The Order of Public Reason Gerald Gaus, 2010-12-13 In this innovative and important work Gerald Gaus advances a revised and more realistic account of public reason liberalism showing how in the midst of fundamental disagreement about values and moral beliefs we can achieve a moral and political order that treats all as free and equal moral persons The first part of this work analyzes social morality as a system of authoritative moral rules Drawing on an earlier generation of moral philosophers such as Kurt Baier and Peter Strawson as well as current work in the social sciences Gaus argues that our social morality is an evolved social fact which is the necessary foundation of a mutually beneficial social order The second part considers how this system of social moral authority can be justified to all moral persons Drawing on the tools of game theory social choice theory experimental psychology and evolutionary theory Gaus shows how a free society can secure a moral equilibrium that is endorsed by all and how a just state respects and develops such an equilibrium

Kant's Impact on Moral Philosophy Paul Guyer, 2024 This book examines Immanuel Kant's impact on moral philosophy from his time to our own Kant's moral philosophy can seem complicated but at the most basic level it is driven by the simple idea that the greatest possible freedom for each combined with an equal degree of freedom for all is the

fundamental principle of philosophy The Moral Skeptic Anita M. Superson, 2009-03-13 Anita Superson challenges the traditional picture of the skeptic who asks Why be moral While holding that the skeptic's position is important she builds an argument against it by understanding it more deeply and then shows what it would take to successfully defeat it Superson argues that we must defeat not only the action skeptic but the disposition skeptic who denies that being morally disposed is rationally required and the motive skeptic who believes that merely going through the motions in acting morally is rationally permissible We also have to address the amoralist who is not moved by moral reasons he recognizes Superson argues for expanding the skeptic's position from self interest to privilege to include morally unjustified behavior targeting disenfranchised social groups as well as revising the traditional expected utility model to exclude desires deformed by patriarchy as irrational Lastly she argues that the challenge can be answered if it can be shown that it is in an important way inconsistent and therefore irrational to privilege oneself over others The Moral Skeptic makes an important contribution to both metaethics moral theory and feminist philosophy and brings feminist thinking into the larger discussion of the skeptical challenge **Dialogue, Politics and Gender** Jude Browne, 2013-05-23 Dialogue is promoted by its supporters as a pluralising force capable of accommodating the moral disagreement inevitable in every sphere of human society but this promise is widely and vehemently challenged How are we to determine the principles upon which the dialogical exchange should take place How should we think of ourselves as interlocutors Should we associate dialogue with the desire for consensus How should we determine decision making What are the gender dynamics of dialogical politics and how much do they matter This book brings together internationally recognised expert authors from the fields of political and social theory political philosophy and international relations to consider these controversial questions anew from a range of theoretical positions The differences of opinions and clashes of views make for a fascinating and highly informative read **Reason, Ethics, and Society** Jerome B. Schneewind, 1996 Since 1948 Kurt Baier has been producing some of our century's most stimulating seminal and meticulous work in ethics His quest for a rational justification of morality has centered on the human predicament that although most of us want to live in association with others we always find ourselves coming into conflict with one another These challenging and ground breaking essays together with Kurt Baier's careful and illuminating responses constitute contemporary moral theory at its very best James P Sterba University of Notre Dame The Authority of Reason Jean E. Hampton, 1998-02-28 This challenging and provocative book argues against much contemporary orthodoxy in philosophy and the social sciences by showing why objectivity in the domain of ethics is really no different from the objectivity of scientific knowledge Many philosophers and social scientists have challenged the idea that we act for objectively authoritative reasons Jean Hampton takes up the challenge by undermining two central assumptions of this contemporary orthodoxy that one can understand instrumental reasons without appeal to objective authority and that the adoption of the scientific world view requires no such appeal In the course of the book Jean Hampton examines moral realism

the general nature of reason and norms internalism and externalism instrumental reasoning and the expected utility model of practical reasoning The book is sure to prove to be a seminal work in the theory of rationality that will be read by a broad swathe of philosophers and social scientists *Doing Things for Reasons* Rudiger Bittner,2001-07-19 What exactly are the reasons we do things and how are they related to the resulting actions Bittner explores this question and proposes an answer a reason is a response to that state of affairs Elegantly written this work is a substantial contribution to the fields of rationality ethics and action theory Philosophical Reflections on Mothering in Trauma Melissa Burchard,2018-07-20 Philosophical Reflections on Mothering in Trauma examines the lived experience of mothering children who have been seriously harmed by others Using an interdisciplinary approach that employs a feminist phenomenology and an emphasis on narrative theory this ground breaking work gives voice to experiences of trauma and of mothering not ordinarily heard in philosophical discourses With a philosophical lens Melissa Burchard examines the challenges faced by families during the adoption and parenting of abused children In doing so Burchard argues that the investigation of traumatic experience poses questions that philosophers must address if we are to improve collective understanding of the human condition These questions centre around the epistemological implications of traumatic experience the role of power and privilege in abusive relationships and the interconnected issues of morality and moral agency in trauma problematic desires engendered in traumatic circumstances and therapeutic responses to trauma The book expresses ways in which mothering wounded children can if we are deeply engaged and reflective shift our understandings of what it means to be parents to be children to love to know to construct a self to feel desire to nurture to coerce and to live in the ambiguity of not knowing which decisions are right and which are wrong **Essays on the History of Moral Philosophy** J. B. Schneewind,2010 J B Schneewind presents a selection of his published essays on ethics the history of ethics and moral psychology together with a new piece offering an intellectual autobiography The essays range across the 17th 18th and 19th centuries with a particular focus on Kant and his relation to earlier thinkers Free Will: Free agency, moral responsibility, and skepticism John Martin Fischer,2005 **Perfectionism and Neutrality** George Klosko,Steven Wall,2004-09-01 Over the past twenty years the debate between neutrality and perfectionism has been at the center of political philosophy Now Perfectionism and Neutrality Essays in Liberal Theory brings together classic papers and new ideas on both sides of the discussion Editors George Klosko and Steven Wall provide a substantive introduction to the history and theories of perfectionism and neutrality expertly contextualizing the essays and making the collection accessible to everyone interested in the interaction between morals and the state **Moral Philosophy Through the Ages** James Fieser,2000 Takes a middle ground between the topical and historical approaches to Western ethics This book explains the historical development of the topic under consideration and most chapters focus on a specific famous philosopher who championed a particular tradition such as Aristotle Locke or Kant and the chapters are chronologically ordered The Happiness Philosophers Bart Schultz,2017-04-24 A colorful history of

utilitarianism told through the lives and ideas of Jeremy Bentham John Stuart Mill and its other founders In *The Happiness Philosophers* Bart Schultz tells the colorful story of the lives and legacies of the founders of utilitarianism one of the most influential yet misunderstood and maligned philosophies of the past two centuries Best known for arguing that it is the greatest happiness of the greatest number that is the measure of right and wrong utilitarianism was developed by the radical philosophers critics and social reformers William Godwin the husband of Mary Wollstonecraft and father of Mary Shelley Jeremy Bentham John Stuart and Harriet Taylor Mill and Henry Sidgwick Together they had a profound influence on nineteenth century reforms in areas ranging from law politics and economics to morals education and women s rights Their work transformed life in ways we take for granted today Bentham even advocated the decriminalization of same sex acts decades before the cause was taken up by other activists As Bertrand Russell wrote about Bentham in the late 1920s There can be no doubt that nine tenths of the people living in England in the latter part of last century were happier than they would have been if he had never lived Yet in part because of its misleading name and the caricatures popularized by figures as varied as Dickens Marx and Foucault utilitarianism is sometimes still dismissed as cold calculating inhuman and simplistic By revealing the fascinating human sides of the remarkable pioneers of utilitarianism *The Happiness Philosophers* provides a richer understanding and appreciation of their philosophical and political perspectives one that also helps explain why utilitarianism is experiencing a renaissance today and is again being used to tackle some of the world s most serious problems

Dignity, Justice, and the Nazi Data Debate Carol V. A. Quinn, 2018-03-01 In this work Carol V A Quinn reconstructs the survivors arguments in the debate concerning the ethics of using Nazi medical data showing what it would mean to take their claims seriously She begins with a historical case and presents arguments that help make sense of the following claims 1 Using the data harms the survivors by violating their dignity 2 The survivors are the living data and so when we use the data we use them 3 The data is really not merely symbolically evil and we become morally tainted when we engage it and 4 The survivors are the real moral experts in this debate and so we should take seriously what they say Quinn s approach is interdisciplinary incorporating philosophy psychology trauma research survivors testimony Holocaust poetry literature and the Hebrew Bible

Making Moral Sense Logi Gunnarsson, 2000-09-18 Is it rational to be moral Can moral disputes be settled rationally Which criteria determine what we have a good reason to do In this innovative book Logi Gunnarsson takes issue with the assumption made by many philosophers faced with the problem of reconciling moral norms with a scientific world view namely that morality must be offered a non moral justification based on a formal concept of rationality He argues that the criteria for the rationality of an action are irreducibly substantive rather than purely formal and that assuming that morality must be given a non moral justification amounts to a distortion of both rationality and morality His discussion includes substantial critical engagement with major thinkers from two very different philosophical traditions and is notable for its clear and succinct account of Habermas discourse ethics It will appeal to anyone interested in

practical reason and the rational credentials of morality
