Real Success Ken Shelton, 1999 In this refreshing update of Marden's timeless writings Shelton and the editors of SUCCESS magazine revisit the application of character based success **Success Magazine** ,1905 **Attention and Distraction in Modern German Literature, Thought, and Culture** Carolin Duttlinger, 2022-05-26 Attention is fundamental to how we experience reality and yet this notion has been understood and practised in very different ways across history This interdisciplinary study explores the dynamic relationship between attention and its supposed opposite distraction as it unfolds from the eighteenth century to the present day Its primary focus is on twentieth century Germany and Austria where matters of inattention gained a unique urgency during a period of social change and political crisis Building on Enlightenment practices of self observation nineteenth century Germany was the birthplace of experimental psychology a discipline which sought to measure and potentially enhance human attention This approach was also adopted outside the psychological laboratory for instance in the First World War when psychological testing was used to select soldiers for particular strategic positions After the war these techniques filtered through into everyday life Weimar Germany was unique in the western world in rolling out the methods of psychotechnics across civilian society in fields such as work and education advertising and mass entertainment This state sponsored programme aimed to reshape people's minds and behaviour in order to build a more efficient streamlined society But as this study shows this initiative also had profound repercussions in the fields of thought literature and culture New readings of leading writers and intellectuals of the period Kafka Musil Kracauer Benjamin and Adorno are interspersed with broader cultural historical chapters dedicated to the history of psychology and psychiatry to Weimar self help literature portrait photography and musical culture *The Parvenu's Plot* Stephanie Foote, 2014-11-04 In this very readable volume Stephanie Foote gathers a range of print sources from novels by Edith Wharton and Henry James to gossip columns fashion magazines popular novels and etiquette manuals to ask how the realist period understood the individual experience of class Examining the female arriviste the parvenu of the title in turn of the century New York where a supposedly stable elite was threatened by the nouveaux riches Foote shows how class became more than just an economic position it was a fundamental part of individual identity exemplified by a shifting set of social behaviors that form the core of many nineteenth century novels She persuasively presents the female parvenu as a key figure in turn of the century culture that embodies the volatility of social standing and the continuing project of structuring and justifying it **Cult of the Will** Michael J. Cowan, 2008 Michael Cowan presents a study of modernity's preoccupation with willpower From Nietzsche's will to power to a fantasy of the triumph of the will under Nazism the will its pathologies and potential cures was a topic of urgent debate in European modernity *Achievement, how it is Won* Zane Grey, 1926 Articles about how to be achieved written by successful public figures including educators politicians businessmen authors artists naturalists etc **The Publishers Weekly** ,1924 **ORISON SWETT MARDEN**
