Resistance and Rebellion Roger D. Petersen, 2001-05-07 Resistance and Rebellion Lessons from Eastern Europe explains how ordinary people become involved in resistance and rebellion against powerful regimes The book shows how a sequence of casual forces social norms focal points rational calculation operate to drive individuals into roles of passive resistance and at a second stage into participation in community based rebellion organization By linking the operation of these mechanisms to observable social structures the work generates predictions about which types of community and society are most likely to form and sustain resistance and rebellion The empirical material centres around Lithuanian anti Soviet resistance in both the 1940s and the 1987 91 period Using the Lithuanian experience as a baseline comparisons with several other Eastern European countries demonstrate the breadth and depth of the theory The book contributes to both the general literature on political violence and protest as well as the theoretical literature on collective action

History and Memory in Modern Ireland Ian McBride, 2001-11-08 Discussing the relationship between the past and the present in Irish society this 2001 title outlines the ways in which Irish identities have been shaped by oral tradition icons and images rituals and re enactments It examines pivotal moments in Irish history such as the 1798 rebellion the Famine the Great War and the Northern Ireland troubles investigating the ways in which they have been recalled commemorated and mythologised Beginning with the conviction that commemoration has its own history the essays address questions concerning the workings of communal memory How have particular political and social groups interpreted appropriated and distorted the past for their own purposes How are collective memories transmitted from one generation to the next Why does collective amnesia work in some situations and not in others What is the relationship between academic history and popular memory
