Regional Perspectives; an Examination of America's Literary Heritage John Gordon Burke, 1973 **A Companion to the Regional Literatures of America** Charles L. Crow, 2003-07-09 The Blackwell Companion to American Regional Literature is the most comprehensive resource yet published for study of this popular field The most inclusive survey yet published of American regional literature Represents a wide variety of theoretical and historical approaches Surveys the literature of specific regions from California to New England and from Alaska to Hawaii Discusses authors and groups who have been important in defining regional American literature **A Literary History of the American West** Western Literature Association (U.S.), 1987 Literary histories of course do not have a reason for being unless there exists the literature itself This volume perhaps more than others of its kind is an expression of appreciation for the talented and dedicated literary artists who ignored the odds avoided temptations to write for popularity or prestige and chose to write honestly about the American West believing that experiences long knowns to be of historical importance are also experiences that need and deserve a literature of importance **A Richard Wright Bibliography** Kenneth Kinnamon, Joseph Benson, Michel Fabre, Craig Werner, 1988-01-13 Any future biographical work on Richard Wright will find this bibliography a necessity academic or public libraries supporting a program of black culture will find it invaluable and it belongs in any library supporting American literature studies Richard Wright has truly been well served Choice The most comprehensive bibliography ever compiled for an American writer this book contains 13 117 annotated items pertaining to Richard Wright It includes almost all published mentions of the author or his work in every language in which those mentions appear Sources listed include books articles reviews notes news items publishers catalogs promotional materials book jackets dissertations and theses encyclopedias biographical dictionaries handbooks and study guides library reports best seller charts the Index Translationum playbills and advertisements editorials radio transcripts and published letters and interviews The bibliography is arranged chronologically by year Each entry includes bibliographical information an annotation by the authors and information about all reprintings partial or full The index is unusually complete and contains the titles of Wright's works real and fictional characters in the works entries relating to significant places and events in the author's life important literary terminology and much additional information **The American Midwest** Andrew R. L. Cayton, Richard Sisson, Chris Zacher, 2006-11-08 This first ever encyclopedia of the Midwest seeks to embrace this large and diverse area to give it voice and help define its distinctive character Organized by topic it encourages readers to reflect upon the region as a whole Each section moves from the general to the specific covering broad themes in longer introductory essays filling in the details in the shorter entries that follow There are portraits of each of the region's twelve states followed by entries on society and culture community and social life economy and technology and public life The book offers a wealth of information about the region's surprising ethnic diversity a vast array of foods languages styles religions and customs plus well informed essays on the

region's history, culture, and values and conflicts. A site of ideas and innovations, reforms and revivals, and social and physical extremes, the Midwest emerges as a place of great complexity, signal importance, and continual fascination. *Regional Perspectives; an Examination of America's Literary Heritage* John Gordon Burke, 1973. *Twentieth-century Texas* John Woodrow Storey, 2008. A collection of fifteen essays which cover Indians, Mexican Americans, African Americans, women, religion, war on the homefront, music, literature, film, art, sports, philanthropy, education, the environment, and science and technology in twentieth-century Texas. *American Fiction 1865 - 1940* Brian Lee, 2017-09-29. Brian Lee's study of American fiction from 1865 to 1940 draws on a wealth of material by, amongst others, Twain, James Dreiser, Hemingway, Fitzgerald, and Faulkner. Though the works of these writers have been closely scrutinised by postwar critics in Europe and America, few attempts have yet been made to utilise the new critical approaches and theories in the service of literary history. Brian Lee does so in this book, relating the writers of the period, both major and minor, to its patterns of immense economic, social, and intellectual change. *Larry McMurtry and the West* Mark Busby, 1995. This is the first major single-authored book in almost twenty years to examine the life and work of Texas' foremost novelist and to develop coherent patterns of theme, structure, symbol, imagery, and influence in Larry McMurtry's work. The study focuses on the novelist's relationship to the Southwest, theorizing that his writing exhibits a deep ambivalence toward his home territory. The course of his career demonstrates shifting attitudes that have led him toward away from and then back again to his home place and the cowboy god that dominates its mythology. The book utilizes original materials from five library special collections, as well as interviews with McMurtry, his family, and his friends such as Ken Kesey. **Charles M. Russell** Raphael James Cristy, 2004. Well known for his sketches, paintings, and sculptures of the Old West, Charles M. Russell (1864-1926) was also an accomplished author in the humorous genre known as local color. Raphael Cristy sorts Russell's writings into four general categories: serious Indian stories, men encountering wildlife, cattle range characters, and nineteenth-century westerners facing twentieth-century challenges. Russell's art is often misinterpreted as mere longing for a fading open range west, but his writings tell a different story. Cristy shows how Russell amused his peers with stories that also delivered sharp observations of Euro-American suppression of Indians and humorous treatment of wilderness and range issues, plus the emergence of women and urbanization as bewildering agents of change in the modern West. A welcome departure from the usual biographies and coffee-table volumes on Russell and his art, Cristy deals with an important yet relatively unexplored aspect of the career of one of the most influential interpreters of the American West. Byron Price, Director, C. M. Russell Center for the Study of Art.

Centennial Essays for Robinson Jeffers Robert Zaller, 1991. This work is the first volume of critical essays devoted to the poetry of Robinson Jeffers. Although Jeffers was likened to some of the greatest figures in the literary world, his work was controversial. His preoccupation with violence and sexuality was denounced by some, his alleged blasphemy by others. Condemned by moralists, Marxists, and Cold Warriors alike, Jeffers fell into obscurity until his death in 1962. Included are nine

original essays by leading Jeffers scholars **American Literary Scholarship 1973** American Literary Scholarship, 1975
