Stretesky,2017-03-02 The essays selected for this volume show how radical and Marxist criminology has established itself as an influential critique since it emerged in the late 1960s Unlike orthodox criminology which emphasizes individual level explanations of criminal behavior radical and Marxist criminology emphasizes power inequality and structures especially those related to class as key factors in crime law and justice This collection of essays draws attention to the way in which structural forces shape and influence both individual and institutional for example governmental behavior highlights neglected crime corporate governmental state corporate and environmental which causes more extensive damage than the street crimes examined by orthodox criminology and discusses the ways in which law and criminal justice processes reinforce power structures and contribute to class control **A Companion to State Power, Liberties and Rights** Morley, Sharon,Turner, Jo,Karen Corteen,Paul Taylor,2017-02-15 This handbook sets out defines and analyzes the essential vocabulary and terminology involved in the study of state power individual liberties and rights As part of the Companions series it is organized alphabetically taking up and defining key topics in these areas particularly as they relate to the study of crime and harm Topics addressed include state and corporate crime terrorism security risk legislation and policy human rights and civil liberties policing punishments and detention surveillance and regulation and many others Accessible yet challenging the book will be useful for both undergraduates and graduate students working in criminology criminal justice international relations political science and other fields **High and Low Corruption** Harry Adams,2023-12-19 High and Low Corruption Children Capabilities and Crime provides a

systematic theory of corruption and analyzes high corruption in terms of political corruption and high end white collar crime and low corruption in terms of juvenile delinquency and street crime It shows how delinquents and street criminals often suffer from arrested development of their basic human capabilities In turn Harry Adams argues that their maldevelopment often emerges neither merely through their own fault when they were children nor through the fault of biological caregivers who were guilty of parental child neglect Beyond this Adams argues that the maldevelopment of at risk youth commonly emerges through a kind of political child neglect when corrupt public officials fail to provide adequate protection or back up support for their development In these ways the author shows how the former type of high corruption or suite crime can significantly contribute to the latter type of corruption and street crime By applying a set of moral constitutional and criminological principles from Derek Parfit Ronald Dworkin and Jeffrey Reiman respectively Adams also provides a systematic account of why and how both these types of corruption should be curbed
