Political Theory Classic And Contemporary Readings Machiavelli To Rawls

Martin Fleisher

Political Theory Clabic And Contemporary Readings Machiavelli To Rawls:

Modern Political Thought David Wootton, 1996-01-01 Presents unabridged works and substantive abridgments in preeminent translations along with balanced lucid sophisticated introductions This book includes a wide and balanced selection of many of the more important texts of modern political thought To its great credit it provides pertinent excerpts from frequently neglected authors such as Calvin and Hume which it nicely juxtaposes appear to be good and the introductions to each section help to situate the writers in their historical and intellectual context and to alert students to some of the central issues that arise in the texts This book offers an economical and useful approach to modern political thought

Interpreting modern political philosophy from Machiavelli to Marx, 2011 *Machiavelli and the Orders of Violence* Yves Winter, 2018-09-20 Niccol Machiavelli is the most prominent and notorious theorist of violence in the history of European political thought prominent because he is the first to candidly discuss the role of violence in politics and notorious because he treats violence as virtue rather than as vice In this original interpretation Yves Winter reconstructs Machiavelli's theory of violence and shows how it challenges moral and metaphysical ideas Winter attributes two central theses to Machiavelli first violence is not a generic technology of government but a strategy that tends to correlate with inequality and class conflict and second violence is best understood not in terms of conventional notions of law enforcement coercion or the proverbial last resort but as performance Most political violence is effective not because it physically compels another agent who is thus coerced rather it produces political effects by appealing to an audience As such this book shows how in Machiavelli's world violence is designed to be perceived experienced remembered and narrated

Natural Law and Political Realism in the History of Political Thought R. W. Dyson, 2007

Modern Western Political Thought Dante L. Germino, 1972

Reading Political Philosophy Derek Matravers, Jonathan Pike, Nigel Warburton, 2014-05-01 This clear and thorough introduction provides students with the skills necessary to understand the main thinkers texts and arguments of political philosophy and thought Each chapter comprises a brief overview of a major political thinker followed by an introduction to one or more of their most influential works and an introduction to key secondary readings Key features include exercises reading notes guides for further reading The book introduces and assesses Machiavelli's Prince Hobbes Leviathan Locke's Second Treatise on Government Rousseau's Social Contract Marx and Engels German Ideology Part 1 Mill's On Liberty and The Subjection of Women Reading Political Philosophy requires no previous knowledge of philosophy or politics and is ideal for newcomers to political philosophy and political thought

Natural Law and Political Realism in the History of Political Thought: From the seventeenth to the twenty-first century R. W. Dyson, 2005 Original Scholarly Monograph

Reappraising Political Theory Terence Ball, 1994-11-24 Machiavelli Hobbes Rousseau Mill and Marx and Foucault what really links these and other classic political theorists Not argues Terence Ball their common status as dead white European males but instead the exciting and compelling way in which they can speak to us today Professor Ball

begins by setting out his liberating view of the way we should approach classic texts Using an approach that is both problem driven and methodologically pluralist Ball offers new readings and reappraisals of key authors and classic works in political theory Throughout he argues that the importance of the great texts lies in their repeated reinterpretation in the light of problems that arise for present day readers This tour de force always entertaining and eclectic focuses on the core problems surrounding many of the major thinkers Was Machiavelli really amoral Why did language matter so much to Hobbes and why should it matter to us Are the roots of the totalitarian state to be found in Rousseau Were the utilitarians sexist in their view of the franchise Written in lively and accessible style the book will provoke debate among students and scholars alike Throughout Terence Ball shows just how exciting and important political theory can be Machiavelli Maurizio Viroli, 1998-07-30 Founders of Modern Political and Social Thought Series Editor Dr Mark Philip Oriel College University of Oxford Founders of Modern Political and Social Thought present critical examinations of the work of major political philosophers and social theorists assessing both their initial contribution and continuing relevance to politics and society Each volume provides a clear accessible historically informed account of each thinker's work focusing on a reassessment of their central ideas and arguments Founders encourage scholars and students to link their study of classic texts to current debates in political philosophy and social theory This launch volume in the Founders of Modern Political and Social Thought series presents a critical examination of Machiavelli's thought combining an accessible historically informed account of his work with a reassessment of his central ideas and arguments Maurizio Viroli challenges the accepted interpretations of Machiavelli's work insisting that his republicanism was based not on a commitment to virtue greatness and expansion but to the ideal of civic life protected by the shield of fair laws His detailed study of how Machiavelli composed his famous work *The Prince* presents new interpretations and he further argues that the most challenging and completely underestimated aspect of Machiavelli's thought is his philosophy of life in particular his conceptions of love women irony God and the human condition Viroli demonstrates that Machiavelli composed *The Prince* and all his works according to the rules of classical rhetoric and never intended to found the modern science of politics aiming rather to continue and refine the practice of political theorising as a rhetorical endeavour taught by the Roman masters of civic philosophy Viroli's Machiavelli a serious challenge to contemporary methods of doing political theory will be essential for advanced students of the history of political thought

Machiavelli and the Nature of Political Thought Martin Fleisher, 1973-01-01 **Machiavelli and the Nature of Political Thought** Martin Fleisher, 1972-03 *Machiavellian Democracy* John P. McCormick, 2011-01-31 Intensifying economic and political inequality poses a dangerous threat to the liberty of democratic citizens Mounting evidence suggests that economic power not popular will determines public policy and that elections consistently fail to keep public officials accountable to the people McCormick confronts this dire situation through a dramatic reinterpretation of Niccol Machiavelli's political thought Highlighting previously neglected democratic strains in Machiavelli's major writings McCormick excavates

institutions through which the common people of ancient medieval and Renaissance republics constrained the power of wealthy citizens and public magistrates and he imagines how such institutions might be revived today It reassesses one of the central figures in the Western political canon and decisively intervenes into current debates over institutional design and democratic reform McCormick proposes a citizen body that excludes socioeconomic and political elites and grants randomly selected common people significant veto legislative and censure authority within government and over public officials

Machiavelli and the Modern State Alissa M. Ardito, 2015-02-26 This book offers a significant reinterpretation of the history of republican political thought and of Niccol Machiavelli's place within it It locates Machiavelli's political thought within enduring debates about the proper size of republics From the sixteenth century onward as states grew larger it was believed only monarchies could govern large territories effectively Republicanism was a form of government relegated to urban city states anachronisms in the new age of the territorial state For centuries history and theory were in agreement constructing an extended republic was as futile as trying to square the circle but then James Madison devised a compound representative republic that enabled popular government to take on renewed life in the modern era This work argues that Machiavelli had his own Madisonian impulse and deserves to be recognized as the first modern political theorist to envision the possibility of a republic with a large population extending over a broad territory

Machiavelli in the Making Claude Lefort, 2012-03-30 In *Machiavelli in the Making* the influential French scholar and public intellectual Claude Lefort introduces a wholly novel interpretation of Niccol Machiavelli's oeuvre revealing in the Florentine's thought a thoroughly modern concept of the political with implications for our experience of politics here and now Lefort extricates Machiavelli's thought from the dominant interpretations of Machiavelli as the founder of objective political science which having liberated itself from the religious and moralizing tendencies of medieval political reflection attempts to arrive at a realistic discourse on the operations of raw power Lefort ultimately finds that Machiavelli's discourse opens the place of the political which had previously been occupied by theology and morality An essential contribution to the ongoing reassessment of Machiavelli's significance *Machiavelli in the Making* also stands as a crucial text for the understanding of Lefort's later writings on democracy and totalitarianism

Classics of Modern Political Theory Steven M. Cahn, 1997 *Classics of Modern Political Theory* Machiavelli to Mill brings together the complete texts or substantial selections from many of the masterpieces of modern political theory The most comprehensive collection of its kind this volume includes well known works by Hobbes Locke Rousseau Hegel and Marx and significant contributions by Spinoza Montesquieu Hume Adam Smith Kant Burke Bentham and Tocqueville A distinctive feature is the inclusion of the Declaration of Independence the U S Constitution and numerous papers from *The Federalist* An extended introduction to each author's writings provided by a renowned authority on the subject features biographical data philosophical commentary and bibliographical guides Ideal for courses in political philosophy and intellectual history as well as surveys of Western Civilization this enlightening work presents the authors and

ideas which were most influential in shaping modern political thought **Against Throne and Altar** Paul A. Rahe, 2009-09-07 Modern republicanism distinguished from its classical counterpart by its commercial character and jealous distrust of those in power by its use of representative institutions and by its employment of a separation of powers and a system of checks and balances owes an immense debt to the republican experiment conducted in England between 1649 when Charles I was executed and 1660 when Charles II was crowned Though abortive this experiment left a legacy in the political science articulated both by its champions John Milton Marchamont Nedham and James Harrington and by its sometime opponent and ultimate supporter Thomas Hobbes This volume examines these four thinkers situates them with regard to the novel species of republicanism first championed more than a century before by Niccolo Machiavelli and examines the debt that he and they owed the Epicurean tradition in philosophy and the political science crafted by the Arab philosophers Alfarabi Avicenna and Averroes Machiavelli to Marx Dante Germino, 1979-04-15 Germino examines the scholars of this period whose works he feels have made significant new approaches to the critical understanding of our world and consequently to the problems of our time He discusses utilitarianism liberalism scientism and messianic nationalism

Back cover *Reading Machiavelli* John P. McCormick, 2018-10-09 To what extent was Machiavelli a Machiavellian Was he an amoral adviser of tyranny or a stalwart partisan of liberty A neutral technician of power politics or a devout Italian patriot A reviver of pagan virtue or initiator of modern nihilism Reading Machiavelli answers these questions through original interpretations of Niccol Machiavelli's three major political works The Prince Discourses and Florentine Histories and demonstrates that a radically democratic populism seeded the Florentine's scandalous writings John McCormick challenges the misguided understandings of Machiavelli set forth by prominent thinkers including Jean Jacques Rousseau and representatives of the Straussian and Cambridge schools McCormick emphasizes the fundamental often unacknowledged elements of a vibrant Machiavellian politics the utility of vigorous class conflict between elites and common citizens for virtuous democratic republics the necessity of political and economic equality for genuine civic liberty and the indispensability of religious tropes for the exercise of effective popular judgment Interrogating the established reception of Machiavelli's work by such readers as Rousseau Leo Strauss Quentin Skinner and J G A Pocock McCormick exposes what was effectively an elite conspiracy to suppress the Florentine's contentious egalitarian politics In recovering the too long concealed quality of Machiavelli's populism this book acts as a Machiavellian critique of Machiavelli scholarship Advancing fresh renderings of works by Machiavelli while demonstrating how they have been misread previously Reading Machiavelli presents a new outlook for how politics should be conceptualized and practiced **Order and Might** Nathan Rotenstreich, 1988-01-01 This is a systematic philosophy of politics and the state As few contemporary books do Order and Might provides a general theory exploring the structure of socio political experience It not only addresses such issues as the nature of freedom justice sovereignty and the relation between rights and obligations but also defines the systematic

connections between them Rotenstreich relates political theory to history and morality and develops the theory through careful formulations of all of the traditional categories Without expounding the great political theorists this book is a continued conversation with them Plato and Aristotle Machiavelli and Hobbes Hegel and Marx Weber Berlin and Rawls

Political Philosophy of Niccolo Machiavelli Filippo Del Lucchese, 2015-04-08 The Political Philosophy of Niccolo Machiavelli is a clear account of Machiavelli's thought major theories and central ideas Geared towards the specific requirements of students who need to reach a sound understanding of Machiavelli's ideas it is the ideal companion to the study of this influential and challenging philosopher

Eventually, you will categorically discover a additional experience and execution by spending more cash. nevertheless when? complete you put up with that you require to get those every needs similar to having significantly cash? Why dont you attempt to acquire something basic in the beginning? Thats something that will lead you to understand even more on the subject of the globe, experience, some places, with history, amusement, and a lot more?
