Regimes, Movements, and Ideologies Mark N. Hagopian, 1984-01 **Regimes, Movements, and Ideologies** Mark N. Hagopian, 1978 Comparative Judicial Systems John R. Schmidhauser, 2013-10-22 Comparative Judicial Systems Challenging Frontiers in Conceptual and Empirical Analysis is a comprehensive and cohesive collection of investigative essays written by significant contributors in the field of comparative judicial institutions and politics. These essays seek to explain the judicial systems of different nations and analyze their implications. The book is divided into three parts. Part I deals with the integration of courts into the study of politics and conceptual frameworks in comparative cross-national legal and judicial research. Part II covers analyses of the judicial systems of a certain nation while Part III compares and analyzes judicial systems of different nations as well as their judicial background in relation to their subculture. The text is recommended for lawyers as well as those in the field of political science and in the judicial branch especially those who are looking to countries as examples for the improvement of their local systems. *Islamic Fundamentalism* Abdel Salam Sidahmed, 2018-02-07 The phenomenon of political Islam continues to dominate the political and social map of the Arab world with the increasingly open struggle between ruling elites and Islamists becoming the main source of political instability in many states. This volume offers an in-depth analysis of the rise of Islamic and fundamentalist movements in the Middle East and North Africa. Through detailed case studies the contributors examine the various manifestations of political Islam highlighting differences across movements and evaluating the varying circumstances in which they arise. They also assess the influence of such movements on the emerging post-Cold War order in the region and consider questions of a general nature such as Islamic state theories and the impact of Islamism on international relations. *Maoist Insurgency Since Vietnam* Thomas A. Marks, 2012-12-06 This is an analysis of revolutions based on the Maoist Mode. These insurgencies failed having been successfully contained by their governments. How did the world's strongest power, America, fail where Third World governments have succeeded. **Johannes Bjelke-Petersen** Rae Wear, 2002 A saviour to some, reviled by others, Johannes Bjelke-Petersen became the butt of jokes and even assassination attempts. His influence spread well beyond Queensland and in the mid-1970s he put an unknown French politician into the Senate to help rub out the Whitlam government. Young Joh had been a loner who worked hard to overcome crippling childhood polio and the poverty of life on his family's farm. Enduring a long apprenticeship as an opposition backbencher, he finally made it to the top, bringing to his old-style autocratic rule a more media-savvy appeal to the electorate. As this long-awaited biography reveals, Joh was as cunning as he was ruthless throughout his forty-year political career. Rae Wear analyses in detail his political psyche, his unique leadership style, and the reasons for his electoral support, taking into account his Danish immigrant background and lifelong Christian piety. Essential reading for anyone interested in Australian politics, this biographical study explains in depth for the first time Bjelke-Petersen's unlikely elevation to the premiership and his ultimate disgrace amid revelations of widespread corruption. Theories Of Comparative Politics Ronald H Chilcote,1981-05-03 **Choosing an Identity** Sun-Ki Chai,2010-05-06 Social science research is fragmented by the widely differing and seemingly contradictory approaches used by the different disciplines of the social sciences to explain human action Attempts at integrating different social science approaches to explain action have often been frustrated by the difficulty of incorporating cultural assumptions into rational choice theories without robbing them of their generality or making them too vague for predictions Another problem has been the major disagreements among cultural theorists regarding the ways in which culture affects preferences and beliefs This book provides a general model of preference and belief formation addressing the largest unresolved issue in rational choice theories of action It attempts to play a bridging role between these approaches by augmenting and modifying the main ideas of the rational choice model to make it more compatible with empirical findings in other fields The resulting model is used to analyze three major unresolved issues in the developing world the sources of a government s economic ideology the origins of ethnic group boundaries and the relationship between modernization and violence Addressing theoretical problems that cut across numerous disciplines this work will be of interest to a diversity of theoretically minded scholars Sun Ki Chai is Assistant Professor of Sociology University of Arizona *A Comparative Introduction to Political Science* Robert J.
