The Political Economy of Slavery Eugene D. Genovese, 2012-01-01 This classic study of antebellum Southern society demonstrates how slavery was the bedrock of the region's social order and cultural identity In *The Political Economy of Slavery* Eugene Genovese argues that slavery gave the South a distinct class structure political community economy ideology and a set of psychological patterns As a result the South grew away from the rest of the nation and became increasingly unstable during the nineteenth century The difficulties it faced economic political moral and ideological constituted a fundamental antagonism between modern and premodern worlds Southern slavery was the foundation on which rose a powerful social class which in turn dominated Southern society While they constituted only a tiny portion of the white population they were powerful enough to largely succeed at building a new or rather rebuilding an old civilization **The**

The Political Economy of Racism Melvin Leiman, 2011-02-02 An intense and compact resource for understanding how the political economy of racism evolved in the United States Science Society Racism is about more than individual prejudice And it is hardly the relic of a past era This scholarly readable and provocative book shows how the persistence of racism in America relies on the changing interests of those who hold the real power in society and use every possible means to hold onto it **The Political Economy of the Family Farm** Sue Headlee, 1991-11-30 Agriculture played an important role in

the transition to capitalism in the United States in the mid nineteenth century In her study Sue Headlee argues that the family farm system with its progressive nature and egalitarian class structure revolutionized this transition to capitalism The family farm is examined in light of its economic and political implications showing the relationship between the family farm and fledgling industrial capitalism a relationship that fostered the simultaneous industrial and agricultural revolutions and the creation of an agro industrial complex Headlee focuses on the adoption of the horse drawn mechanical reaper to harvest wheat by family farmers in the 1850s The neoclassical economic explanation with its emphasis on the farm as a profit maximizing firm is criticized for its lack of recognition of the role of the family farm's egalitarian class structure This look at the economic history of the United States has lessons for the Third World today agricultural development is vital to the transition to capitalism the agrarian class structures of Third World countries may be holding back that transition and a family farm land reform approach would lead to increases in productivity and in the material well being of society Headlee's analysis supports three important debates in political economy thus providing the historical and theoretical context for

understanding the role of agriculture in the transition to capitalism in general and in the particular case of the United States Her findings conclude that agrarian class structures can explain the differential patterns of development in pre industrial Europe Further evidence is presented that the internal class structure of agrarian society is the crucial causal factor in the transition to capitalism and that market developments alone are not sufficient Lastly and most controversially Headlee acknowledges the importance of the Civil War in propelling the triumph of American capitalism allowing the Republican Party an alliance of family farmers and industrial capitalists to take control of the state from the Democratic Party of the southern plantation owners This book will be of interest to scholars in political economy economic history agrarian economics and development economics

The Political Economy of Empire in the Early Modern World S. Reinert,P. Røge,2013-09-24 This collection of essays draws on fresh readings of classic texts as well as rigorous research in the archives of Europe s greatest imperial power Its contributors paint a powerful picture of the nature and implementation of political economy in the long eighteenth century from the East to the West Indies

[Handbook of the International Political Economy of Production](#) Kees van der Pijl,2015-01-30 This Handbook provides a state of the art overview of the changing world of global production Chapters cover the geography of why and where jobs are moving in both manufacturing and services The authors discuss topics relating to the human and natura

Capitalism, Slavery, and Republican Values Allen Kaufman,2014-07-03 In the troubled days before the American Civil War both Northern protectionists and Southern free trade economists saw political economy as the key to understanding the natural laws on which every republican political order should be based They believed that individual freedom was one such law of nature and that this freedom required a market economy in which citizens could freely pursue their particular economic interests and goals But Northern and Southern thinkers alike feared that the pursuit of wealth in a market economy might lead to the replacement of the independent producer by the wage laborer A worker without property is a potential rebel and so the freedom and commerce that give birth to such a worker would seem to be incompatible with preserving the content citizenry necessary for a stable republican political order Around the resolution of this dilemma revolved the great debate on the desirability of slavery in this country Northern protectionists argued that independent labor must be protected at the same time that capitalist development is encouraged Southern free trade economists answered that the formation of a propertyless class is inevitable to keep the nation from anarchy and rebellion slavery justified by racism must be preserved at any cost Battles of the economists such as these left little room for political compromise between North and South as the antebellum United States confronted the corrosive effects of capitalist development And slavery s retardant effect on the Southern economy ultimately created a rift within the South between those who sought to make slavery more like capitalism and those who sought to make capitalism more like slavery

Radical Hospitality Nour Halabi,2022-12-09 Radical Hospitality centers hospitality as a primary metaphor and ethical framework governing the relationship of the migrant to both the native population and the host

nation The book examines the history of US immigration policy and media coverage to evaluate hospitality or hostility towards immigrants and the impact this may have for immigrants sense of home and belonging within the nation

Handbook of Research on the Global Political Economy of Work Maurizio Atzeni,Dario Azzellini,Alessandra Mezzadri,Phoebe Moore,Ursula Apatzsch,2023-10-06 This ground breaking Handbook broadens empirical and theoretical understandings of work work relations and workers It advances a global intersectional labour studies agenda laying the foundations for the politically emancipatory project of decolonising the political economy of work **Comparative**

Economics in a Transforming World Economy John Barkley Rosser,2004 The second edition of an innovative undergraduate textbook in Comparative Economic Systems that goes beyond the traditional dichotomies From Political Economy to Economics through Nineteenth-Century Literature Elaine Hadley,Audrey Jaffe,Sarah Winter,2019-09-26

Focusing on the transition from political economy to economics this volume seeks to restore social content to economic abstractions through readings of nineteenth century British and American literature The essays gathered here by new as well as established scholars of literature and economics link important nineteenth century texts and histories with present day issues such as exploitation income inequality globalization energy consumption property ownership and rent human capital corporate power and environmental degradation Organized according to key concepts for future research the collection has a clear interdisciplinary humanities approach and international reach These diverse essays will interest students and scholars in literature history political science economics sociology law and cultural studies in addition to readers generally interested in the Victorian period **Towards a Comparative Political Economy of Unfree Labour** Dr Tom Brass,Tom

Brass,2015-12-22 Many works about agrarian change in the Third World assumes that unfree relations are to be eliminated in the course of capitalist development This text argues that the incidence of bonded labour is greater than supposed and that in certain situations rural employers prefer an unfree workforce The Political Economy of the Interior Gold Coast Jarvis L. Hargrove,2015-12-09 This book analyzes the Gold Coast and the Asante kingdom in the years following the abolition of the transatlantic slave trade and prior to the start of colonial rule The Asante state one of the largest in the Gold Coast and West Africa after the eighteenth century is the central focus of this work Studying their transition from a large scale supplier of captives to the transatlantic slave trade to traders in legitimate goods is a critical component that should be analyzed across West Africa This work highlights the political and economic relationships between the interior Asante state with surrounding African groups and Europeans chiefly British traders who entered the region in the eighteenth and nineteenth centuries *The Oxford Handbook of Historical Political Economy* Jeffery A. Jenkins,Jared Rubin,2024 This handbook is currently in development with individual articles publishing online in advance of print publication At this time we cannot add information about unpublished articles in this handbook however the table of contents will continue to grow as additional articles pass through the review process and are added to the site Please note that the online publication date

for this handbook is the date that the first article in the title was published online [The Emergence of Capitalism in Early America](#) Christopher W. Calvo, 2023-10-10 Due to the enormous influence of Adam Smith's *The Wealth of Nations* on Western liberal economics a tradition closely linked to the United States many scholars assume that early American economists were committed to Smith's ideas of free trade and small government Debunking this belief Christopher W. Calvo provides a comprehensive history of the nation's economic thought from 1790 to 1860 tracing the development of a uniquely American understanding of capitalism *The Emergence of Capitalism in Early America* shows how American economists challenged adjusted and adopted the ideas of European thinkers such as Adam Smith David Ricardo and Thomas Malthus to suit their particular interests Calvo not only explains the divisions between American free trade and the version put forward by Smith but he also discusses the sharp differences between northern and southern liberal economists Emergent capitalism fostered a dynamic discourse in early America including a homegrown version of socialism burgeoning in antebellum industrial quarters as well as a reactionary brand of conservative economic thought circulating on slave plantations across the Old South This volume also traces the origins and rise of nineteenth century protectionism a system that Calvo views as the most authentic expression of American political economy Finally Calvo examines early Americans' awkward relationship with capitalism's most complex institution finance Grounded in the economic debates Atlantic conversations political milieu and material realities of the antebellum era this book demonstrates that American thinkers fused different economic models assumptions and interests into a unique hybrid capitalist system that shaped the trajectory of the nation's economy
