Denis Derbyshire,Ian Derbyshire,2016-04-15 This comprehensive resource provides up to date political coverage of every country and political entity in the world today It incorporates all the major global and regional changes following the decolonization of Hong Kong in 1997 recent leadership changes in China and Russia the results of the Dayton Peace Accord the rise of the New Labor Party in the UK the 1999 elections in Israel and South Africa and the continued search for peace in the Middle East and Northern Ireland The economic crisis in Asia and the widespread growth of world nuclear powers are also covered      **Comparing Political Systems** Gary K. Bertsch,Robert P.

Clark,David Michael Wood,1986      **World Political Systems after Polarity** Nerses Kopalyan,2017-06-14 What will the current global political order look like when American unipolarity ends Historically the power configurations of world political systems have been defined by four structures multipolarity tripolarity bipolarity and unipolarity These concepts inform both the formulation and the analysis of short term policies and long term grand strategies of powerful actors in the world political order and may be of profound importance to the future peace and stability of the global system The concept of nonpolarity however has never been addressed as a possible or a potential structural formulation in the nomenclature of global political systems This book provides a coherent conceptualization of nonpolarity and how diplomacy will operate in a more collective age and fits into the ongoing discussion about the nature of the political world order as we approach the end of the American century      Democratic and Authoritarian Political Systems in 21st Century World Society Anna L.

Ahlers,Damien Krichewsky,Evelyn Moser,Rudolf Stichweh,2021-03-05 This book is about the radical novelty of modern polities in a functionally differentiated world society Premodern states were at the apex of a stratified hierarchical society They dominated society and all its groups and strata Modern polities have to be understood through the ecology of relations among different function systems They have to find and incessantly redefine their place in society They produce decisions that are collectively binding but in preparing these decisions experience constraints and knowledge deficiencies that are related to the complexity of a functionally differentiated society The book concentrates on six analytical perspectives that reflect how modern polities are embedded into 21st century society These perspectives are the concept of inclusion and the inclusion revolution constitutive of modern polities the internal differentiation of polities that endows them with an unprecedented complexity the fact that polities do not know anything about society and the ways in which they compensate for this representation and responsiveness as strategies to reconnect with society the self restriction of some polities that brings about ever new autonomous expert organizations the symmetrical rise of autocracies and democracies as the two modern variants of political regimes      The Evolution of Political Systems Steadman Upham,1990-09-20      Political Systems of the World Marshall Cavendish Corporation,Tom Lansford,Ron Fridell,Rebecca Stefoff,Thomas Fleming,Lila
