intelligible and if so what is the nature of this intelligibility The purpose of this book is to harness the complex and rich theory of colonialism which French philosopher political activist and novelist Jean Paul Sartre developed and struggled over to venture a qualified and partial interpretation of the Irish Catholic experience of Scotland Nevertheless in so doing the book takes seriously the charge of metrocentricism as it bears on the search for the meaning of the Irish Catholic adventure in Scotland and refuses to permit any simplistic interpretation of this adventure Presenting findings from a new oral history archive consisting of 67 interviews with members of the Irish Catholic community in Scotland attention is given to the themes of national identity estrangement and belonging diasporic imaginings of Ireland anti imperial activism agitation and advocacy culture faith and family and poverty work education and equality
