Recasting The World:

Recasting the World Jonathan White, 1993 In *Recasting the World* Jonathan White brings together a distinguished group of contributors to examine aspects of postcolonial literatures in English from around the world **Recasting American and Persian Literatures** Amirhossein Vafa, 2016-12-09 Reading literary and cinematic events between and beyond American and Persian literatures this book questions the dominant geography of the East West divide which charts the global circulation of texts as World Literature Beyond the limits of national literary historiography and neocolonial cartography of world literary discourse the minor character Parsee Fedallah in Herman Melville's *Moby Dick* 1851 is a messenger who travels from the margins of the American literature canon to his Persian literary counterparts in contemporary Iranian fiction and film above all the rural woman Mergan in Mahmoud Dowlatabadi's novel *Missing Soluch* 1980 In contention with Eurocentric treatments of world literatures and in recognition of efforts to recast the worldliness of American and Persian literatures this book maintains that aesthetic properties are embedded in their local histories and formative geographies

A World Recast Simon Serfaty, 2012-10-12 The end of the unipolar moment completes the passing of a Western era that was prolonged for half a century when the United States took over for a defeated and exhausted group of European states after World War II Distinguished scholar Simon Serfaty vigorously argues that while it is possible and even desirable to acknowledge the passing of the Western era it is exaggerated to present it as an irreversible decline of the West relative to an irresistible rise of the Rest Rather he shows that the unfolding post Western moment will be messy In addition to the United States and the states of Europe as a Union the new cast of significant powers will involve a dozen or more countries emerging powers like China and India postimperial powers such as Japan and Russia new influentials like Brazil and Turkey pivot states like Egypt and Pakistan nuisance states like Iran failed or failing states like North Korea and Sudan and others Echoes of a Sarajevo moment played out this time in the greater Middle East the new global Balkans for the twenty first century But Serfaty convincingly contends that even during a zero polar moment of geopolitical transition American power remains superior and thus indispensable though no longer decisive Western power stands on top and thus is inescapable though no longer exclusive and even as the Rest gains broadly in stature and reach it is unlikely to achieve preponderance any time soon This powerful and provocative book should be read by all who share a deep concern for the future of America and a recast world **Civilizing Globalization** Richard Sandbrook, 2003-01-09 Discusses the many facets of globalization in easy to understand language **We Can Take It!** Mark Connelly, 2014-07-10 *We Can Take It* shows that the British remember the war in a peculiar way thanks to a mix of particular images and evidence Our memory has been shaped by material which is completely removed from historical reality These images including complete inventions have combined to make a new history The vision is mostly cosy and suits the way in which the Britons conceive of themselves dogged good humoured occasionally bumbling unified and enjoying diversity In fact Britons load their memory towards the early part of

the war Dunkirk Blitz Battle of Britain rather than when we were successful in the air or against Italy and Germany with invasions This suits our love of being the underdog fighting against the odds and being in a crisis Conversely the periods of the war during which Britain was in the ascendant are perversely far more hazy in the public memory **Post-mediaeval sermons recast, from the conciones of M. Faber and J. de Barzia, by W.R. Villiers** Matthias Faber, 1888 **Recast All Under Heaven** Xiaoyuan Liu, 2010-08-12 Xiaoyuan Liu has provided a most compelling study of frontier in the shaping of modern China's territorial identity Ethnopolitics usually confined to the domestic sphere must now be recast and brought to the forefront of any attempt to understand China's international relations and vice versa Uradyn E Bulag University of Cambridge UK In this collection of well argued essays Professor Xiaoyuan Liu offers an extremely valuable perspective on the evolution of China's geo body in the nineteenth and twentieth centuries that is its evolution from an empire to a modern nation state This complex process involved a constant effort to reconcile the unifying impulses of the central government with the vibrant ethnic particularism that existed within China's constantly shifting borders Richard J Smith George and Nancy Rupp Professor of Humanities and Professor of History Rice University USA In this illuminating set of essays Liu Xiaoyuan the master of China's frontier history and ethnopolitics ranges widely across the boundaries of space and time to examine how modern China came into being By emphasizing the seemingly paradoxical centrality of the periphery in the consolidation and legitimation of Chinese political authority Liu explains Beijing's concern about trouble on its Inner Asian frontiers and expands our understanding of China's modern history Steven I Levine Senior Research Associate Maureen and Mike Mansfield Center University of Montana USA In applying the two interpretative themes of frontier and ethnicity *Recast All Under Heaven* examines the externalization from and internalization to China by a number of the tributary affiliates and outlying territories of the by gone Qing Empire This unique book blends analyses of domestic and international developments involved in China's modern reincarnation and provides an integral narrative that links historical themes pertinent to the eastern and western halves of China This is the first study contending that frontier China has remained a fitting characterization of the rising Asian giant *Grendel Recast in John Gardner's Novel and Beowulf* Sandra Hiortdahl, 2022-07-12 This book brings John Gardner's bestselling *Grendel* to life in the most comprehensive study of the novel to date Using as a guide Gardner's discussions on art his extensive scholarship on Anglo Saxon poetry and his love of stories this chapter by chapter analysis shows *Grendel* to be much more than an ironic twist on *Beowulf* It reveals three distinct fights that mirror the poem which solves mysteries that have stymied readers for decades Anyone studying or teaching the novel will find useful analyses of *Beowulf* a discussion of the novel within Gardner's views on morality and art and an assessment of *Grendel* as a modern tragic hero and anti hero The monster wants to be human with every ounce of his being even at his death This issue of identity particularly for those who are outcast from society culture and community finds resonance in nearly all of Gardner's works It does so in *Grendel* as well and importantly so as this work reveals **Recast**
