Research Group on the Comparative
Charting of Social Change in Advanced
Industrial Societies**

Recent Social Trends In Canada 1960 :

Recent Social Trends in Canada, 1960-2000 Lance W. Roberts, 2005 Canadian society has changed dramatically since 1960 This work captures the scope and range of these changes through a systematic documentation of seventy eight social trends The introduction summarizes and locates the major waves of change The authors then document each trend in relation to eighteen thematic groups that include age community women labour management stratification social relations the state mobilizing institutions social forces ideologies households lifestyle leisure education integration and attitudes and values In contrast to many recent works and journalistic reports *Recent Social Trends in Canada* concentrates on the trajectory of change rather than on current events It provides a longitudinal context in which unfolding events can be interpreted in a broader historical and international context Comparable volumes in the McGill Queen s Comparative Charting of Social Change series describe similar tendencies in the United States Quebec France Germany Italy Greece Russia and Bulgaria making it possible to situate the Canadian experience in a global context

Recent Social Trends in Quebec, 1960-1990 Simon Langlois, Baillargeon, 1992-02-05 Readers will follow an intense period of social change in Quebec during which there was a remarkable increase in the level of modernization They will note a massive entry of women into the labour force and a growing service sector that now constitutes seventy percent of all economic activity They will observe also that the Qu b cois have dramatically increased their television viewing and that while they express a generally high level of satisfaction with life the Qu b cois must contend with escalating crime and suicide rates

Multicultural Variations Lance W. Roberts, Barry Ferguson, Mathias Bös, 2013-02-01 Contrary to mid twentieth century predictions ethnic pluralism has increased dramatically in North America and significantly in Europe Neither the post 9 11 emphasis on international border security nor anti immigration and anti multiculturalism movements have affected the fifty year trend of increasing labour mobility and sustained levels of migration The ethnic pluralism accompanying this powerful trend has fueled academic research and public debate Contributors report on and develop a conceptualization of ethnic social incorporation and multiculturalism in Canada the United States Germany Greece Bulgaria and Italy This group of countries displays a remarkable variety of both ethnic diversity and public policy responses to ethnic social incorporation over the past four decades It includes two countries Canada and the United States built upon very large scale immigration over the course of more than a century two countries Greece and Italy which until recently were characterized by large scale emigration but now are grappling with immigration one country Bulgaria that was until the 1990s insulated from extensive migration and faces a demographic slump and one Germany that has experimented with isolating temporary populations but is now addressing the responsibilities of permanent immigration *Multicultural Variations* includes national reports describing each of the six countries under investigation and is book ended by introductory and concluding chapters that present a new understanding of and synthesis on multiculturalism that is distinct from either enthusiastic support or ideological critiques

Leviathan Transformed Theodore Caplow, 2002-01-16 The authors using these goals as a checklist found that each of the seven states performs well in some areas and badly in others They discovered that all states approached these goals in a style shaped by their own history and in particular by how they have been affected by the troubles of the twentieth century Their investigations offer a new informative way of looking at these nation states and detail the social and political conditions in each state Contributors include Theodore Caplow Salustiano Del Campo Royal Academy of Political and Social Science Madrid Nikolai Genov Bulgaria Academy of Sciences Karl Otto Hondrich Goethe University Simon Langlois Universit de Laval Alberto Martinelli University of Milan and Henri Mendras OFCE Paris

Changing Structures of Inequality Yannick Lemel, Heinz-Herbert Noll, 2002 The international sociological community has engaged recently in a controversial discussion on social inequality There is a vigorous debate on whether the traditional concepts of social class and social stratification are still useful Some researchers argue that social classes still offer a key explanation to social inequalities while others challenge the long standing tradition of class analysis New approaches have been proposed to describe recent social changes in the stratification system vanishing middle class two thirds societies cosmographic inequality and classless society among others

Recent Social Trends in West Germany, 1960-1990 Wolfgang Glatzer, International Research Group on the Comparative Charting of Social Change in Advanced Industrial Societies, 1992

Recent Social Trends in France, 1960-1990 Michel Forsé, International Research Group on the Comparative Charting of Social Change in Advanced Industrial Societies, 1993 Over the three decades from 1960 to 1990 French society underwent a spectacular transformation due to the baby boom which was particularly broad based and prolonged in France and caused the population to climb by a full one third At the same time the French economy expanded and the pace of modernization picked up with the result that the wealth of the French quadrupled in a single generation The turning point between the reconstruction and development period and the period of profound social change appears to have been 1965 The baby boom was over by then and the production system was shifting in orientation No longer dominated by the growth of basic industries production was now starting to focus on consumer goods and services

Minorities and Reconstructive Coalitions Willie Gin, 2017-07-06 As with Muslims today Catholics were once suspected of being antidemocratic oppressive of women and supportive of extremist political violence By the end of the twentieth century Catholics were considered normal and sometimes valorized as exemplary citizens Can other ethnic racial and religious minorities follow the same path Minorities and Reconstructive

Coalitions provides an answer by comparing the stories of ethnic Catholics political incorporation in Australia Canada and the United States Through comparative and historical analysis the book shows that reconstructive coalitions such as labor and pan Christian moral movements can bring Catholics and Protestants together under new identities significantly improving Catholic standing Not all coalitions are reconstructive or successful and institutional structures such as regional autonomy can enhance or inhibit the formation of these coalitions The book provides overviews of the history of Catholics in the three countries reorients the historiography of Catholic incorporation in the United States uncovers the phenomenon of minority overrepresentation in politics and advances unique arguments about the impact of coalitions on minority politics

Manitoba Premiers of 19th and 20th Centuries Barry Ferguson,Robert Alexander Wardhaugh,2010 Annotation The province s history of religious linguistic ethnic and class conflict which has often drawn the entire country into its battles is revealed in the biographies of the Premiers *Introduction to Sociology: Canadian Version* George Ritzer,Neil Guppy,2013-07-25 While providing a rock solid foundation of sociology Introduction to Sociology Canadian Version by renowned sociologists George Ritzer and Neil Guppy illuminates traditional sociological concepts and theories as well as some of today s most compelling social phenomena Globalization consumer culture and the Internet Ritzer and Guppy bring students into the conversation by bridging the divide between the outside world and the classroom The international version of the book by Ritzer has been redesigned with an explicitly Canadian core The result is this compelling Canadian version featuring George Ritzer s distinctive voice and style blended with Neil Guppy s definitive views on Canadian sociology highlighting the place of Canada in a globalizing world
