Paul Strohm

Reality Fictions Romance History And Governmental Authority 1025 1180:

Writing the North of England in the Middle Ages Joseph Taylor, 2022-12-22 Writing the North of England in the Middle Ages offers a literary history of the North South divide examining the complexities of the relationship imaginative material and political between North and South in a wide range of texts Through sustained analysis of the North South divide as it emerges in the literature of medieval England this study illustrates the convoluted dynamic of desire and derision of the North by the rest of country Joseph Taylor dissects England s problematic sense of nationhood as one which must be negotiated and renegotiated from within rather than beyond national borders Providing fresh readings of texts such as Chaucer s Canterbury Tales the fifteenth century Robin Hood ballads and the Towneley plays this book argues for the North s vital contribution to processes of imagining nation in the Middle Ages and shows that that regionalism is both contained within and constitutive of its apparent opposite nationalism

A Companion to Geoffrey of Monmouth, 2020-08-10 A Companion to Geoffrey of Monmouth brings together scholars from a range of disciplines to provide an updated scholarly introduction to all aspects of his work Arguably the most influential secular writer of medieval Britain Geoffrey d 1154 popularized Arthurian literature and left an indelible mark on European romance history and genealogy Despite this outsized influence Geoffrey s own life background and motivations are little understood The volume situates his life and works within their immediate historical context and frames them within current critical discussion across the humanities By necessity this volume concentrates primarily on Geoffrey s own life and times with the reception of his works covered by a series of short encyclopaedic overviews organized by language that serve as guides to further reading Contributors are Jean Blacker Elizabeth Bryan Thomas H Crofts Si n Echard Fabrizio De Falco Michael Faletra Ben Guy Santiago Guti rrez Garc a Nahir I Ota o Gracia Paloma Gracia Georgia Henley David F Johnson Owain Wyn Jones Maud Burnett McInerney Fran oise Le Saux Barry Lewis Coral Lumbley Simon Meecham Jones Paul Russell Victoria Shirley Joshua Byron Smith Jaakko Tahkokallio H l ne T rel Rebecca Thomas Fiona Tolhurst

Orderic Vitalis Charles C. Rozier, Daniel Roach, Giles Edward Murray Gasper, Elizabeth van Houts, 2016 First full length collection on one of the most significant and influential historians of the medieval period

Blood Libel Hannah Johnson, 2021-03-11 The first book investigating the recent historiography of the ritual murder accusation

Middle English Paul Strohm, 2007-04-19 These original essays mean to provoke rather than reassure to challenge rather than codify Instead of summarizing existing knowledge after the fashion of the now ubiquitous literary companions these essays aim at opening fresh discussion instead of emphasizing settled consensus they direct their readers to areas of enlivened and unresolved debate Although major authors such as Chaucer and Langland are richly represented many little known and neglected texts are considered as well Analysis is devoted not only to self sufficient works but to the general conditions of textual production and reception Contributors to this collection include some recognized and admired names but also a good many newer faces younger scholars whose groundbreaking research is just coming into full

view and whose perspectives will influence the terms of literary discussion in the decades to come Encouraged to speculate they have addressed topics that unsettle previous categories of investigation Each is oriented toward the emergent the unfinished the yet to be done Each essay stirs new questions and concludes with suggestions for further reading and investigation that will allow readers to extend their own research into the questions it has raised

Constructing Kanchi

Emma Natalya Stein, 2025-10-01 *Constructing Kanchi* City of Infinite Temples traces the emergence of the South Indian city of Kanchi as a major royal capital and multireligious pilgrimage destination during the era of the Pallava and Chola dynasties ca seventh through thirteenth centuries The book presents the first ever comprehensive picture of historical Kanchi locating the city and its more than 100 spectacular Hindu temples at the heart of commercial and artistic exchange that spanned India Southeast Asia and China The author demonstrates that Kanchi was structured with a hidden urban plan which determined the placement and orientation of temples around a central thoroughfare that was also a burgeoning pilgrimage route Moving outwards from the city she shows how the transportation networks river systems residential enclaves and agrarian estates all contributed to the vibrancy of Kanchi's temple life The construction and ongoing renovation of temples in and around the city she concludes has enabled Kanchi to thrive continuously from at least the eighth century through the colonial period and up until the present

Epic, Epitome, and the Early Modern Historical Imagination

Dr Chloe Wheatley, 2013-05-28 In early modern England epitomes texts promising to pare down abridge or sum up the essence of their authoritative sources provided readers with key historical knowledge without the bulk expense or time commitment demanded by greater volumes Epic poets in turn addressed the habits of reading and thinking that for better and for worse were popularized by the publication of predigested works Analyzing popular texts such as chronicle summaries abridgements of sacred epic and abstracts of civil war debate Chloe Wheatley charts the efflorescence of a lively early modern epitome culture and demonstrates its impact upon Edmund Spenser's *The Faerie Queene* Abraham Cowley's *Davideis* and John Milton's *Paradise Lost* Clearly and elegantly written this new study presents fresh insight into how poets adapted an important epic convention the representation of the hero's confrontation with summaries of past and future to reflect contemporary trends in early modern history writing

Literature and Law in the Era of Magna Carta Jennifer Jahner, 2019-10-03 The monograph series *Oxford Studies in Medieval Literature and Culture* showcases the plurilingual and multicultural quality of medieval literature and actively seeks to promote research that not only focuses on the array of subjects medievalists now pursue in literature theology and philosophy in social political jurisprudential and intellectual history the history of art and the history of science but also that combines these subjects productively It offers innovative studies on topics that may include but are not limited to manuscript and book history languages and literatures of the global Middle Ages race and the post colonial the digital humanities media and performance music medicine the history of affect and the emotions the literature and practices of devotion the theory and history of gender and sexuality ecocriticism and the environment theories of aesthetics

medievalism | Literature and Law in the Era of Magna Carta traces processes of literary training and experimentation across the early history of the English common law from its beginnings in the reign of Henry II to its tumultuous consolidations under the reigns of John and Henry III The period from the mid twelfth through the thirteenth centuries witnessed an outpouring of innovative legal writing in England from Magna Carta to the scores of statute books that preserved its provisions An era of civil war and imperial fracture it also proved a time of intensive self definition as communities both lay and ecclesiastic used law to articulate collective identities Literature and Law in the Era of Magna Carta uncovers the role that grammatical and rhetorical training played in shaping these arguments for legal self definition Beginning with the life of Archbishop Thomas Becket the book interweaves the histories of literary pedagogy and English law showing how foundational lessons in poetics helped generate both a language and theory of corporate autonomy In this book Geoffrey of Vinsauf's phenomenally popular Latin compositional handbook the *Poetria nova* finds its place against the diplomatic backdrop of the English Interdict while Robert Grosseteste's Anglo French devotional poem the *Chateau d'Amour* is situated within the landscape of property law and Jewish Christian interactions Exploring a shared vocabulary across legal and grammatical fields this book argues that poetic habits of thought proved central to constructing the narratives that medieval law tells about itself and that later scholars tell about the origins of English constitutionalism

Galbert of Bruges and the Historiography of Medieval Flanders Jeff Rider, Alan V. Murray, 2009-11 Leading medieval scholars analyze one of the best known historical narratives of the Middle Ages

The Oxford Handbook of Medieval Latin Literature Ralph Hexter, David Townsend, 2012-01-23 The twenty eight essays in this Handbook represent the best of current thinking in the study of Latin language and literature in the Middle Ages The insights offered by the collective of authors not only illuminate the field of medieval Latin literature but shed new light on broader questions of literary history cultural interaction world literature and language in history and society The contributors to this volume a collection of both senior scholars and gifted young thinkers vividly illustrate the field's complexities on a wide range of topics through carefully chosen examples and challenges to settled answers of the past At the same time they suggest future possibilities for the necessarily provisional and open ended work essential to the pursuit of medieval Latin studies While advanced specialists will find much here to engage and at times to provoke them this handbook successfully orients non specialists and students to this thriving field of study The overall approach of *The Oxford Handbook of Medieval Latin Literature* makes this volume an essential resource for students of the ancient world interested in the prolonged after life of the classical period's cultural complexes for medieval historians for scholars of other medieval literary traditions and for all those interested in delving more deeply into the fascinating more than millennium that forms the bridge between the ancient Mediterranean world and what we consider modernity
