Comparative study on the philosophy of Martin Heidegger 1889 1977 and Friedrich Wilhelm Nietzsche 1844 1900 German philosophers **God's Being Towards Fellowship** Justin Stratis,2019-05-30 Justin Stratis explores the meaning of the biblical phrase God is love through an examination of two quintessentially modern Protestant theologians Friedrich Schleiermacher and Karl Barth This book contains both a detailed engagement with Schleiermacher s untranslated lectures on Dialektik and their relation to his more well known work as well as a new assessment of Barth s doctrine of God which both respects his radical innovations and yet places him within the stream of traditional catholic trinitarianism After considering the complexities of theological predication and comparing several classical and contemporary approaches to the implication of love Stratis presents and ultimately commends the distinct approaches of Schleiermacher and Barth for their tendency to treat divine love as a conclusion to the doctrine of God rather than as a conceptual starting point In contrast to many contemporary approaches Stratis concludes with the suggestion that God s love is best conceived as his being toward fellowship rather than as the eminent instance of loving fellowship understood according to human experiences of love
