Revolutions Donald Sassoon, 2025-11-18 A rich and long history of revolutions the English Civil War the American War of Independence the French Russian and Chinese revolutions and their lasting transformations *Revolutions* is a sparkling account of political upheaval and the power of history We think of revolutions in terms of fleeting events such as the Fall of the Bastille or the Storming of the Winter Palace In reality they take decades to burn out if they ever do One of our great historians Donald Sassoon takes the long view of some of the most celebrated upheavals the English Civil War which killed a king the American War of Independence which ejected the British but allowed slavery to persist the French Revolution which produced the Rights of Man and years of instability the national revolutions that unified Italy and Germany and the Russian and Chinese revolutions which transformed the twentieth century *Revolutions* adroitly compares these historical juggernauts to the many rebellions coups and tumults that time forgot It is a history rich in irony and surprises Yankee Doodle Dandy was first sung by English troopers to make fun of dishevelled American colonials The Long March of retreating Chinese Communists assumed a mythical dimension on a par with Washington crossing the Delaware As Sassoon shows in this tour de force account revolutions usually catch revolutionaries themselves by surprise and the consequences are difficult to fathom *Revolutions* will change how you think about the transformative moments in history both big and small Unique and encyclopaedic a monument to streetwise and cosmopolitan scholarship Guardian for The Culture of the Europeans Sometimes playful sometimes caustic but always to the point The doyen of comparative historians Ferdinand Mount Times Literary Supplement for The Anxious Triumph

Historical Dictionary of the Chinese Civil War Edwin Pak-wah Leung, 2002-10-16 The Chinese Civil War has been regarded by many as an important subject in the study of modern Chinese history as this protracted struggle ultimately led to the Communist victory on the Mainland and the Nationalist government's retreat to the island of Taiwan in 1949 Considered an extremely important turning point in modern Chinese history the Civil War is also of great international significance This resource the first of its kind written in English details the microscopic and macroscopic views of the Chinese Civil War people events places and institutions

Institutions in Transition Peter Ho, 2005-07-21 China's urban sprawl has led to serious social cleavages Unclear land and property rights have resulted in an uneasy alliance between real estate companies and local authorities with most willing to strike illegal deals over land The results have been devastating Farmers live in fear that the land they till today will be gone tomorrow while urban citizens are regularly evicted from their homes to make way for new skyscrapers and highways These shocking incidents underscore the urgency of the land question in China The recent conviction of the Chinese Minister for Land Resources and the forced evictions that have led to the injury and death of ordinary Chinese citizens highlight the case for land reform Against this backdrop many scholars criticize China's lack of privatization and titling of property This monograph however demonstrates that these critically depend on timing and place Land titling is imperative for the wealthier regions yet may prove detrimental in areas with high poverty The book argues that China's land reform can only succeed if the clarification of property rights is done with caution and ample regard for regional variations

Mao's China And Post-mao China: Revolution, Recovery And Rejuvenation Robert Weatherley, 2022-09-06 If the history of modern China was written as a book its author would be accused of losing touch with reality During the twentieth century China underwent two revolutions a number of wars endured a radical and destabilising form of communism and then hurried quickly towards a system of open market economics whilst remaining under the control of a nominally communist party Currently the fastest growing economy in the world with an increasingly sophisticated and expanding military China is widely expected to emerge as the world's next superpower eclipsing the United States in the not too distant future However not everything is going smoothly for Beijing Unemployment rates are spiralling inequality is rife and official corruption at all levels remains an Achilles heel for the Chinese Communist

Party despite Xi Jinping's best endeavours to wipe it out Worst of all environmental degradation is at such a serious level that it threatens the success of the Chinese economy and the stability of Chinese society Against this scarcely believable backdrop and based on a series of lectures seminars and research conducted by the author Mao's China and Post Mao China captures the dynamics dynamism and disasters of Chinese politics since the establishment of the People's Republic of China in 1949 This advanced textbook identifies three key themes that have underpinned the post revolutionary era the so called three Rs Revolution Recovery and Rejuvenation and is essential reading for anyone interested in the politics of modern China at the undergraduate and postgraduate level **Mao** S.G. Breslin, 2014-06-17 A lucid analysis of Mao as revolutionary general ideologist and astute political manipulator this introduction to the life and career of Mao Zedong provides an excellent introduction to modern Chinese history and its enigmatic protagonist The Politics of Controlling Organized Crime in Greater China Sonny Shiu-Hing Lo, 2015-12-14 In China the central government has the political will to control organized crime which is seen as a national security threat The crux of the problem is how to control local governments that have demonstrated lax enforcement without sufficient regulation from the provincial governments The development of prostitution underground gambling and narcotics production has become so serious that the central government has to rely on anti crime campaigns to combat these three evils This book explores the specific role of government institutions and agencies notably the police in controlling organised and cross border crime in Greater China Drawing heavily on original empirical data it compares the both the states of the People's Republic of China and Taiwan as well as city states Hong Kong and Macao This region has become increasingly economically integrated and human interactions have been enhanced through improved trade relations tourism and increased individual freedom The book argues that the regime capacity of crime control across Greater China has been expanded through regional and international police cooperation as well as anti crime campaigns It suggests that a strong central state in China is necessary to rein in the local states and to prevent the risk of deteriorating into a political criminal nexus Focusing on regime capacity in crime control regime autonomy from crime groups and regime legitimacy in the fight against organized crime this thought provoking book will be of great interest to students and scholars of Chinese politics and criminology more broadly **Insurgency and Social Disorder in Guizhou** Robert Darrah Jenks, 1994-01-01 Textbooks and general histories of modern China agree that the so called Miao rebellion constituted one of the major rebellions of the nineteenth century It lasted for twenty years caused devastation of such severity that its effects were still obvious to travelers in Guizhou province decades later and by one account resulted in the deaths of more than four million people In an impressive presentation of material drawn from local histories private writings and official documents Jenks argues that the Qing government sought to lay the blame for the turmoil squarely on an ethnic minority it regarded as obstreperous and inferior As well as altering perceptions of the rebellion Insurgency and Social Disorder in Guizhou enhances our understanding of the causes of the rebellion and its place in the crises that beset mid nineteenth century China

It contributes to the sociology of rebellion and peasant movements and is a valuable supplement to current anthropological work on Chinese minorities Its treatment of Qing attitudes toward the Miao has implications for minority policies in the Peoples Republic of China today

Party Vs. State in Post-1949 China Shiping Zheng,1997-07-13 This book provides the most comprehensive analysis of one of the most important issues in China today the tensions between the Chinese Communist Party and the Chinese state legislative judicial administrative and military institutions Taking the neo institutionalist approach the author

suggests that the Communist Party in post 1949 China faces an institutional dilemma the Party cannot live with the state and it cannot live without the state Zheng demonstrates that it is not only conceptually constructive but analytically imperative to distinguish the state from the Communist Party Secondly he integrates detailed study with broader generalizations about Chinese politics thus making efforts to overcome the tendency toward specialized scholarship at the expense of comparative and systemic understanding of China He also opens a new dimension of Chinese politics the uncertain and conflictual relationship between the Communist Party and the Chinese state
