challenges Renata Golden faced in a harsh and isolated environment and examine the power of nature to influence her understanding of the human spirit. The lessons she learned on the borders of Arizona, New Mexico, and Mexico jolted her out of her customary way of seeing the world, which is the transformative power of a thin place where the borders between the sublime and the profane melt away. The essays call attention to the animals that are often shunned: pack rats, rattlesnakes, ants, prairie dogs, and other desert dwellers that some consider better dead than alive. Many of the animals in these essays are at risk of extinction. The essays honor these animals for the role they play in the wild world and for their unique abilities, such as cooperative societies and complex language skills. By recognizing the animals' value, Golden gives readers reasons to be moved to save them if it's not too late.
