H. Schroeder, 1981 Although libraries and museums for many centuries have taken the lead under one rational or another in recovering storing and displaying various kinds of culture of their periods lately as the gap between elite and popular culture has apparently widened these repositories of artifacts of the present for the future have tended to drift more and more to what many people call the aesthetically pleasing elements of our culture The degree to which our libraries and museums have ignored our culture is terrifying when one scans the documents and artifacts of our time which if history in any wise repeats itself will in the immediate and distant future become valuable indices of our present culture to future generations As Professor Schroeder dramatically states it No doubt about it it is the contemporary popular culture that is the endangered species The essays in this book investigate the reasons for present day neglect of popular culture

materials and chart the various routes by which conscientious and insightful librarians and museum directors can correct this disastrous oversight **Billboard** ,1979-09-22 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends

Music, Books on Music, and Sound Recordings Library of Congress,1988 *Borges's Poe* Emron Esplin,2016 Esplin argues that Borges through a sustained and complex literary relationship with Poe s works served as the primary catalyst that changed Poe s image throughout Spanish America from a poet prophet to a timeless fiction writer **Brazil and the United States** Joseph Smith,2010-11-15 Although Brazil and the United States have long regarded each other sympathetically relations between the two countries have been adversely affected by geographical distance language barriers and cultural indifference In this comprehensive overview Joseph Smith examines the history of Brazil U S relations from the early nineteenth century to the present day With the exception of commerce notably the coffee trade there was relatively little contact between the countries during the nineteenth century A convergence of national interests took place during the first decade of the twentieth century and was exemplified in Brazil s strategy of approximating its foreign policy to that pursued by the United States In return Brazil expected economic gains and diplomatic support for its ambition to be the leading power in South America But U S leaders were cautious and self serving Brazil was treated as a special ally according to Smith but only at times of major crisis such as the two world wars As the twentieth century progressed friction developed over programs of U S financial assistance and efforts to deal with the threat of communism Recently there have been disagreements over Brazil s determination to take its rightful place as a global economic player and regional leader Nonetheless history reveals that these two giant nations of the Western Hemisphere share national interests that they realize are best served by maintaining a friendly cooperative relationship **Presleyana** Jerry Osborne,Bruce Hamilton,1980

Japanese War Crimes and Related Topics: A Guide to Records at the National Archives United States. National Archives and Records Administration,200? This finding aid will help researchers interested in Japanese war crimes war criminals and war crimes trials to navigate the vast holdings of the U S National Archives and Records Administration at College Park NARA It will also be useful to anyone interested in military intelligence political diplomatic economic financial social and cultural activities in the Far East during 1931 1951 as well as to those searching for information regarding Allied prisoners of war the organization functions and activities of American and Allied agencies and the Japanese occupation of countries and the American occupation of Japan While not aimed at researchers interested in the strategic and tactical military and naval history of the war in the Far East this finding aid may nevertheless be useful to those with such interests if only to identify record groups and series of records that may bear on those topics This finding aid covers records from over twenty record groups and includes materials declassified under the Japanese Imperial Government Disclosure Act of 2000 P

L 106 567 as well as records that were never classified and those declassified before the passage of the Disclosure Act. Because the process of identifying, declassifying, accessioning and processing of records under the Act is taking place as this finding is being compiled, late arriving records may not be identified in this finding aid. Researchers should consult the IWG Web site <http://www.archives.gov/iwg> for a complete and up to date list of records declassified under the Japanese Imperial Government Disclosure Act. Federal agencies involved in the identification and declassification of relevant classified records ascertained that there were relatively few pertinent records that were still classified. Most relevant records were either never classified or were declassified decades before the Act and were already in NARA's custody. While this finding aid's coverage is broad, it is not comprehensive. Researchers may find other relevant series of records within the record groups mentioned or not mentioned. Researchers are encouraged to use other finding aids and consult with NARA staff to locate records of interest. In addition, the National Archives at College Park holds nontextual records such as still photographs and motion pictures that researchers may want to examine. Other NARA facilities hold many records and donated material related to World War II, including records related to the subjects covered in this finding aid. This is particularly true of the Franklin D. Roosevelt, the Harry S. Truman and the Dwight D. Eisenhower archives as vast mountain ranges of records with the archivists guiding the expeditions. Explorations on familiar, well-trodden paths produce new perspectives when examined with fresh eyes and imagination.
