Saving Central Park Elizabeth Barlow Rogers, 2018-05-15 The story of how one woman's long love affair with New York's Central Park led her to organize its rescue from a state of serious decline returning it to the beautiful place of recreational opportunity and spiritual sustenance that it is today Elizabeth Barlow Rogers opens with a quick survey of her early life a middle class upbringing in Texas college at Wellesley marriage a master's degree in city planning at Yale And then her move to New York where she starts a family and when she finds being a mother and a housewife is not enough pours herself into the protection and enhancement of the city's green spaces Interwoven into her own story is a comprehensive history of Central Park its design and construction as a scenic masterpiece the alterations of each succeeding era the addition of numerous facilities for sports and play and finally the anything goes phase of the 1960s and 70s which was often fun but nearly destroyed the park The two narratives continue to entwine as she finds a job in the administration of Central Park founds the Central Park Conservancy and transforms both the park and herself a transformation that has led to the writing of her many books to travels that have taken her to parks and gardens around the world and to solidifying the prestige of one of New York's most conspicuous landmarks

The Park and the People Roy Rosenzweig, Elizabeth Blackmar, 1992 Delineate the politicians business people artists immigrant laborers and city dwellers who are the key players in the tale In tracing the park's history the writers also give us the history of New York They explain how squabbles over politics taxes and real estate development shaped the park and describe the acrimonious debates over what a public park should look like what facilities it should offer and how it should accommodate the often incompatible
