Real Rule Of Four

Joscelyn Godwin

Real Rule Of Four:

The Real Rule of Four Joscelyn Godwin, 2005-11-01 Ian Caldwell and Dustin Thomason's *The Rule of Four* is already a bookselling phenomenon. The Ivy League super achievers drew upon an authentic 1499 Renaissance text to create their thriller about two Princeton undergraduates who try to unravel the mysteries of the *Hypnerotomachia Poliphili*, pronounced HIP ne RO to MA kia PO li FEE li. The *Hypnerotomachia Poliphili* is an erotic pagan epic written in a private language peppered with words taken from Latin and Greek and decorated with Egyptian hieroglyphs. It was not translated into English for 500 years until 1999 when Joscelyn Godwin finally achieved that near impossible task. *The Real Rule of Four* Professor Godwin carefully investigates each aspect of the history of the *Hypnerotomachia Poliphili* and its use in *The Rule of Four*, including: What is the *Hypnerotomachia*? Who wrote the *Hypnerotomachia*? A central theme of *The Rule of Four*? What does the *Hypnerotomachia* mean? Places and people in *The Rule of Four*? Glossary of names and terms in *The Rule of Four*? Lavishly illustrated with reproductions of the many beautiful woodcuts in the *Hypnerotomachia Poliphili*, a fold out color map and photographs of the featured locations at Princeton University. *The Real Rule of Four* is an indispensable guide to the many fans of Caldwell and Thomason's best selling novel.

The Human Face of War Jim Storr, 2009-05-25 Warfare is hugely important The fates of nations and even continents often rests on the outcome of war and thus on how its practitioners consider war *The Human Face of War* is a new exploration of military thought It starts with the observation that much military thought is poorly developed often incoherent and riddled with paradox The author contends that what is missing from British and American writing on warfare is any underpinning mental approach or philosophy Why are some tank commanders snipers fighter pilots or submarine commanders far more effective than others Why are many generals sacked at the outbreak of war *The Human Face of War* examines such phenomena and seeks to explain them The author argues that military thought should be based on an approach which reflects the nature of combat Combat fighting is primarily a human phenomenon dominated by human behaviour The book explores some of those human issues and their practical consequences *The Human Face of War* calls for and suggests a new way of considering war and warfare
