Presence Movie Review Jacinto C Walker, 2025-03-14 What if the scariest presence wasn't what you saw but what you became In *Presence* director Steven Soderbergh redefines the supernatural thriller by taking audiences on an immersive journey through the eyes of a ghost This groundbreaking film places viewers inside the perspective of an unseen entity watching over a grieving family subtly influencing events and revealing haunting truths about loss trauma and the unseen forces that bind us But is the presence a protector or a tormentor And how does its existence alter the fate of those it lingers around This in depth review unpacks the film's bold storytelling its unique cinematography and the chilling themes that blur the lines between psychological horror and supernatural suspense Whether you're a cinephile a horror enthusiast or simply looking for a fresh take on ghost stories this analysis offers a deeper understanding of *Presence* and its place in modern horror cinema *Haunted Presence* S. L. Varnado, 2015-11-15 To celebrate one hundred days in Miss Bindergarten's kindergarten class all her students bring one hundred of something to school including a one hundred year old relative one hundred candy hearts and one hundred polka dots **Ghostly Past, Capitalist Presence** Tithi Bhattacharya, 2024-07-19 In *Ghostly Past Capitalist Presence* Tithi Bhattacharya maps the role that Bengali ghosts and ghost stories played in constituting

the modern Indian nation and the religious ideas seeded therein as it emerged in dialogue with European science

Bhattacharya introduces readers to the multifarious habits and personalities of Bengal's traditional ghosts and investigates and mourns their eventual extermination. For Bhattacharya, British colonization marked a transition from the older multifarious folk world of traditional ghosts to newer and more frightening specters. These modern Bengali ghosts borne out of a new rationality were homogeneous specters amenable to scientific speculation and invoked at séance sessions in elite drawing rooms. Reading literature alongside the colonial archive, Bhattacharya uncovers a new reordering of science and faith from the middle of the nineteenth century. She argues that these shifts cemented the authority of a rising upper caste colonial elite who expelled the older ghosts in order to recast Hinduism as the conscience of the Indian nation. In so doing, Bhattacharya reveals how capitalism necessarily reshaped Bengal as part of the global colonial project.

The Politics of Presence John G. Sabol Jr., 2008-08-27 A major focus of ghost excavation as opposed to ghost hunting is an archaeology of experience. The emergence of this experience is unearthed through the investigative engagement of haunted space. One aspect of this engagement is performance which requires a specific sociocultural and historical context of understanding. This context of understanding must be understood in terms of layers of meaning. Gettysburg is used as a specific example of the use of performative and dramaturgical activity. Each of these activities performed at Gettysburg predisposes a genre, a set of beliefs, practices, social relations, manifestations, and locations which together define categorically what it is that is manifesting on the battlefield and what interpretations are being used to understand these performative cultural practices. The genres of performative action at Gettysburg are important because they are located at places on the battlefield where belief systems become mobilized into actual practice. This book will explore various haunting uncertainties and cultural situations associated with ghostly activity and the implications of these performances as they are enacted by ghost hunters, Civil War reenactors, the tourism industry, and the ghosts themselves.

Staging the Ghost Story Kelly Jones, 2025-06-29 Staging the Ghost Story is the first book to offer a critical appraisal of the centuries-long relationship between the ghost story and the English stage. The book balances a critical consideration of the ghost story in performance, its history, its cultural politics, and its generic conventions with practical insight regarding the valency of live representations of the supernatural, the challenges of embodiment, and the power of storytelling. Throughout, it draws upon accompanying interviews with prominent directors, playwrights, performers, and stage designers in the industry, including Mark Gatiss, Robin Herford, Michael Holt, Danny Robins, Robert Lloyd Parry, Rebecca Vaughan, Tajinder Singh Hayer, Glen Neath, Adam Z. Robinson, Richard Sutton, Paul Voodini, and Jonathan Goodwin. With a focus upon the seminal elements of theatrical performance—time, space, bodies, devices, and audience—the book invites the elusive shadows of the ghost story to take centre stage.

Phantom Past, Indigenous Presence Colleen E. Boyd, 2011 The imagined ghosts of Native Americans have been an important element of colonial fantasy in North America ever since European settlements were established in the seventeenth century. Native burial grounds and Native

ghosts have long played a role in both regional and local folklore and in the national literature of the United States and Canada as settlers struggled to create a new identity for themselves that melded their European heritage with their new North American frontier surroundings In this interdisciplinary volume Colleen E Boyd and Coll Thrush bring together scholars from a variety of fields to discuss this North American fascination with the phantom Native American Phantom Past Indigenous Presence explores the importance of ancestral spirits and historic places in Indigenous and settler communities as they relate to territory and history in particular cultural political social historical and environmental contexts From examinations of how individuals reacted to historical cases of hauntings to how Native phantoms have functioned in the literature of North Americans to interdisciplinary studies of how such beliefs and narratives allowed European settlers and Indigenous people to make sense of the legacies of colonialism and conquest these essays show how the past and the present are intertwined through these stories *The Presence of the Past in Children's Literature* Ann Lucas, 2003-09-30 Time is one of the most prominent themes in the relatively young genre of children's literature for the young like adults want to know about the past This book explores how children's writers have treated the theme and concept of time The volume starts with the application of literary theory and additionally analyzes examples of the juvenile historical novel In doing so it also examines changing fashions in criticism and publishing and the pressure they exert on writers It then considers literary adaptations of myths and archetypes constructions of history in children's literature colonial and postcolonial children's fiction and the treatment of the past in the postmodern era The book looks at literature from around the world and the expert contributors are from diverse countries and backgrounds While the book looks primarily at literature of the 19th and 20th centuries it considers a broad range of historical material treated in works from that period Included are discussions of such topics as Joan of Arc in children's literature the legacy of Robinson Crusoe colonial and postcolonial children's literature the Holocaust and the supernatural International in scope the volume examines history and collective memory in Portuguese children's fiction Australian history in picture books Norwegian children's literature and literary treatments of the great Irish famine *Presences and Absences - Transdisciplinary Essays* Katarína Labudova, Nóra Séllei, 2013-10-03 This volume discusses the question of presence and or absence from a transdisciplinary perspective and intends to provide insights into how a wide range of disciplines addresses this issue which has been at the centre of philosophical theoretical and critical debates in the past decades As the essays in the volume prove apparently diverse areas can have a lot in common and talk to each other in sometimes surprising ways The topics discussed include modals in various languages and black slave funeral sermons pragmatic markers and the Australian Stolen Generation the transcendental in poems by Ann Bradstreet Arthur Symonds and Philip Larkin short stories by Katherine Mansfield generic presences in Virginia Woolf and contemporary journalism haunting presences in fin de siècle ghost stories and in a contemporary horror film mythical structures in John Cowper Powys and Margaret Atwood and gender politics in Pat Barker and Sarah Waters The analyses as they talk to each

other create multiple dialogues without imposing closures and ultimate interpretations on the plethora of possible meanings emerging from the juxtaposition of these essays This transdisciplinary volume written in an erudite but reader friendly language will be of great interest to both the academic world as well as a broader readership interested in how linguistic phenomena in general cultural myths of all kinds various cinematic literary and journalistic genres from diverse periods can be approached and opened up to new readings and meanings from the perspective of presences and absences

Haunting Experiences Diane Goldstein, Sylvia Grider, Jeannie Banks Thomas, 2007-09-15 Ghosts and other supernatural phenomena are widely represented throughout modern culture They can be found in any number of entertainment commercial and other contexts but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them based on tradition or direct experience Personal belief and cultural tradition on the one hand and popular and commercial representation on the other nevertheless continually feed each other They frequently share space in how people think about the supernatural In *Haunting Experiences* three well known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts Diane E Goldstein Sylvia Ann Grider and Jeannie Banks Thomas take ghosts seriously as they draw on contemporary scholarship that emphasizes both the basis of belief in experience rather than mere fantasy and the usefulness of ghost stories They look closely at the narrative role of such lore in matters such as socialization and gender And they unravel the complex mix of mass media commodification and popular culture that today puts old spirits into new contexts
