Political Economy Of National Security

James R. Schlesinger

Political Economy Of National Security:

The Political Economy of National Security Ethan B. Kapstein,1992 **The Political Economy Of National Security** Helen V Milner,David A Baldwin,2019-07-11 This bibliography focuses on books and articles dealing with the interplay of wealth and power in the context of national security policy emphasising on the economic instruments of statecraft that are used to pursue national security goals and examining the politics of economic cooperation **The Political Economy of National and Energy Security** Pantelis G. Sklias,Floros Florouros,2019-02 The aim of this collective volume is to study the crucial aspects related to the interconnection between the political economy of energy security and national security which is of great importance globally due to great volatility and complexity Several conceptual frameworks regarding the issue of energy security are examined in order to understand the relationships between relevant parameters and then to investigate their implications for national security Research needs to examine how energy security affects national security of nation states around the world either as producers or consumers of energy resources In this volume the theory of realism is employed for the analysis of such concepts as it emphasizes the primary importance of any given state and its national security whereas realism is essentially a political ideology and looks to provide the proper spectrum for further analysis The fact that the political economy of energy security and the political economy of national security are addressed as separate parts in the literature are among the main drawbacks in our effort to comprehend the issues concerned The abovementioned results to a dichotomy that affects the ontological and epistemological essence of the two pillars of the issue in question based on our working hypothesis should be addressed in a complementary and interconnected way Addressing both theoretical concepts and case studies to validate the argument the authors believe that the academic level of the proposed subject is related to graduate and postgraduate studies **The Political Economy of National Security, Critical Infrastructure and Securitization of Foreign Investments** Jakub M. Godzimirski,Morten Skumsrud Andersen,2024-12-30 This book examines how new flows of foreign direct investments from autocracies are framed their effects and the policy responses to them within the context of challenges to the international liberal order Chapters address thematic and regional issues from national investment controls and threat perceptions to China and Russia s responses Collectively they explore a new dynamic in international politics the securitization of money crossing borders Historically foreign investments operated under minimal global regulation based on the assumption that they were beneficial and profit driven However the past decade has witnessed a radical shift in approaches to foreign investments due to changing investment patterns and the entry of state sponsored actors into this traditionally unregulated realm China and Russia are seen to leverage foreign investments to advance their long term economic and political objectives The book comprehensively examines the subsequent repositioning of foreign investment policy and its consequences for national and international politics **Economics and National Security** Craufurd D. Goodwin,1991 This is an examination of the interaction between economics and national

security which explores why the area of security studies has long been neglected by economists even though defence and wartime expenditures regularly consume large portions of government income The contributors demonstrate that the history of the relationship between economics and national security is far richer than previously thought **The political Economy of energy and national security** ,1969 **The Political Economy of National Security** James R. Schlesinger,1960 Uncorrected galley and page proofs The Political Economy of European Security Kaija Schilde,2017-09-14 Looks at how EU political institutions in security and defense have developed through the political economy of interest group intermediation The Oxford Handbook of Geoeconomics and Economic Statecraft Vinod K. Aggarwal,Tai Ming Cheung,2025 The Oxford Handbook of Geoeconomics and Economic Statecraft is a comprehensive critical and contemporary exploration of issues at the intersection of political economy and security studies Long considered separate branches of political science economics and security have become increasingly intertwined The volume examines the state of the field where it has been in the recent past and where it is likely to go in future Contributors examine conceptual edges of geoeconomics and economic statecraft as well as its core the globalizing context of the field and the challenges posed by social economic and technological changes The twenty eight chapters in the volume are divided into six parts After the introduction to the volume section 2 considers past and present thinking about the field Section 3 explores the methods used in geoeconomics and economic statecraft Section 4 looks at key issues Section 5 covers the intersection of national security and geoeconomics and the last section looks at regional perspectives in the field Geoeconomics and economic statecraft are issues of contemporary concern and on the front pages of newspapers on an almost daily basis This book provides the intellectual context and insights to understand the challenges and prospects that the world faces currently and over the long term making it a useful resource for academics practitioners business executives journalists and students

The Political Economy of National Security James R. Schlesinger,1960 *The Political Economy of National Security* ,1976* **The Political Economy of Energy and National Security** Steve H. Hanke,1969 The Political Economy of Development in Southeastern Europe Spyros Roukanas,Persefoni Polychronidou,Anastasios Karasavvoglou,2018-10-09 This book offers important new insights into recent advances and perspectives in the field of political economy of development in Southeastern European countries In addition it provides theoretical and empirical contributions to political economy of development in an international context Written by authors from Greece Serbia and Turkey the book covers a broad spectrum of topics from macroeconomics and economic policy to international political economy and globalization Presenting new and original ideas this is a valuable resource for anyone wishing to gain a deeper understanding of political economy of development in Southeastern Europe academicians policymakers and business practitioners **The Political Economy of Regional Peacemaking** Steven E. Lobell,Norrin M. Ripsman,2016-02-02 An expansive investigation of the efficacy of trade agreements economic sanctions and other economic strategies for promoting peace *The Political Economy of Military*

Spending in the United States Alex Mintz, 2002-01-31 Leading scholars examine the links between domestic politics defense spending and the economics of the US defense industry Financing Armed Conflict, Volume 1 Thomas M.

Meagher, 2016-12-04 This first part of a two volume series examines in detail the financing of America s major wars from the American Revolution to the Civil War It interweaves analyses of political policy military strategy and operations and war finance and economic mobilization with examinations of the events of America s major armed conflicts offering useful case studies for students of military history and spending policy policymakers military comptrollers and officers in training

Sustainable Security Jeremi Suri, Benjamin A. Valentino, 2016 How can the United States craft a sustainable national security strategy in a world of shifting threats sharp resource constraints and a changing balance of power This volume brings together research on this question from political science history and political economy aiming to inform both future scholarship and strategic decision making *Power and the Purse* Jean-Marc F. Blanchard, Edward D. Mansfield, Norrin M. Ripsman, 2000 The essays here address the relationship between economic interdependence and international conflict the political economy of economic sanctions and the role of economic incentives in international statecraft The Oxford Handbook of U.S. National Security Derek S. Reveron, Nikolas K. Gvosdev, John A. Cloud, 2018-05-01 National security is pervasive in government and society but there is little scholarly attention devoted to understanding the context institutions and processes the U S government uses to promote the general welfare The Oxford Handbook of U S National Security aims to fill this gap Coming from academia and the national security community its contributors analyze key institutions and processes that promote the peace and prosperity of the United States and by extension its allies and other partners By examining contemporary challenges to U S national security contributors consider ways to advance national interests The United States is entering uncharted waters The assumptions and verities of the Washington consensus and the early post Cold War have broken down After 15 years of war and the inability of two presidents to set a new long term U S foreign policy approach in place the uncertainties of the Trump administration symbolize the questioning of assumptions that is now going on as Americans work to re define their place in the world This handbook serves as a how to guide for students and practitioners to understand the key issues and roadblocks confronting those working to improve national security The first section establishes the scope of national security highlighting the important debates to bridge the practitioner and scholarly approaches to national security The second section outlines the major national security actors in the U S government describes the legislative authorities and appropriations available to each institution and considers the organizational essence of each actor to explain behavior during policy discussions It also examines the tools of national security such as diplomacy arms control and economic statecraft The third section focuses on underlying strategic approaches to national security addressing deterrence nuclear and cyber issues and multilateral approaches to foreign policy The final section surveys the landscape of contemporary national security challenges This is a critical resource for anyone trying to understand the

complex mechanisms and institutions that govern U S national security Power and the Purse Jean-Marc F. Blanchard,Edward D. Mansfield,Norrin M. Ripsman,2014-06-03 The essays here address the relationship between economic interdependence and international conflict the political economy of economic sanctions and the role of economic incentives in international statecraft
