamism and globalism After presenting the American concept and its key vulnerabilities the book tracks the history of each of these isms comparing their similarities and describing why Americanism runs totally counter to their principles From 1900 to the present this chilling but factual account shows the impact the isms have had on the evolution of America Starting in 1960 the four have combined forces to attack the family religion and education in order to take down this country its Constitution and moral firewall In the end the fallacy of the four isms along with their collective operational formula is exposed and how emerging generations are the unwitting victims of their assault **Conservative Political Communication** Sharon E. Esposito, Laura Finley, 2018-11-15 In recent years debates surrounding political correctness PC have once again intensified in the United States and other Western countries Although PC has a long history the term today is typically associated with a type of leftist progressive puritanism that prevents people from speaking their minds or voicing uncomfortable truths that might offend members of marginalized groups or communities In many respects the political ascendancy of Donald J Trump and his appeal to millions of people not only in the USA but around the world hinges on the belief that his presidency represents a repudiation of the repressiveness associated with PC Indeed throughout his political campaign Trump declared himself to be an anti PC president who would always speak his mind and tell it like it is However while many celebrated Trump's maverick anti PC stance others saw this as an attack on basic standards of decency and civil discourse Timely and important this collection is authored by scholars from various disciplines and will be of interest to educators undergraduate and graduate students as well as anyone interested in the debates associated with the so called culture wars in the West Each chapter addresses how the PC debate has continued to shape social and political discourse in different areas including race relations gender issues terrorism and national security higher education the media and immigration The point is made that while some of the criticisms directed against PC are worthy of serious consideration and discussion it is also true that PC particularly in the era of Trump has been increasingly employed as a form of ideological scapegoat to delegitimize and roll back language attitudes values behaviors and policies that are vital for promoting objectives associated with gender and racial equality human rights democracy empathy fairness multiculturalism and inclusive curricula The Psychology of Political Polarization Jan-Willem van Prooijen, 2021-03-30 The Psychology of Political Polarization was inspired by the notion that to understand the momentum of radical political movements it is important to understand the attitudes of individual citizens who support such movements Leading political psychologists have contributed to this important book in which they share their latest ideas about political polarization a complex phenomenon that cannot be traced back to a single cause and that is associated with intolerance overconfidence and irrational beliefs The book explores the basis of political polarization as being how citizens think and feel about people with a different worldview how they perceive minority groups and how much they trust leaders and experts on pressing societal issues such as climate change health international relations and

poverty The chapters are organized into two sections that examine what psychological processes and what social factors contribute to polarization among regular citizens The book also describes practical strategies and interventions to depolarize people The book offers a state of the art introduction to the psychology of political polarization which will appeal to the academic market and political professionals

The Immaculate Mistake Rodney Wallace Kennedy, 2021-09-23 President Donald Trump originated his political career by claiming that Barack Obama was not born in the USA His birtherism theory was discredited but there s another possibility about birth Evangelicals have given birth to Donald Trump in the immaculate mistake Evangelicals are not a collection of dumb and irrational people they are the creators of the demolition presidency of Trump He is their child the result of almost one hundred years of evangelical angst resentment and hurt This is the story of how Trump has become a secular evangelical preacher and his message of fear hatred division and getting even has captured the hearts and minds of evangelicals Rather than dismissing them this work takes them seriously and literally and offers a frank and disturbing series of portraits of their determination to win at all costs

What America Needs Jeffrey Lord, 2016-01-08 A book to challenge the status quo spark a debate and get people talking about the issues and questions we face as a country

After Political Correctness Christopher Newfield, 2018-02-20 This book resituates the political correctness debates in the humanities branch of the academy It contends that conservatives have tainted entire academic disciplines to cause university humanists to go from irrelevant to dangerous overnight

Killing America William Davidson, 2016-09-29 There are new ways of waging war being developed every day It appears invisible tactics and weapons are being used especially against the United States This may sound like science fiction or fear mongering to the average person Maybe that is why invisible tactics are working so well The United States of America is under full scale attack with invisible weapons and the average person does not even know Stay with me and I will expose hundreds of attacks that are in full scale right now and how I believe I came to be aware or able to see the invisible war

Intimidation by Political Correctness J. W. Brasher, 2010-10 Putting on paper what others will only touch inside the sealed chambers of the mind What keeps millions from exercising their right of free speech FEAR The ultimate politically incorrect political commentary and beyond Political trinitrotoluene in print This little book is sure to enlighten some and bring out the irrational in others How will you find it

Can We? Grant Rees, 2011-06-16 In this new political commentary author Grant Rees discusses the many dangers confronting the American republic including alternative voting methods and procedures use of harmful and addictive drugs mounting national debt national defense and military preparedness and the release of classified information among other topics The comments opinions and recommendations presented in Can We seek to generate meaningful discussions and debates for viable solutions for some of the nations problems Rees and others like him are tired of the same old political rhetoric with little progress This frustration is compounded by the fact that the political season is getting longer and more expensive Rees has been documenting his thoughts for several years have written letters to editors and numerous

elected representatives He presents a composite of many of these letters as well as his thoughts on current issues By taking a critical look at topics that are so vital to our countrys future success Rees provides the facts and arguments necessary to enable us to prepare for the future Can We offers comments and opinions that will help everyone to understand the issues facing us and the potential outcomes that could shape the future The Collapse of Freedom of Expression Jordi

Pujol,2023-02-15 This book offers a holistic account of the problems posed by freedom of expression in our current times and offers corrective measures to allow for a more genuine exchange of ideas within the global society The topic of free speech is rarely addressed from a historical philosophical or theological perspective In The Collapse of Freedom of Expression Jordi Pujol explores both the modern concept of the freedom of expression based on the European Enlightenment and the deficiencies inherent in this framework Modernity has disregarded the traditional roots of the freedom of expression drawn from Christianity Greek philosophy and Roman law which has left the door open to the various forms of abuse censorship and restrictions seen in contemporary public discourse Pujol proposes that we rebuild the foundations of the freedom of expression by returning to older traditions and incorporating both the field of pragmatics of language and theological and ethical concepts on human intentionality as new complementary disciplines Pujol examines emblematic cases such as Charlie Hebdo free speech on campus and online content moderation to elaborate on the tensions that arise within the modern concept of freedom of expression The book explores the main criticisms of the contemporary liberal tradition by communitarians libertarians feminists and critical race theorists and analyzes the gaps and contradictions within these traditions Pujol ultimately offers a reconstruction project that involves bridging the chasm between the secular and the sacred and recognizing that religion is a font of meaning for millions of people and as such has an inescapable place in the construction of a pluralist public sphere **That Book Is Dangerous!** Adam Szetela,2025-08-12 An alarming expos of the

new challenges to literary freedom in the age of social media when anyone with an identity and an internet connection can be a censor In That Book Is Dangerous Adam Szetela investigates how well intentioned and often successful efforts to diversify American literature have also produced serious problems for literary freedom Although progressives are correct to be focused on right wing attempts at legislative censorship Szetela argues for attention to the ways that left wing censorship controls speech within the publishing industry itself The author draws on interviews with presidents and vice presidents at the Big Five publishers literary agents at the most prestigious agencies award winning authors editors marketers sensitivity readers and other industry professionals to examine the new publishing landscape What he finds is unsettling mandatory sensitivity reads morality clauses in author contracts even censorship of dangerous books in the name of antiracism feminism and other forms of social justice These changes to acquisition practices editing policies and other aspects of literary culture are a direct outgrowth of the culture of public outcries on X Goodreads Change org and other online platforms where users accuse authors justifiably or not of racism sexism homophobia and other transgressions But rather than genuinely address

the economic inequities of literary production this current moral crusade over literature serves only to entrench the status quo While the right is remaking the world in its image he writes the left is standing in a circular firing squad Compellingly argued and incisively written the book is a much needed wake up call for anyone who cares about reading writing and the publication of books as well as the generations of young readers we are raising **Political Correctness and Higher Education** John Lea,2010-05-26

This book is the first major study of political correctness in post compulsory education to be published in the UK For readers in the UK unfamiliar with the nature of the controversies in US college campuses this book offers a comprehensive assessment of the key themes including who and what was behind key campaigns For readers in the US unfamiliar with how this cultural export has fared in the UK this book looks at the significant similarities and differences in the ways that the phrase has been used in both societies The Contrarian Max Chafkin,2021-09-21 A New York Times Notable Book A shocking and assiduously reported biography of venture capitalist and entrepreneur Peter Thiel the enigmatic controversial and hugely influential power broker whose techno authoritarian worldview is coming to dominate our collective reality Max Chafkin's The Contrarian is much more than a consistently shocking biography of Peter Thiel the most important investor in tech and a key supporter of the Donald Trump presidency It's also a disturbing history of Silicon Valley that will make you reconsider the ideological foundations of America's relentless engine of creative destruction Brad Stone author of The Everything Store and Amazon Unbound Since the days of the dot com bubble in the late 1990s no industry has made a greater impact on the world than Silicon Valley And few individuals have done more to shape Silicon Valley than Peter Thiel The billionaire venture capitalist and entrepreneur has been a behind the scenes operator influencing countless aspects of contemporary life from the technologies that mediate our daily existence to the rise of the far right effort among some of the most powerful people in Silicon Valley and Washington to untether the U S government from the established constitutional order But despite his being one of the most important forces behind the tectonic shifts in America's sociopolitical landscape no public figure is quite so mysterious In the first major biography of Thiel Max Chafkin traces the trajectory of the innovator's singular life and philosophy from his upbringing as the child of immigrant parents and years at Stanford as a burgeoning conservative thought leader to his founding of PayPal and Palantir early investment in Facebook and SpaceX and relationships with fellow tech titans Mark Zuckerberg Elon Musk and Eric Schmidt The Contrarian illuminates the extent to which Thiel has sought to export his values to the corridors of power beyond Silicon Valley including strenuously backing outsider political candidates notably a young Senate hopeful named JD Vance and the longshot 2016 presidential contender Donald Trump Essential reading for a post 2024 world The Contrarian is a revelatory biography of a one of a kind leader and a deeply insightful portrait of a tech industry whose explosive growth and power is both thrilling and fraught with peril The 'End Game' Jonathan E. P. Moore,2020-10-12 Jon voted for the first time in 2004 at the age of 52 after his father died 7 months before 9 11 in 2001 which in Jon's opinion would have killed him if he had made it those extra

7 months anyway What ignited the flame under Jon s political fired up ass was seeing a Senator from Chicago who was being considered to run for the Presidency being shown rubbing elbows with Reverend God Damn America Wright and Jon s generation s Weather Underground Bomber William Bill Ayers who over the years had become a community planner like Barack Obama in Chicago but the Mainstream Media never informed their viewers of this very important fact about Bill Ayres past and couldn t understand how that could have possibly been missed Bottom line though is that was the exact moment Jon got up off the couch and started his quest to understand and monitor the goings on within today s American politics and what the impact was on America and the American people then and today when this kind of information is kept from the American People The End Game **Congressional Record** United States.
