The scope of Political Science was defined at a conference of political philosophers convened in September 1948 at the UNESCO House.

Political Institutions

Political science encompasses the study of numerous constitutions, various systems of government, and their merits, demerits, and other factors, such as whether the government is parliamentary, presidential, dictatorial, democratic, or coalition. Such research aids us in reforming our political structures in order to achieve our objectives.

Political Economy of China-Taiwan Relations Chien-Kai Chen, 2018-04-30 China Taiwan economic ties are now among the key factors influencing the relations between the two sides of the Taiwan Strait which is still one of the flashpoints in today's world This book traces the origin and the process of how so called cross strait economic ties became such a key factor in China Taiwan relations throughout the 1990s and how this factor has affected China Taiwan relations since then By focusing on Taiwan's domestic politics as it relates to the domestic conflicts between opposing political and economic forces in Taiwan over the political relations and economic ties across the Taiwan Strait the book demonstrates that the growth of cross strait economic ties since 1990 has significantly affected Taiwan's domestic politics which in turn has had a profound impact on China Taiwan relations Although the growth of China Taiwan economic ties could hardly resolve the so called Taiwan problem and might even lead to some political and economic conflicts between the two sides at times through Taiwan's domestic politics it has reduced the likelihood of severe confrontation especially the military one in the Taiwan Strait As this book reveals the interactions between the economic winners the economic losers the political parties the government and the general public in Taiwan's domestic politics as a result of the growth of cross strait economic ties have played an important role in the development of China Taiwan relations leading to a very confrontational situation from 1995 to 2008 a relatively peaceful Taiwan Strait from 2008 to 2016 and a cold peace between the two sides since 2016

Philosophical Perspectives on Power and Domination Laurence F. Bove, Laura Duhan Kaplan, 1997 The essays in this volume explore in detail many of the ways power structures our daily personal political and intellectual lives and evaluate the workings of power using a variety of theoretical paradigms from Hobbesian liberalism to Foucauldian feminist postmodernism Taken as a whole the book aims towards an end to unjust and destructive uses of power and the flowering of an encouraging educated empowerment for all human beings in a pluralistic world Section I offers a progressive chain of arguments that moves from the acceptance of domination through the rejection of domination and finally to a new vision of power based on equality and mutual respect Section II explores the questions how is the philosophical self that is our very understanding of who we are implicated in the web of power and domination Section III responds to political realism as it explores morally ideal solutions to the global
