Politics Of Economic Restructuring And Democracy In Africa:

The Politics of Economic Restructuring and Democracy in Africa Obioma M. Iheduru, 1999-06-30 In a bold attempt to develop an innovative theory of political change arising from dual economic and political transformations Iheduru maintains that economic structural adjustment policies have unintended political consequences leading to democratic liberalization in post colonial African states Using classical dependency and neoliberal approaches as a backdrop he demonstrates that structural adjustment policies shaped by conditionality measures foster the operation of free enterprise market forces As a social consequence of the reform effort winners and losers organize to protect their interests first in the economy and later in the political arena Thus the structural reorientation of African economies leads not only to the ascendancy of the market and economic growth but also to the political opening of the African state thereby facilitating the participation of excluded groups In conclusion Iheduru predicts that structural adjustment is the best policy alternative for initiating and sustaining meaningful economic changes in Africa Moreover he claims it may be a deciding factor in the possible democratizing of the African continent which would provide an auspicious atmosphere for a properly functioning market economy **Party**

Opinion, Democracy, and Market Reform in Africa Michael Bratton,Robert Mattes,E. Gyimah-Boadi,2005 This book is a groundbreaking exploration of public opinion in sub Saharan Africa Based on the Afrobarometer a survey research project it reveals what ordinary Africans think about democracy and market reforms subjects on which almost nothing is otherwise known The authors find that support for democracy in Africa is wide but shallow and that Africans feel trapped between state and market While Africans are learning about reform on the basis of knowledge reasoning and experience few countries are likely to attain full fledged democracies and markets anytime soon **Nigeria in the Fourth Republic** E. Udogu,2022-04-14 Nigeria is a bellwether in an enormous continent endowed with natural resources and human capital whose development and greatness have been marred by political instability since gaining home rule from Britain in 1960 The contemporary political economic and social quandaries that have stultified Nigeria s growth project flows from difficulties in cultivating patriotic leaders with pluck to enact efficacious policies that will catapult the country to greater heights developmentally Nigeria in the Fourth Republic Confronting the Contemporary Political Economic and Social Dilemmas edited by E Ike Udogu examines some of the vital issues responsible for the current political malaise and recommends strategies for exculpating the country from her current political quagmires The contributors to this book argue inter alia for the avoidance of false starts reminiscent of the military interventions that aborted the democracy project and advocates the enactment of effective policies to supersede decision dictated by politics This volume proposes national healthcare strategies to address the country s healthcare needs and for dialogue to extinguish combustible inter religious conflicts The book

For a long time economic research on Africa was not seen as a profitable venture intellectually or professionally few researchers in top ranked institutions around the world chose to become experts in the field This was understandable the reputation of Africa centered economic research was not enhanced by the well known limitations of economic data across the continent Moreover development economics itself was not always fashionable and the broader discipline of economics has had its ups and downs and has been undergoing a major identity crisis because it failed to predict the Great Recession Times have changed many leading researchers including a few Nobel laureates have taken the subject of Africa and economics seriously enough to devote their expertise and creativity to it They have been amply rewarded the richness complexities and subtleties of African societies civilizations rationalities and ways of living have helped renew the humanities and the social sciences and economics in particular to the point that the continent has become the next major intellectual frontier to researchers from around the world In collecting some of the most authoritative statements about the science of economics and its concepts in the African context this handbook the first of two volumes opens up the diverse acuity of commentary on exciting topics and in the process challenges and stimulates the quest for knowledge Wide ranging in its scope themes language and approaches this volume explores examines and assesses economic thinking on Africa and Africa's contribution to the discipline The editors bring a set of powerful resources to this endeavor most notably a team of internationally renowned economists whose diverse viewpoints are complemented by the perspectives of philosophers political scientists and anthropologists

The Changing Forms of Identity Politics in Nigeria Under Economic Adjustment Cyril I. Obi, 2001

The Niger delta region of Nigeria which is at the heart of the country's oil industry has a long history of struggles for self

determination dating back to the early years of the 20 superscript th century In the 1980s and 1990s these struggles unfolding as they did within the context of military authoritarianism and structural adjustment took the form of widespread agitation for greater control by local communities of the revenues accruing to the Nigerian state from exploration and extraction of oil This study attempts to capture the transformations in ethnic minority identity politics in the oil producing areas of the Niger delta In doing this attention is simultaneously drawn to the factors informing the shift from peaceful agitation to violent protest as well as the dynamic of decay and renewal in the various ethnic minority movements that are active in the delta It is suggested that part of the solution to the crisis in the delta will involve not only a thorough going restructuring of the Nigerian state but also the re orientation of the mode of operation of the giant oil multinationals in order to make them both more sensitive and accountable to the local communities BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Democratization in Africa** Larry Diamond, Marc F.
