An Introduction to the Modern Middle East, Student Economy Edition David Sorenson,2018-10-03 This book introduces the politics of the modern Middle East which includes the countries of the Persian Gulf the eastern Mediterranean countries and North Africa It covers the major geographical regions

that make up the Middle East and summarizes the post World War I history of the Middle East **The A to Z of the Gulf Arab States** Malcolm C. Peck,2010-04-12 The A to Z of the Gulf Arab States comes at a time when the world's attention is riveted on the Middle East. The small states covered in this volume Bahrain Kuwait Oman Qatar and the United Arab Emirates UAE possess about 20 percent of the world's total oil reserves. Beyond the strategic and economic importance conferred upon them by their vast oil reserves, the Gulf Arab states are worthy of attention for the inherent interest of their history and culture. No area of the world has yielded more revealing and exciting archaeological finds in the past few decades than these states. Investigations have brought to light extensive evidence of an important culture as old as Egypt of the Pharaohs or ancient Babylon which was virtually unknown previously except through rare references in the records of other civilizations. The A to Z of the Gulf Arab States is a paperback reprint of the Historical Dictionary of the Gulf Arab States. This edition covers the history of the five countries through a chronology broken down by country, a list of acronyms and abbreviations, an introductory essay, a bibliography, and several hundred cross-referenced dictionary entries on important persons, places, and events of each country. Everything from the Abbasids to Zubarah is covered in this essential reference on this increasingly important region of the world.

The A to Z of the United Nations Jacques Fomerand,2009-07-29 Consisting of 192 Member States, the United Nations was founded in 1945 to maintain international peace and security, to develop friendly relations among nations based on the respect for the principle of equal rights and self-determination of peoples, to achieve international cooperation in solving problems of an economic, social, cultural, or humanitarian character, and encouraging respect for human rights and for fundamental freedoms for all without distinction as to race, sex, language, or religion. Just how successful the UN has been in maintaining these goals is covered in The A to Z of the United Nations. Author Jacques Fomerand provides a comprehensive dictionary of nearly 900 cross-referenced entries on the UN's various committees and organizations, its leaders, terms, policies, and major events in which the UN took part. Supplementing the dictionary entries are a chronology, an introduction, a bibliography, and appendixes which include a reproduction of the UN's Charter and the Universal Declaration of Human Rights, as well as a list of the Member States and when they joined.

The Hashemites in the Modern Arab World Uriel Dann, Aryeh Shmuelevitz, Asher Susser,2013-03-07 Examines the crucial role of the Hashemites in Arab nationalism throughout the 20th century from the 1916 Arab Revolt through the creation of Arab states after World War I, the attempts at Arab unity, and the establishment of two kingdoms to the current Palestinian debate.

Unsettling Colonial Modernity in Islamicate Contexts Kara Adbolmaleki, Roxana Akhbari, Siavash Saffari,2017-05-11 By focusing on colonial histories and legacies, this edited volume breaks new ground in studying modernity in Islamicate contexts. From a range of disciplinary perspectives, the authors probe colonial modernity as a condition whose introduction into Islamicate contexts was facilitated historically by European encroachment into South Asia, the Middle East, and Northern Africa. They also analyze the various modes through which, in Europe itself and in North America by extension, people from

Islamicate contexts have been and continue to be otherized in the constitution and advancement of the project of modernity. The book further brings to light a multiplicity of social, political, cultural, and aesthetic modes of resistance aimed at subverting and unsettling colonial modernity in both Muslim majority and diasporic contexts.

Understanding the Contemporary Middle East Jillian Schwedler, Deborah J. Gerner, 2008. The third edition of *Understanding the Contemporary Middle East* includes two entirely new chapters: one on religion and politics and one on the economies of the Middle East, as well as a greatly expanded discussion of the 2003 invasion of Iraq. In addition, all of the chapters have been fully updated. Maps, photographs, and tables of basic political data enhance the text, which has already made its place as the best available introduction to the region.

[Encyclopedia of the Modern Middle East: A-C](#) Reeva S. Simon, Philip Mattar, Richard W. Bulliet, 1996.

[Contemporary Islamic Political Thought in Egypt](#) Ebtisam Aly Hussein, 2024-02-22. This book takes a hermeneutic approach toward reading the writings of Jamal al Banna and Tariq al Bishri across several decades in order to explore contemporary Islamic political thought under authoritarianism. Ebtisam Aly Hussein uses the framework of meta-languages in relation to the writings of these two particular Islamic intellectuals to examine how authority over the public sphere is established in both religious and political terms. Chapters outline the major themes of Islamic political thought in the writings of al Banna and al Bishri: mainly the state in Islam, Shari'a, application of political violence as jihad, and identity politics, and how in their writings they have interacted with a variety of autocratic practices under Nasir Sadat and Mubarak. The book puts forward a unique study of the role of politics and religion in establishing authority over the public sphere and how this authority is manifested in the intellectual output of these two Islamic intellectuals.

Bondi in the Sinai Rodney Gouttman, 1996. This book reveals the political atmospherics behind Australia's involvement in the American-inspired Multinational and Observers Force in the Sinai. A child of the Egypt-Israel peace pact of 1979, the Force's lack of United Nations approval proved a formidable barrier for a skeptical Australian audience. Australia's inclusion in the NFO would not have been possible without the singular efforts of her staunchly anti-Communist Prime Minister Malcolm Fraser. Background factors examined include resentment of the American Alliance changing attitudes to the Middle East peace process and the emotional fallout of the Vietnam War. This book deals with previously unpublished contemporary material in a holistic political analysis.

African States and Rulers, 3d ed. John Stewart, 2024-10-18. Now in its third edition, this is a bigger, more than 11,000 entries updated version of the 1989 original, covering the enormous kaleidoscope of changing political boundaries, names, and rulers of Africa. This exhaustive reference allows the user quickly to determine what happened in or to each country and when, changes of names, political systems, rulers, and so on. The term "state" is loosely defined to embrace throughout the history of Africa any area of land with recognized borders and evidence of a continuing governmental structure, almost always with a capital city. Entries give official name of country, dates during which it went by that name, location, capital, alternate names, including cross-references to previous and later incarnations, and a list of rulers with dates of

power when known A new table details AIDS in the African states
