*The Making of a Pariah State* Martin Sicker, 1987-03-04 *The Making of a Pariah State* takes the reader behind the flamboyance and apparent irrationality of Libyan leader Muammar Qaddafi to expose his attempt to impose national cohesion on the Arab Muslim and Third World elements under his leadership Addressed to the general reader interested in foreign affairs this timely and unique book provides a coherent framework for understanding why Libya is involved in international terrorism and the danger Qaddafi poses to the Third World and the West      *Africa, Asia, and South America Since 1800* A. D. Fage, Roland Anthony Oliver, Michael Crowder, 1975 The eighth and final volume of *The Cambridge History of Africa* covers the period 1940-75 It begins with a discussion of the role of the Second World War in the political decolonisation of Africa Its terminal date of 1975 coincides with the retreat of Portugal the last European colonial power in Africa from its possessions and their accession to independence The fifteen chapters which make up this volume examine on both a continental and regional scale the extent to which formal transfer of political power by the European colonial rulers also involved economic social and cultural decolonisation A major theme of the volume is the way the African successors to the colonial rulers dealt with their inheritance and how far they benefited particular economic groups and disadvantaged others The contributors to this volume represent different disciplinary traditions and do not share a single theoretical perspective on the recent history of the continent a subject that is still the occasion for passionate debate      **The**

**Politics of Nuclear Non-Proliferation** Ursula Jasper, 2013-10-08 This book examines the puzzle of why some states acquire nuclear weapons whereas others refrain from trying to do so or even renounce them Based on the predominant theoretical thinking in International Relations it is often assumed that nuclear proliferation is inevitable given the anarchic nature of the international system Proliferation is thus often explained by vague references to states insecurity in an anarchic environment Yet elusive generalisations and grand abstract theories inhibit a more profound and detailed knowledge of the very political processes that lead towards nuclearisation or its reversal Drawing upon the philosophical and social theoretical insights of

American pragmatism The Politics of Nuclear Non Proliferation provides a theoretically innovative and practically useful framework for the analysis of states nuclear proliferation policies Rather than recounting a parsimonious lean account of proliferation the framework allows for the incorporation of multiple paradigms in order to depict the complex political contestation underlying states proliferation decisions This pragmatist framework of analysis offers ways of overcoming long standing metatheoretical gridlocks in the IR discipline and encourages scholars to reorient their efforts towards imminent real world challenges This book will be of much interest to students of nuclear proliferation international security and IR theory

North Africa's Arab Spring George Joffé, 2013-10-18 This book addresses issues surrounding the evolution of the Arab Spring in North Africa After a general introduction and explanation of the events on a region wide basis it turns to examine aspects of each of the countries concerned The role of the Muslim Brotherhood during the Nasser regime and in the contemporary situation is compared together with an analysis of the emergence of new political parties in Egypt The book analyses the links between social media and satellite television during the revolution in Egypt This is followed by a study of the intellectual and cultural background to the Tunisian revolution and an analysis of the new political parties in Tunisia It also looks at the revolution process in Libya and concludes with a study of why there was no revolution in Algeria and how the Moroccan monarchy was able to sideline those who challenged it at the price of constitutional changes that are essentially cosmetic This book was originally published as a special issue of The Journal of North African Studies

**Political Psychology And Foreign Policy** Eric Singer, Valerie M Hudson, 2020-02-24 First published in 1992 One of the issues of particular interest to political psychologists centers around how foreign policy decisions are made The psychological phenomena that political psychologists examine have to do with how individuals perceive interpret feel about and react to their environment The political factors have to do with the activities involved in governing or the making of public policy that is with how the material and human resources of a collectivity are allocated The research presented in this volume addresses 6 key questions that link psychological and political processes and the chapters are organized around three conceptual clusters perception studies personality studies and studies of group dynamics

**The Foreign Policies Of Arab States** Bahgat Korany, Ali El-Din Hillal Dessouki, 2019-07-09 Middle East politics have been proverbial for their changeability The 1970s ushered in petro politics for instance but OPEC's international status declined markedly in the following decade Similarly the Arab world's ostracism of Egypt in the 1970s following its separate peace with Israel was turned around in the 1980s the late 1980s also brought PLO acceptance of the State of Israel Interstate relations were not the only arena to experience significant alterations state society relations also underwent dramatic changes such as the acceleration of privatization in erstwhile socialist regimes Then the 1990s opened with a political earthquake the Gulf Crisis The second edition of this highly acclaimed text offers a penetrating analysis of trends in Arab foreign policies since the book was originally published in 1984 including an early analysis of the effects of Iraq's invasion of Kuwait and the subsequent

coalition victory over Iraq In addition the authors have included new chapters on Jordan at the heart of the Arab world and on the Sudan the region's link to sub Saharan Africa Their inclusion allows a fuller understanding of the foreign policies of states that occupy crucial geopolitical positions but wield little tangible power Moreover in many of its chapters the book raises the crucial question of how the foreign policies of these countries can cope with the prevalence of political change

**The Arab Spring** Carlo Panara, Gary Wilson, 2013-01-09 This edited volume explores some of the key international law issues to have arisen from the events which comprised the Arab Spring

*Micro-evidence for Peacebuilding Theories and Policies* Yuichi Kubota, 2022-11-30 Relying on micro evidence on the repercussions of civil conflicts this edited book explores theories and policies of post conflict peacebuilding Reconsidering existing knowledge on the civil conflict and peacebuilding processes in particular it empirically presents the relationships between conflict dynamics and citizens norms values and preferences in the post conflict context Once it occurs civil conflict brings enormous suffering on the local society As a consequence of wartime coercion and violence that tear it apart citizens come to harbor fear distrust and hatred of others especially of those who are in different sociopolitical groups This can significantly alter the pre conflict norms and values of the citizenry and make reconciliation difficult across groups in the aftermath of the conflict To tackle these problems post conflict peacebuilding should be well designed so that it can widely cover and sufficiently deal with conflict affected citizens This approach urges us to pay serious attention to the individual level impact of the conflict process and dynamics The importance of micro level analysis does not disregard that of normative and or macro level approaches to the development of peacebuilding policies However the micro level approach is better able to capture wartime civil military relations that largely vary between individuals The book is aimed at linking academic knowledge with policy development in peacebuilding To reflect existing policy frameworks in peacebuilding the implications of micro evidence based studies for conflict affected societies are discussed here A bottom up approach pursued throughout this book allows us to elaborate desirable policy schemes for peacebuilding that conform to local contexts
