The Cambridge History of Sixteenth-Century Music Iain Fenlon, Richard Wistreich, 2019-01-24 Part of the seminal Cambridge History of Music series this volume departs from standard histories of early modern Western music in two important ways First it considers music as something primarily experienced by people in their daily lives whether as musicians or listeners and as something that happened in particular locations and different intellectual and ideological contexts rather than as a story of genres individual counties and composers and their works Second by constraining discussion within the limits of a 100 year timespan the music culture of the sixteenth century is freed from its conventional and tenuous absorption within the abstraction of the Renaissance and is understood in terms of recent developments in the broader narrative of this turbulent period of European history Both an original take on a well known period in early music and a key work of reference for scholars this volume makes an important contribution to the history of music

Metropolis and Experience Hye-Joon Yoon, 2011-10-18 Metropolis and Experience Defoe Dickens Joyce offers a close reading of the major texts of Defoe Dickens and Joyce in their respective historical contexts and in comparison with their intertextual companions from seventeenth century character pamphlets through Baudelaire to Calvino In doing so it challenges the quietist complacency of specialization prevalent in current academia to contribute to a critique of urban modernity in the tradition of Simmel Benjamin and Lefebvre Taking its cue from Benjamin's bisection of experience into subjective sensory Erleben and communal reflective Erfahrung Metropolis and Experience uses this binary pair as a categorical guide in its analysis of the stylistic and thematic adventures of the three centerpiece authors

Whereas Defoe's novels embody a Simmelian metropolitan mentality through its narration of lived experience in paratactic prose Dickens strives to humanize the sprawling Victorian metropolis into an experience for communal sharing In Joyce's works the colonial dejections and belatedness of the Hibernian metropolis are transformed into an exuberant excess where both Erlebnis and Erfahrung meet their joyous end This investigation of the interconnections between the metropolis experience and the novel takes place in tandem with a sustained query on non literary subtopics such as finance capitalism and urban class antagonism This is literary criticism charged with relevance for the age of Occupy Wall Street
