Polluting Sacred Faith:

Polluting Sacred Faith Pramod Kumar,1992 Polluting Sacred Faith Pramod Kumar,1992-01-01 Inner Purity and Pollution in Greek Religion Andrej Petrovic,Ivana Petrovic,2016-10-06 Was Ancient Greek religion really mere ritualism Early Christians denounced the pagans for the disorderly plurality of their cults and reduced Greek religion to ritual and idolatry protestant theologians condemned the pagan religion of form with Catholicism as its historical heir For a long time scholars tended to conceptualize Greek religion as one in which belief did not matter and religiosity had to do with observance of rituals and religious practices rather than with worshipers inner investment But what does it mean when Greek texts time and again speak of purity of mind soul and thoughts This book takes a radical new look at the Ancient Greek notions of purity and pollution Its main concern is the inner state of the individual worshipper as they approach the gods and interact with the divine realm in a ritual context It is a book about Greek worshippers inner attitudes towards the gods and rituals and about what kind of inner attitude the Greek gods were envisaged to expect from their worshippers In the wider sense it is a book about the role of belief in ancient Greek religion By exploring the Greek notions of inner purity and pollution from Hesiod to Plato the significance of intrinsic faith based elements in Greek religious practices is revealed thus providing the first history of the concepts of inner purity and pollution in early Greek religion Pollution and Religion in Ancient Rome Jack J.

Lennon,2014 A detailed study of pollution and impurity in Roman religion offering new theories on a previously neglected yet vital subject The Mysteries of Religion Stephen R. L. Clark,2017-11-28 Philosophy of religion too often confines itself to a few well worn philosophical puzzles such as the proof of God s existence and overworked examples which are usually drawn from Western Christianity This book considers religion practice and expression in a number of cultural contexts both familiar and exotic from sacred texts to rites of passage from the British Israel movement to spiritism and Aztec devil worship The author argues that although there are many points on which religious persons disagree and no definite way of settling these disagreements Neoplatonic theory about the world and our place in it does at least provide the context for debate Is religion an irrational human attempt to disguise an essentially meaningless universe Or is irreligion itself unreasonable and a spiritual universe the best explanation Using a wide range of examples The Mysteries of Religion provides an invaluable philosophical background for a discussion of such fundamental questions **The Sacred Books of the Old and New Testament,**
