Realist Evaluation In Practice:

Realist Evaluation in Practice Mansoor A F Kazi, 2003-06-25 This title outlines the new emerging realist paradigm in evaluation research applies it to practice in human services The author contributes to the development of this paradigm in practice provides examples of realist evaluations

Realist Evaluation in Practice Libby Kalucy, 2004 *Realistic Evaluation* Ray Pawson, Nicholas Tilley, 1997-04-23 Realistic Evaluation shows how program evaluation needs to be and can be bettered It presents a profound yet highly readable critique of current evaluation practice and goes on to introduce a manifesto and handbook for a fresh approach The main body of this book is devoted to the articulation of a new evaluation paradigm which promises greater validity and utility from the findings of evaluation studies The authors call this new approach realistic evaluation The name reflects the paradigm's foundation in scientific realist philosophy its commitment to the idea that programmes deal with real problems rather than mere social constructions and its primary intention which is to inform realistic developments in policy making that benefit programme participants and the public Ray Pawson and Nicholas Tilley argue with passion that scientific evaluation requires a careful blend of theory and method quality and quantity ambition and realism The book offers a complete blueprint for evaluation activities running from design to data collection and analysis to the cumulation of findings across programmes and onto the realization of research into policy The argument is developed using practical examples throughout and is grounded in the major fields of programme evaluation This book will be essential reading for all those involved in the evaluation process especially those researchers students and practitioners in the core disciplines of sociology social policy criminology health and education This book is a must for those engaged in the field providing a fully illustrated text on evaluation with numerous examples from the criminal justice system Unusually it offers something for the academic practitioner and student alike I found Pawson and Tilley's latest work on evaluation an enjoyable and informative read For myself their realistic evaluation clarified and formalised a jumbled set of ideas I had already been developing Although not everyone will agree with the methodology proposed by the authors this book is a valuable read as it will cause most of us at least to review our methodological stance International Journal of Police Science and Management This is an engaging book with a strong sense of voice and communicative task The voice is sometimes strident but always clear Its communicative qualities are evident equally in its structure lots of signposting for the reader within and across chapters Language Teaching Research This provocative elegant and highly insightful book focuses on the effective incorporation of actual practice into the formulation of evaluation methodology What a pleasure to read sentences like The research act involves learning a stakeholder's theories formalizing them and teaching them back to that informant who is then in a position to comment upon clarify and further refine the key ideas Pawson and Tilley have given us a wise witty and persuasive account of how real practitioner experience might be encouraged to intrude on and modify researchers concepts about program processes and outcomes This holds important promise for achieving something that is devoutly to be

wished closer interaction among at least some researchers and some policy makers Eleanor Chelimsky Past President of the American Evaluation Association This is a sustained methodological argument by two worldly wise social scientists Unashamedly intellectual theoretically ambitious yet with a clear but bounded conception of evaluation It is articulate occasionally eloquent and always iconoclastic whilst eschewing paradigm wars The Pawson and Tilley realist call to arms threatens to take no prisoners among experimentalists constructivists or pluralists It is the kind of book that clarifies your thoughts even when you disagree with everything they say Elliot Stern The Tavistock Institute [Handbook of Public Policy Evaluation](#) Frédéric Varone, Steve Jacob, Pirmin Bundi, 2023-10-06 This comprehensive Handbook examines public policy evaluation in democracies Focusing on the political dimension of the evaluation process it argues that policy evaluation can be an emancipatory tool reducing social inequalities and exclusion and offers novel suggestions on how evaluations can be used to improve democratic policymaking

Realist Evaluation Ana Manzano, Emma Williams, 2024-11-29 Realist Evaluation Principles and Practice offers a comprehensive exploration of contemporary realist evaluation showcasing how skilled practitioners navigate diverse fieldwork contexts Authored by experts spanning academia and evaluation backgrounds across five continents in fields including climate change criminology health and international development the book provides a rich tapestry of perspectives Covering participatory approaches digital and visual data collection interpreter mediated interviews and innovative methods like refuse data analysis the authors delve into contemporary social research methodologies while addressing issues such as power insider outsider research the nature of evidence critical and scientific realism philosophies of science and confirmation bias in qualitative research Practical advice is provided in areas such as developing a topic guide combining a realist review with an evaluation and managing large multi site cross national projects This collection underscores the creative nature of the realist imagination highlighting ongoing innovations by scholars and evaluators With contributions from an outstanding group of internationally renowned experts in realist evaluation including Nick Tilley a key figure in the development of realist evaluation alongside Ray Pawson this is the ideal text for students researchers and professionals including policy makers professional evaluators and those at organisations such as thinktanks and NGOs who require an accessible guide on how to use realist evaluation methods Chapters Chapter 3 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Realist Evaluation: An Emerging Theory in Support of Practice Gary T. Henry, George Julnes, Melvin M. Mark, 1998-06-29 Why is another theory of evaluation needed The paradigm wars have left a void in their wake A new theory firmly grounded in a credible philosophy of science is needed to guide practice The aim of this volume is to provide a new theory that captures the sensemaking contributions from post positivism and the sensitivity to values from constructivist traditions The theory presented here is not a slap dash synthesis of the competing paradigms it is a new approach Some of the contributions of the realist theory of evaluation are 1 providing a

basis for principled discovery as we oscillate between explanations and data 2 using explanation as a means for extrapolating findings from one evaluation to other settings 3 viewing all methods both quantitative and qualitative as aids to sensemaking that have strengths and flaws 4 connecting evaluation practice with the ultimate goal of most program evaluation social betterment and 5 balancing the focus of the evaluation between sensemaking and value inquiry This is the 78th issue of the quarterly journal *New Directions for Evaluation* Towards equitable health systems for universal health coverage (UHC) in sub-saharan africa John E. Ataguba, Juliet Nabyonga-Orem, Eugenia Amporfu, 2023-06-23 **An Introduction to Evaluation** Chris Fox, Robert Grimm, Rute Caldeira, 2016-10-18 Both practical and theoretical in approach this book is the perfect companion for student researchers and policy makers alike It provides actionable advice for planning and implementing evaluations while also instilling an ability to assess the evaluations of others and consider the ways in which evaluation evidence could influence policy and practice Drawing upon a wide range of examples from policy areas like education criminal justice and health and social care this book showcases how evaluation is an interdisciplinary research practice with a spectrum of applications Each chapter contains philosophical underpinnings and applied knowledge as well as examples from published evaluations Specific topics include how to Choose an approach to evaluation Plan design and conduct evaluations Approach evaluations using theories of change Differentiate between process impact and economic evaluations Understand the role of quantitative and qualitative methods in data collection Use systematic reviews and other tools to assess and disseminate evaluation findings From getting started in the field to turning evidence into policy this book will guide you through every step of the evaluation process **Evaluation Roots** Marvin C. Alkin, 2012-04-12 *Evaluation Roots A Wider Perspective of Theorists Views and Influences* Second Edition provides an updated examination of current evaluation theories and traces their evolution Marvin C Alkin shows how theories build upon theories and how the theories are related to each other The way in which these evaluation roots grew to form a tree helps to provide a better understanding of evaluation theory In addition to the editor s overview the book contains essays by leading evaluation theorists In these pieces the evaluators comment on their own development and give their views of their placement upon the tree All royalties from sales of this book are donated to support the AEA Research on Evaluation Student Award *The SAGE Handbook of Evaluation* Ian Shaw, Ian Graham Ronald Shaw, Jennifer C Greene, Melvin M Mark, 2006-07-27 In this comprehensive handbook an examination of the complexities of contemporary evaluation contributes to the ongoing dialogue that arises in professional efforts to evaluate people related programs policies and practices The SAGE Handbook of Evaluation is a unique and authoritative resource consisting of 25 chapters covering a range of evaluation theories and techniques in a single accessible volume With contributions from world leading figures in their fields overseen by an eminent international editorial board this handbook is an extensive and user friendly resource
