Reason And Belief In The Age Of Roscelin And Abelard:

Reason and Belief in the Age of Roscelin and Abelard Constant J. Mews, 2024-10-28 The previous collection by Constant J Mews focused on the work and thought of Peter Abelard 1079 1142 the present volume looks more broadly at Abelard's intellectual and religious context in the Latin West and at his teacher the controversial nominalist philosopher and theologian Roscelin of Compi gne It opens with surveys of educational theory and practice in the 12th century schools Mews next explores the widespread movement in the period which sought to explain religious belief in terms accessible to reason and the background to accusations of heresy made by monks troubled by new attempts to interpret Christian belief both within and outside a school environment Five related studies then deal with previously unedited texts by Roscelin of Compi gne and St Anselm that throw new light on the importance of the philosopher and theologian who exercised a major influence on Peter Abelard

Reason and Belief in the Age of Roscelin and Abelard C. J. Mews, 2002 The papers that comprise this collection synthesise the author's research into the dynamism of thinking about reason and belief in northern France from the time of St Anselm until the mid twelfth century

A History of Western Philosophy of Education in the Middle Ages and Renaissance Kevin H. Gary, 2021-01-28 This volume traces the history of Western philosophy of education from the Medieval through the Renaissance period 500 1550 This vast expanse of time includes the rise of Christian monasticism one of the most enduring and revolutionary models of education in the history of the West the birth of Islam with its advances in mathematical scientific and philosophical reasoning the rise of the university as an emerging force distinct from ecclesiastical and state control and the dawn of the Enlightenment It includes chapters on the educational thought of Benedict Abelard Heloise Aquinas Maimonides the prophet Mohammed Hrosvitha of Gandersheim Hildegard of Bingen among others It also considers the educational impact of Reformation thinkers like Erasmus and Luther and Renaissance thinkers such as Montaigne About A History of Western Philosophy of Education An essential resource for researchers scholars and students of education this five volume set that traces the development of philosophy of education through Western culture and history Focusing on philosophers who have theorized education and its implementation the series constitutes a fresh dynamic and developing view of educational philosophy It expands our educational possibilities by reinvigorating philosophy's vibrant critical tradition connecting old and new perspectives and identifying the continuity of critique and reconstruction It also includes a timeline showing major historical events including educational initiatives and the publication of noteworthy philosophical works

Letters of Peter Abelard, Beyond the Personal Peter Abelard, 2008 The popularity of the personal letters has generated considerable fanfare for the publication of another set of correspondence printed under the title *The Lost Love Letters of Heloise and Abelard* The authorship of all these letters has been contested repeatedly with the last mentioned collection being the center of a present firestorm

The Letter Collection of Peter Abelard and Heloise Peter Abelard, Héloïse, 2013-08-22 The letters of Abelard and Heloise contain a vivid account of one of

the most celebrated love affairs in the western world that raised questions about love marriage and religious life in the Middle Ages This much needed new edition of the Latin text contains English translation a full introduction extensive annotation and detailed indexes **A Companion to Bernard of Clairvaux** Brian Patrick McGuire,2011-03-21 Bernard of Clairvaux emerges from these studies as a vibrant challenging and illuminating representative of the monastic culture of the twelfth century In taking on Peter Abelard and the new scholasticism he helped define the very world he opposed and thus contributed to the renaissance of the twelfth century **Micro Middle Ages** Paul Edward Dutton,2023-10-30 Micro Middle Ages brings together five microhistorical case studies focusing on small or seemingly inconsequential evidence that leads to broader conclusions about medieval history and the way we do and understand history in general Paul Dutton provides an overview of microhistorical approaches and theorizes about its use in pre modern history As opposed to studying history from above or history from below Dutton shows the advantages for historians of doing history from the inside out starting from some single overlooked but potentially knowable thing delving deep inside and then reattaching it to its time and place Such an approach has one abiding advantage its insistence on being grounded in the particularity of the evidence The book highlights what the microhistorical is its conceptual and practical challenges Dutton argues that the attention to the micro has always been with us and is a constitutive cognitive part of who we are as human beings *Logical Fictions in Medieval Literature and Philosophy* Virginie Greene,2014-10-23 In the twelfth and thirteenth centuries new ways of storytelling and inventing fictions appeared in the French speaking areas of Europe This new art still influences our global culture of fiction Virginie Greene explores the relationship between fiction and the development of neo Aristotelian logic during this period through a close examination of seminal literary and philosophical texts by major medieval authors such as Anselm of Canterbury Ab lard and Chr tien de Troyes This study of Old French logical fictions encourages a broader theoretical reflection about fiction as a universal human trait and a defining element of the history of Western philosophy and literature Additional close readings of classical Greek philosophers Plato and Aristotle and modern analytic philosophy including the work of Bertrand Russell and Rudolf Carnap demonstrate peculiar traits of Western rationalism and expose its ambivalent relationship to fiction Cistercian Stories for Nuns and Monks Martha G. Newman,2020-10-30 Around the year 1200 the Cistercian Engelhard of Langheim dedicated a collection of monastic stories to a community of religious women Martha G Newman explores how this largely unedited collection of tales about Cistercian monks illuminates the religiosity of Cistercian nuns As did other Cistercian storytellers Engelhard recorded the miracles and visions of the order s illustrious figures but he wrote from Franconia in modern Germany rather than the Cistercian heartland His extant texts reflect his interactions with non Cistercian monasteries and with Langheim s patrons rather than celebrating Bernard of Clairvaux Engelhard was conservative interested in maintaining traditional Cistercian patterns of thought Nonetheless by offering to women a collection of narratives that explore the oral qualities of texts the nature of sight and the efficacy of sacraments Engelhard

articulated a distinctive response to the social and intellectual changes of his period In analyzing Engelhard s stories Newman uncovers an understudied monastic culture that resisted the growing emphasis on the priestly administration of the sacraments and the hardening of gender distinctions Engelhard assumed that monks and nuns shared similar interests and concerns and he addressed his audiences as if they occupied a space neither fully sacerdotal nor completely lay neither scholastic nor unlearned and neither solely male nor only female His exemplary narratives depict the sacramental value of everyday objects and behaviors whose efficacy relied more on individual spiritual formation than on sacerdotal action By encouraging nuns and monks to imagine connections between heaven and earth Engelhard taught faith as a learned disposition Newman s study demonstrates that scholastic questions about signs sacraments and sight emerged in a narrative form within late twelfth century monastic communities **Anselm of Canterbury and the Desire for the Word** Eileen C. Sweeney,2012-04 Sweeney discusses the tensions of prayerful meditations and argumentative essays in Anselm s writings in a cumulative and comparative interpretation How Marriage Became One of the Sacraments Philip L. Reynolds,2016-06-30 An indispensable guide to how marriage acquired the status of a sacrament This book analyzes in detail how medieval theologians explained the place of matrimony in the church and her law and how the bitter debates of the sixteenth century elevated the doctrine to a dogma of the Catholic faith *When Ego Was Imago* Brigitte Bedos-Rezak,2010-11-26 The diffusion of personal signs of identity during the twelfth century introduced individuals to mediated forms of communication The book analyses the conditions for and the implications of their partnering with material signs and images in expressing self and accountability **Medieval Philosophy of Religion** Graham Oppy,N. N. Trakakis,2014-10-20 The Medieval period was one of the richest eras for the philosophical study of religion Covering the period from the 6th to the 16th century reaching into the Renaissance The History of Western Philosophy of Religion 2 shows how Christian Islamic and Jewish thinkers explicated and defended their religious faith in light of the philosophical traditions they inherited from the ancient Greeks and Romans The enterprise of faith seeking understanding as it was dubbed by the medievals themselves emerges as a vibrant encounter between and a complex synthesis of the Platonic Aristotelian and Hellenistic traditions of antiquity on the one hand and the scholastic and monastic religious schools of the medieval West on the other Medieval Philosophy of Religion will be of interest to scholars and students of Philosophy Medieval Studies the History of Ideas and Religion while remaining accessible to any interested in the rich cultural heritage of medieval religious thought Friendship and Faith: Cistercian Men, Women, and Their Stories, 1100-1250 Brian Patrick McGuire,2024-10-28 In these articles Professor McGuire explores the riches of the Cistercian exemplum tradition These texts are made up of brief stories often with a miraculous content which provided moral support for novices and monks in Cistercian abbeys all over Europe in the High Middle Ages The Cistercians have been seen mainly in terms of their great writers like Bernard of Clairvaux and the impressive buildings they left behind But Cistercian literature also provides us with more humble insights

from daily life shedding light on questions of sexuality anger depression and bonds of friendship also between monks and nuns They bring a freshness of insight and immediate experience and their seeming naivety lets us be aware of monks commitment to each other in individual and community bonds In Cistercian storytelling the Gospel s message meets an historical context and bears witness to a transformation of Christian life and idealism while at the same time allowing us precious insights into how ordinary men and women not just monks and nuns lived and thought

Mediaeval and Renaissance Logic Dov M. Gabbay, John Woods, 2008-03-14 Starting at the very beginning with Aristotle s founding contributions logic has been graced by several periods in which the subject has flourished attaining standards of rigour and conceptual sophistication underpinning a large and deserved reputation as a leading expression of human intellectual effort It is widely recognized that the period from the mid 19th century until the three quarter mark of the century just past marked one of these golden ages a period of explosive creativity and transforming insights It has been said that ignorance of our history is a kind of amnesia concerning which it is wise to note that amnesia is an illness It would be a matter for regret if we lost contact with another of logic s golden ages one that greatly exceeds in reach that enjoyed by mathematical symbolic logic This is the period between the 11th and 16th centuries loosely conceived of as the Middle Ages The logic of this period does not have the expressive virtues afforded by the symbolic resources of uninterpreted calculi but mediaeval logic rivals in range originality and intellectual robustness a good deal of the modern record The range of logic in this period is striking extending from investigation of quantifiers and logic consequence to inquiries into logical truth from theories of reference to accounts of identity from work on the modalities to the stirrings of the logic of relations from theories of meaning to analyses of the paradoxes and more While the scope of mediaeval logic is impressive of greater importance is that nearly all of it can be read by the modern logician with at least some prospect of profit The last thing that mediaeval logic is is a museum piece Mediaeval and Renaissance Logic is an indispensable research tool for anyone interested in the development of logic including researchers graduate and senior undergraduate students in logic history of logic mathematics history of mathematics computer science and AI linguistics cognitive science argumentation theory philosophy and the history of ideas Provides detailed and comprehensive chapters covering the entire range of modal logic Contains the latest scholarly discoveries and interpretative insights that answer many questions in the field of logic

The Oxford Handbook of the Trinity Gilles Emery, Matthew Levering, 2011-10-27 This Handbook surveys the complex history of Trinitarian theology and reveals the Nicene unity still at work among Christians today despite ecumenical differences Forty five contributors examine doctrinal developments and variations from biblical times to the present day

Kulturen des Lehrens im Früh- und Hochmittelalter Sita Steckel, 2011 Die Gelehrtenkultur des lateinischen Westens vor der Entstehung der Universit ten erscheint in neuem Licht wenn man sie nicht nur als Vorgeschichte sp terer Wissenschaftskulturen versteht Die Lehrer des fr hen und hohen Mittelalters vermittelten nicht nur Wissen sondern religi se Lehre Im vorliegenden Band werden Gelehrte

daher nicht in Schulen sondern in kirchlichen Netzwerken verortet. Ausdrücklich geht die Autorin den Strategien nach mit denen Lehrer zwischen 800 und 1150 sakralisierte Autorität beanspruchten. In einem kontrastierenden Vergleich der kirchlich geprägten Wissensvermittlung des karolingischen Imperiums mit den deutschen und französischen Schullandschaften des Hochmittelalters werden insbesondere neue Zugänge zur Differenzierung europäischer Wissenskulturen um 1100 gesucht.

Dictionary of Theologians Jonathan Hill, 2010-03-25. An exhaustive guide to every significant Christian theologian who lived from the first century to 1308, the year in which John Duns Scotus died. The dictionary encompasses the Catholic, Orthodox, Nestorian and Monophysite traditions, including information not previously available in English. Thoroughly indexed, the dictionary incorporates common variants of names and concepts which will help and direct the reader. The main criterion for inclusion has been contribution to the development of Christian theology. Sub-criteria by which that is measured include above all originality and influence on later figures. With over 290 entries, the dictionary provides a handy summary of theologians' lives and writings together with recent scholarship as well as an up-to-date definitive bibliography listing primary texts, translations and secondary literature in the major western European languages. Useful for all levels of academia, no other text matches the depth of the dictionary's bibliographies. The unprecedented thoroughness of Hill's compilation provides an essential resource for studies at all levels on such a large and varied range of Church thinkers.

Heresy, Philosophy and Religion in the Medieval West Gordon Leff, 2024-10-28. The papers in this volume fall into four sections. The first part deals more generally with heresy, religious movements and the Church, while the second focuses on Wyclif, covering his path to dissent, his religious doctrines and a doctrinal comparison with Hus. Philosophical themes come to the fore in the third section, which has papers on the decline of scholasticism in the 14th century and on the trivium, and also includes hitherto unpublished essays on the theology of Augustine's two cities and on Ockham and nominalism. The final part, with another two papers published here for the first time, discusses Christian Augustinian and Franciscan concepts of man and the concepts of natural rights according to Ockham and the Franciscans. Trinitarian Theology in the Medieval West Pekka Kärkkäinen, 2007.
