Realigning Interests Crisis And Credibility In European Monetary Integration:

Realigning Interests M. Chang, 2016-02-10 Why do currency crises happen What conditions set the stage for such a crisis How severe will it be When will it happen This book answers these questions illustrating the points by examining the exchange rate realignments of the European Monetary System It also shows how balancing the tension between domestic and international politics plays a vital part in a government's willingness to uphold its exchange rate commitments Michele Chang pays particular attention to the role of domestic elections since these may prevent governments from credibly committing to a fixed exchange rate and from responding quickly and coherently to market instability thus encouraging speculation *Handbook of the International Political Economy of Monetary Relations* Thomas Oatley, W. Kindred Winecoff, 2014-06-27 This extensive Handbook provides an in depth exploration of the political economy dynamics associated with the international monetary and financial systems Leading experts offer a fresh take on research into the interaction between system structure t Market-Based Banking and the International Financial Crisis Iain Hardie, David J. Howarth, 2013-08-29 This edited volume offers a study of national banking systems and explains how banking developed in the years preceding the international financial crisis that erupted in 2007 Its analysis of market based banking shows the impact of the financial crisis in eleven developed economies including all of the G7 economies The European Union Steven P. McGiffen, 2005-10-20 The political dynamics of the European Union can often appear confusing shrouded as they are in complex legislative processes This book offers a clear and thorough critical introduction to the origins development and current direction of the EU and pinpoints the major policy debates animating decision makers This revised and updated edition offers a well illustrated analysis of each of the EU's major policy areas and covers arguments both for and against the EU McGiffen explores subjects including enlargement internal and external security the Euro trade the environment employment transport and regional policy He explains how and why the debate about membership is frequently and falsely presented as if it were a conflict between nationalism and internationalism and argues instead that the EU is merely one of a number of possible solutions to the the economic and political problems facing Europe Published in association with Spectre *Power Politics, Banking Union and EMU* Shawn Donnelly, 2018-03-28 This book examines the politics of Banking Union and EMU reform in the EU and draws lessons for what it means for international politics both in Europe and for international relations more broadly It demonstrates that most of the reforms in Europe to break free of the Eurozone and banking crises in which Europe continues to find itself focus on building up the capacities of national authorities rather than European ones The result is that national authorities remain largely in control of the decisions and funds that are to be deployed to prevent economic disaster if a single EU bank fails The likely outcome is an accelerated balkanization of the European market for the foreseeable future The book also contends that power politics and realism in particular is a defining feature of European politics with coercion and enforced national responsibility at the demand of Germany the dominant form of institution

building that established the responsible sovereignty model and shut down the possibility of alternatives In making this case the book demonstrates that the dominant view in international relations that power politics best explains the behaviour of states also apply to the EU This text will be of key interest to scholars and students of the Eurozone crisis EU politics economic policy and more broadly to political economy public policy and international relations The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license European Economic Legal Order After Brexit Enzo

Cardi, 2021-07-28 This book takes an innovative approach to provide a mirror perspective of the legal systems of the UK and the EU in contemporary institutional scenarios At the beginning of the second decade of the 21st century the legal systems of the EU and the UK are facing challenges of epic proportions Never before have the two legal orders been confronted with the simultaneous impact of a series of events First the effect of the divorce between the two regulatory systems caused by the UK's withdrawal from the EU The Negotiating Documents and the Draft Texts being discussed and aimed at leading to a New Partnership are examined in the book Second the book discusses the impact of the coronavirus shock in all European economies leading to a substantial change of political perspective in the EU legal order implying innovative debt instruments Third it explores the consequences of the judicial activism of the German Constitutional Court undermining the strategic role of the European Central Bank and the primacy of the European Union Court of Justice The book questions the effects deriving from the legacy i.e. the foundations of the two legal systems on handling the issues of our time the impact on market regulation of the striking contemporary events and the unsettled consequences on policy of the current convulsing political and financial landscape The book will be essential reading for those working in the areas of European public regulatory law

Negotiating Europe O. Calligaro, 2013-12-18 The book explores the promotion of Europeanness which aims to arouse feelings of belonging to the European Union It demonstrates that the promotion of Europeanness at the EU level does not constitute an overarching identity policy that imposes a homogenous interpretation of European identity Rather it is a process of negotiation in which various entrepreneurs of Europeanness within and outside the EU institutions invent and communicate representations of Europe Both the negotiation and the multilayered representations of Europe that it produces are investigated through three case studies the academia and the historians European heritage and the iconography of the euro
