Political Science Looking To The Future Political Behavior:

Do Voters Look to the Future? Brad Lockerbie, 2008-06-30 Do voters look to the past the future or both when deciding how to vote In *Do Voters Look to the Future* Brad Lockerbie shows voters to be more sophisticated than much of the work in political science would suggest He argues that voters do not simply reward or punish the incumbent administration but instead make a comparative evaluation of the likely performance of each candidate and vote for the one that will most likely provide them with a prosperous future Making use of data from 1956 through the present Lockerbie finds that voters take into account both what has happened and what they think will happen when they vote He finds these economic evaluations to be strongly related to voting behavior both for the House and the Senate as well as the presidency Additionally Lockerbie examines the role of these economic items to explain changes in party identification **Political Science** William J.

Andrain,D. Apter,1994-12-19 This book probes three issues about the linkage between political protests and social change First why do individuals participate in protest activities including nonviolent movements and revolutions How do cultural beliefs sociopolitical structures personal attitudes motives and perceptions shape the decision to participate Second why do participants choose certain tactics Protesters use different types of tactics violent vs nonviolent public vs covert organized vs spontaneous and confrontation vs accommodation with other groups political parties and government agencies Most activists view a particular tactic as a useful means to attain their policy demands Third what policy consequences emerge from the activities of protest movements The book explores the impact of protests on social change and on the distribution of political power particularly greater access of subordinate groups to government policymakers A theory of political opportunities helps explain these issues about the origins activities and outcomes of protests Challenge of Politics, 4th Edition Neal

Riener, Douglas W. Simon, Joseph Romance, 2013-02-15 So often political science is introduced to students as a segmented field *The Challenge of Politics* instead enables students to see how the subfields converge around a set of crucial questions can we as citizens and students articulate and defend a view of the good political life and its guiding political values Can we develop a science of politics to help us understand significant political phenomena the empirical realities of politics Can we bring a high level of political prudence or wisdom to bear on judgments about politics and public issues Can citizens and students creatively address the future of politics Riener Simon and Romance aim to harmonize the valuable lessons of classic and contemporary theory as well as to reconcile politics to scientific and empirical study The book gives students an avenue to explore the impact of philosophy and ideology to recognize major forms of government to evaluate empirical findings and to understand how policy issues directly affect people's lives Throughout the authors look at political dynamics of American comparative and international affairs While continuing to pursue its distinctive normative approach and showing politics to be a potentially humanizing enterprise this new edition of *Challenge* has been revised and updated for major world events like the global financial crisis recent elections in the U S and elsewhere important policy decisions like the recent Supreme Court ruling in the U S on healthcare and the aftermath of the Arab Spring Based on reviewer feedback it has also been substantially streamlined throughout

Political Protest and Social Change Charles F. Andrain, David Ernest Apter, 1995-09 At the close of the twentieth century political protests have erupted throughout the world While the collapse of communism was certainly one of the most spectacular protest related events smaller protests have become ubiquitous In Los Angeles labor activists campaign against commercial real estate owners to unionize janitors mainly Latina immigrants In the People's Republic of China peasants revolt against tax collectors Amazonian Indians protest public and economic policies that destroy their culture and rainforest habitat This book analyzes the reciprocal impact of cultural beliefs sociopolitical structures and individual behaviors on protests throughout the world Why do individuals participate in protest activities How do cultural beliefs personal attitudes and subjective perception influence the potential protester Addressing the issue of agency in protest the authors also examine why protestors enlist different tactics to achieve their goals Why are some protests violent and others nonviolent When and why do activists conclude that it is better to accommodate than confront Finally and crucially what are the consequences of protest movements

The Future of Political Science Gary King, Kay L. American Politics and the African American Quest for Universal Freedom Hanes Walton, Robert C. Smith, 2015-10-16 This dynamic and comprehensive text from two nationally renowned scholars continues to demonstrate the profound influence African Americans have had and continue to have on American politics Through the use of two interrelated themes the idea of universal freedom and the concept of minority majority coalitions the text

demonstrates how the presence of Africans in the United States affected the founding of the Republic and its political institutions and processes The authors show that through the quest for their own freedom in the United States African Americans have universalized and expanded the freedoms of all Americans **Size and Local Democracy** Bas Denters, Michael Goldsmith, Andreas Ladner, Poul Erik Mouritzen, Lawrence E. Rose, 2014-09-26 How large should local governments be and what are the implications of changing the scale of local governments for the quality of local democracy These questions have stood at the centre of debates among scholars and public sector reformers alike from *The Future Catches Up: Arms control, peacekeeping, political behavior* Ralph Morris Goldman, 2002 Professor Goldman has contributed articles and books in diverse fields of political science This is a partial collection of his principal published and unpublished journal articles as well as brief references to his principal books Goldman's concern for the pathology of war is dealt with in several articles and books noted in this volume From Warfare to Party Politics reveals the dynamics of a critical transition from civil war to nonviolent political party competition His theory of conflict processes draws from sociology His other books and articles relate to arms control peacekeeping and the institutional development of the United Nations The Oxford Handbook of Philosophy of Political Science Harold Kincaid, Jeroen Van Bouwel, 2023 The Oxford Handbook of Philosophy of Political Science brings together philosophers of science and political scientists to discuss philosophical issues in political science The book offers twenty seven essays on how to do research in political science the purposes and use of political science in society as well as how to evaluate claims made by political scientists Information and Elections R. Michael Alvarez, 2010-05-07 R Michael Alvarez examines how voters make their decisions in presidential elections He begins with the assumption that voters have neither the incentive nor the inclination to be well informed about politics and presidential candidates Candidates themselves have incentives to provide ambiguous information about themselves their records and their issue positions Yet the author shows that a tremendous amount of information is made available about presidential candidates And he uncovers clear and striking evidence that people are not likely to vote for candidates about whom they know very little Alvarez explores how voters learn about candidates through the course of a campaign He provides a detailed analysis of the media coverage of presidential campaigns and shows that there is a tremendous amount of media coverage of these campaigns that much of this coverage is about issues and is informative and that voters learn from this coverage The paperback edition of this work has been updated to include information on the 1996 Presidential election Information and Elections is a book that will be read by all who are interested in campaigns and electoral behavior in presidential and other elections Thoughtfully conceptualized painstakingly analyzed with empirically significant conclusions on presidential election voting behavior this book is recommended for both upper division undergraduate and graduate collections Choice R Michael Alvarez is Associate Professor of Political Science California Institute of Technology *American Politics and the African American Quest for Universal Freedom* Hanes Walton, Jr, Robert C.
