Real Reciprocity:

National Reciprocity, 1902 **Reciprocity in International Law** Marcin Kałduński, 2024-12-27 The world is changing The era of globalization where the states have been eager to cooperate towards common aims might seem to be disappearing Russia expresses a contempt for international law China makes claim to power while the United States at least temporarily shows disregard to international institutions they themselves created in particular the WTO and the WHO The growing phenomenon of nationalistic and authoritarian leaders may seem to hamper the development of community interests Some states may be more inclined to resort to reciprocal behaviour as certain events indicate e g the exchange of prisoners of war in the Russia Ukraine conflict and an exchange of economic sanctions tit for tat or tat for tat The field of international law appears to be returning to first principles in the light of multiple world crises Thus reciprocity as a classic concept of international law may come back from the shadows be reinvented and reinforced to form one of the basic pillars in the relations among states Given the above the purpose of the book is to rediscover and identify the position and role of reciprocity in contemporary international law Reciprocity with Canada United States. Congress. Senate. Committee on Finance, 1911 **The End of Divine Truthiness: Love, Power, and God** Paul Joseph Greene, 2017-08-01 In The End of Divine Truthiness Paul Joseph Greene confronts stark realities of terrifying theologies that make a mockery out of divine love With urgent resolve Greene answers Martin Luther King Jr s pointed challenge to overcome reckless and abusive power without love and sentimental and anemic love without power Too many theologies cast God either as the tyrant whose loveless power lifts up the mighty or the victim whose powerless love sends the poor away empty Wielding Stephen Colbert s word truthiness as a scalpel Greene slices out one perilous theology after another to restore the wholesome truth that God is love Supported by three world religions Buddhism Christianity and Taoism he discovers a remarkably harmonious and revolutionary divine power that is fully aligned with divine love To reunify love and power here in the world as King challenges it is time to abandon ideologies of divine power that devastate divine love and promote atrocities Greene s call for the end of divine truthiness heralds a new day for the God whose love is power and whose power is love The Protectionist, 1911 A monthly magazine of political science and industrial progress **Legal Aspects of Trade Preferences for Developing States** Abdulqawi Yusuf, 1982-01-01 Reciprocal Relationships and Well-being Maritta Törrönen, Carol Munn-Giddings, Laura Tarkiainen, 2017-12-14 A sense of participation and opportunities to share and participate in activities or groups that are important to them are crucial factors in human wellbeing This book provides a robust empirical and theoretical analysis of reciprocity and its implications for social work and social policy practices by discussing how ideas of reciprocity can be understood and applied to welfare policy and social care practices as well as how the act of reciprocity supports the wellbeing of citizens Contributions from Finland Germany Russia the UK the USA and Canada illuminate the ways in which socio political contexts influence the power relations between citizens practitioners and the state and the

potential or otherwise for reciprocity to flourish It will be essential reading for social care practitioners researchers and educationalists as well as postgraduate students in social work and related social care and community oriented professions and social policy makers American Economist ,1905 American Economist and Tariff League Bulletin ... ,1901

Addresses Delivered to the Cleveland Democracy of Buffalo William S. Rann,1891 *Categories* Giuseppe D'Anna,Lorenzo Fossati,2018-03-01 Das Nachdenken ber die Kategorien markiert einen grundlegenden bergang in der Geschichte der Philosophie Durch die Theoretisierung dieses Problems erh lt die Philosophie jenen metareflexiven Charakter der wahrscheinlich eines der typischeren Merkmale philosophischen Wissens und ihrer Methode darstellt Das Kategorienproblem wurde im Laufe der Geschichte der Philosophie schrittweise durchdrungen aber nie endg ltig gel st In dieser Hinsicht kann die Geschichte der Kategorien im Rahmen der Philosophie nicht als abgeschlossen gelten tats chlich wird das Kategorienthema vom Altertum bis in die Gegenwart hinein analysiert und diskutiert ohne dass seine theoretische Fruchtbarkeit bereits ersch pft w re Die aktuelle Kategorienforschung muss sich unweigerlich mit der Geschichte der Kategorien befassen wenn sie Fortschritte erzielen und bereits in der Vergangenheit begangene Fehler vermeiden will Hieraus ergibt sich eine der Aufgaben des vorliegenden Bandes der von dem Bed rfnis ausgeht Perspektiven und Wege der Kategoriengeschichte aufzuzeigen Das Ergebnis ist nicht ersch pfend vielmehr wird ein erster und partieller Beitrag zu einem ausgedehnteren Projekt vorgelegt The reflection upon the categories leaves a fundamental mark in the history of philosophy By theorizing such issue philosophy gains a meta reflexive feature which is probably one of the most distinguishing traits of this kind of knowledge including its method In the history of philosophy the question of the categories has been gradually investigated and clarified but it still remains to be solved Therefore from a philosophical perspective the history of the categories is far from coming to an end since ancient times it has been debated and discussed thus revealing all its theoretical potential Such a broad history should be taken into account by any present study that wants to represent a real progress in the research in order to avoid repeating errors that have been already made in the past Among other things this is one of the objectives of the present volume which comes from the will to describe some paths and perspectives of this history without claiming to deliver an exhaustive overview and rather representing the first partial contribution to a wider
