## **Political Parties And Democracy In Tanzania:**

**Political Parties and Democracy in Tanzania** Maximilian Mmuya, Amon Chaligha, 1994      *Political Parties in Africa* Sebastian Elischer, 2013-09-09 This book examines the effects of ethnicity on party politics in ten African countries Sebastian Elischer finds that five party types exist the mono ethnic the ethnic alliance the catch all the programmatic and the personalistic party He uses these party types to show that the African political landscape is considerably more diverse than conventionally assumed      Democracy, Elections, and Constitutionalism in Africa Charles M. Fombad, Nico Steytler, 2021-03-18 The third wave of democracy that reached African shores at the end of the Cold War brought with it a dramatic decline from 1990 onwards in dictatorships military regimes one party governments and presidents for life Multiparty democracy was at the core of the constitutional revolutions that swept through most of Africa in those watershed years However that wave is either losing momentum or receding or being reversed in its entirety This volume examines democracy and elections in Africa a focus motivated by two concerns First after 30 years it is important to take stock of the state of constitutional democracy on the continent The democratic gains of the 1990s and 2000s seem to be falling by the wayside with the evidence mounting that regimes are concealing authoritarianism under the veneer of elections doing so in an international context where populist regimes are on the rise and free and fair multiparty elections are consequently no longer a given It is becoming a battle to protect and retain constitutional democracy The second reason for this volume s focus on democracy and elections is that multiparty democracy is essential for the proper functioning of the state in addressing the major problems facing Africa internal conflict inequality and lack of development and poor governance and corruption The focus of this volume is thus on how competitive politics or multiparty democracy can be realized and how through competition such politics could lead to better policy and practice outcomes      Democratic Transitions in East Africa F. Wafula Okumu, 2019-07-16 Originally published in 2004 Genocide in Rwanda massive floods of refugees and displaced people in the Horn of Africa violent civil wars in the West African countries of Sierra Leone and Liberia these are testimonies to the tremendous cost to grassroots communities when the authority and legitimacy of national political systems and leaders are called into question The consolidation of democracy represents one tangible strategy to restore authority and legitimacy of political rule providing the peace and security necessary for political enfranchisement and economic opportunity This volume explores the factors that are crucial to the emergence of democratic political systems on the African continent specifically focusing on Kenya Tanzania and Uganda It highlights the political challenges facing these countries during this crucial transition period and provides insights that are applicable to other countries engaged in this process in Africa and beyond      Dilemmas of Political Transition Shumbana Karume, 2004      Political Parties & Democracy in Nigeria Olu Obafemi, Samuel G. Egwu, Okechukwu Ibeanu, Jubrin Ibrahim, 2014      Political Opposition and Democracy in Sub-Saharan Africa Elliott Green, Johanna Söderström, Emil Uddhammar, 2016-04-08 This book takes a closer look at the role and meaning

of political opposition for the development of democracy across sub Saharan Africa Why is room for political opposition in most cases so severely limited Under what circumstances has the political opposition been able to establish itself in a legitimate role in African politics To answer these questions this edited volume focuses on the institutional settings the nature and dynamics within and between political parties and the relationship between the citizens and political parties It is found that regional devolution and federalist structures enable political opposition to organize and gain local power as a supplement to influence at the central level Generally however opposition parties are lacking in organization and institutionalization as well as in their ability to find support in civil society and promote the issues that voters find most important Overall strong executive powers unchecked by democratic institutions in combination with deferential values and fear of conflict undermine legitimate opposition activity This book was originally published as a special issue of Democratization

**Political Thought and the Public Sphere in Tanzania** Emma Hunter, 2015-04-27 Political Thought and the Public Sphere in Tanzania is a study of the interplay of vernacular and global languages of politics in the era of decolonization in

Africa Decolonization is often understood as a moment when Western forms of political order were imposed on non Western societies but this book draws attention instead to debates over universal questions about the nature of politics concept of freedom and the meaning of citizenship These debates generated political narratives that were formed in dialogue with both global discourses and local political arguments The United Nations Trusteeship Territory of Tanganyika now mainland Tanzania serves as a compelling example of these processes Starting in 1945 and culminating with the Arusha Declaration of 1967 Emma Hunter explores political argument in Tanzania s public sphere to show how political narratives succeeded when they managed to combine promises of freedom with new forms of belonging at local and national level

emerged **Kenya's 2013 General Election** Njogu, Kimani, Wekesa, Peter Wafula, 2017-08-09 When voters enthusiastically turn up to cast their vote during general elections they expect that their action would meaningfully change their lives But in most of Africa even when elections are held on a regular basis voters are quite often disappointed by the performance of their leaders who use the new positions as an opportunity to loot public resources and consolidate power It is almost as if elections are of minimal value to the populace Notwithstanding this trend when they are free and fair general elections can be transformative They can bring into the political arena men and women of integrity committed to service and accountability Inspired by the determination to have inclusive governance and the advancement of democracy Kenya's 2013 General Election Stakes Practices and Outcomes asks important questions related to political participation coalition building politics of identity the international criminal court electoral systems and institutions and the judiciary The papers are written by mainly Kenyan academics and civil society actors who examine the drivers of the 2013 general elections and the sources of the mandate to lead This book is part of publications by Twaweza Communications on democratic practice and accountable governance in Kenya Tanzania Under Mwalimu Nyerere Godfrey Mwakikagile, 2006 Nyerere's economic policies his successes and failures in pursuit of economic development under socialism are some of the subjects addressed by the author in this book A Tanzanian himself he also looks at how life was under Nyerere since the sixties The work is also a critical examination of the political situation in Tanzania since independence when the country was known as Tanganyika before uniting with Zanzibar The author also looks at the transition that has taken place in Tanzania from one party rule to multiparty democracy and from socialism to capitalism since the collapse of the Soviet Union and the end of the Cold War He also takes a critical look at globalization and the negative impact of structural adjustment programmes in Tanzania and Africa as a whole The work is also a study of Tanzania's history since the advent of colonial rule and of the struggle for independence in one of Africa's largest countries **Challenges for the Democratisation Process in Tanzania** Jonas Ewald, 2013 Tanzania has been independent in 2011 for 50 years While most neighbouring states have gone through violent conflicts Tanzania has managed to implement extensive reforms without armed political conflicts Hence Tanzania is an interesting case for Peace and Development research This dissertation analyses the political development in Tanzania since the introduction of the multiparty system in 1992 with a focus on the challenges for the democratisation process in connection with the 2000 and 2005 elections The question of to what extent Tanzania had moved towards a consolidation of democracy is analysed by looking at nine different institutions of importance for democratisation grouped in four spheres the state the political civil and economic society Focus is on the development of the political society and the role of the opposition in particular The analysis is based on secondary and primary material collected between September 2000 to April 2010 The main conclusion is that even if the institutions of liberal democracy have gradually developed in practice single party rule has continued manifested in the 2005 election when the CCM won 92% of seats Despite impressive economic growth poverty

remains deep and has not been substantially reduced On a theoretical level this brings the old debate between liberal and substantive democracy back to the fore Neither the economic nor the political reforms have brought about a transformation of the political and economic system resulting in the poor majority gaining substantially more political influence and improved economic conditions Hence it is argued that the interface between the economic political and administrative reforms has not been sufficiently considered in the liberal democratic tradition Liberal democracy is necessary for a democratic development but not sufficient for democracy to be consolidated For that a substantive democratic development is necessary
