Reasons And Persons:

Reasons and Persons Derek Parfit, 1987 Part 1 discusses ways in which theories about morality and rationality can be self defeating and Part 2 the relations between what a single person can rationally want or do at different times and what different people can rationally want or do Parts 3 4 tackle personal identity and our obligations to future generations

Reasons and Persons Derek Parfit, 1986-01-23 This book challenges with several powerful arguments some of our deepest beliefs about rationality morality and personal identity The author claims that we have a false view of our own nature that it is often rational to act against our own best interests that most of us have moral views that are directly self defeating and that when we consider future generations the conclusions will often be disturbing He concludes that moral non religious moral philosophy is a young subject with a promising but unpredictable future
