Regional Communitybuilding In East Asia:

Regional Community-building in East Asia Youngmin Kwon,Yŏng-min Kwŏn,2002 **Regional Community Building in East Asia** Lee Lai To,Zarina Othman,2016-09-01 This volume is a collection of papers written by nationals or former nationals of the respective country in ASEAN and Northeast Asia Unlike other works written by scholars outside ASEAN or East Asia it offers an insider s point of view of the 10 ASEAN states China Japan and South Korea on regional community building While a nationalist perspective may permeate throughout the study it is also clear that pursuing regional cooperation is considered to be important by the respective author denoting the non exclusivity between nationalism and regionalism and the mutual reinforcement of the two Each author of this volume has made a deliberate effort to introduce and survey the developmental challenges and experiences of his or her country from a historical perspective All authors without exception have emphasized the importance and advantages in staying with ASEAN or linking up with ASEAN by China Japan and South Korea in political security economic and socio cultural terms Their papers also reveal that the self help and self strengthening mechanism emphasized by the ASEAN Plus Three process will take time to bear fruits In the meantime it seems that bilateral interactions and cooperation between ASEAN and Northeast Asian states remain to be more dominant as shown in this study One can argue that bilateral interactions are the building block of multilateralism interactions To be sure there is a deliberate effort in this study to highlight unity in diversity in East Asia in general and ASEAN in particular **Regional Community-building in East Asia** Youngmin Kwon,Yŏng-min Kwŏn,2002 Asia's New Multilateralism Michael J. Green,Bates Gill,2009 Traditionally stability in Asia has relied on America s bilateral alliances with Japan Australia and the Republic of Korea Yet in recent years emergent and more active multilateral forums such as the Six Party Talks on North Korea and the East Asia Summit have taken precedence engendering both cooperation and competition while reflecting the local concerns of the region Some are concerned that this process is moving toward less inclusive bloc based talking shops and that the future direction and success of these arrangements along with their implications for global and regional security and prosperity remain unclear The fifteen contributors to this volume all leading scholars in the field provide national perspectives on regional institutional architecture and their functional challenges They illuminate areas of cooperation that will move the region toward substantive collaboration convergence of norms and strengthened domestic institutions They also highlight the degree to which institution building in Asia a region composed of liberal democracies authoritarian regimes and anachronistic dictatorships has become an arena for competition among major powers and conflicting norms and assess the future shape of Asian security architecture **Regional Security in East Asia** Aileen San Pablo Baviera,2008 **East Asian Regionalism** Christopher M. Dent,2016-06-02 East Asia is one of the world s most dynamic and diverse regions and is also becoming an increasingly coherent region through the inter play of various integrative economic political and socio cultural processes Fully updated and revised throughout this new edition explores

the various ways in which East Asian regionalism continues to deepen The second edition has been expanded to incorporate coverage of significant issues that have emerged in recent years including Growing tensions in the region over maritime territory and historical issues Competing regional free trade agreement negotiations The impact of the global financial crisis on financial co operation and engagement with global governance Obama s pivot to Asia and developments in US relations with East Asia The influence of new technology and social media on micro level regional relations The growing importance of new diplomacy issues such as energy security climate change food security and international migration Key pedagogical features include end of chapter study questions case studies that discuss topical issues with study questions also provided useful tables and figures which illustrate key regional trends in East Asia Extensive summary conclusions covering the chapter s main findings from different international political economy perspectives East Asian Regionalism is an essential text for courses on East Asian regionalism Asian politics and Asian economics *East Asian Regionalism from a Legal Perspective* Tamio Nakamura, 2009-06-08 Plenty has been written about the political and economical aspects of regionalism but the legal perspective has been neglected East Asian Regionalism From a Legal Perspective is unique in synthesizing legal economic and political analyses In the first part the book investigates the current features of regionalism from a comparative perspective looking at economic and currency cooperation and comparing Asian regionalism with Europe and Latin America In the second part the contributors go on to look at the present legal features of regionalism covering institutional frameworks trade diversity and regional integration The third part of the book is truly unique in proposing an essential groundwork for the institutionalisation of an East Asian Community It conceives a draft East Asian Charter an essential document that distils what East Asian nations have achieved and also includes integral principles and fundamental rules for future cooperation among countries and peoples in the region This book will be of interest to graduates and academics interested in regionalism international relations international law and Asian studies **Rewiring Regional Security in a Fragmented World** Chester A. Crocker, Fen Osler Hampson, Pamela R. Aall, United States Institute of Peace, 2011 Rewiring Regional Security in a Fragmented World examines conflict management capacities and gaps regionally and globally and assesses whether regions through their regional organizations or through loose coalitions of states regional bodies and non official actors are able to address an array of new and emerging security threats Regional Organisations and Security Stephen Aris, Andreas Wenger, 2013-10-30 This book aims to examine the conceptions and practices of security adopted by Regional Organisations ROs across the globe Since the end of the Cold War there has been an increased focus on regions as a relevant realm for security with actors within regional contexts identifying a significant degree of interdependency between one another As a consequence international security has taken on a distinct regionally institutionalised character as seen by the increase in calls for greater utilisation of Chapter VIII Regional Arrangements of the UN in order to create a devolved UN led system of global security management However the idea of a system of global security management is a remote prospect

because divergence seems to be as important as commonality in terms of regional security In light of the above Regional Organisations and Security analyses the primary ROs that are active in Africa Asia Eurasia the Middle East and South America The findings of individual case studies are compiled to highlight disparities and similarities in how security is seen prioritised understood practised managed and implemented across regions On this basis the authors reach conclusions about whether we live in an increasingly globalised or regionally distinct world and go on to assess the prospects for a globalised system of security management and consider how this might be developed and organised This book will be of interest to students of comparative regionalism international organisations international security and IR

ASEAN-Russia Victor Sumsky, Mark Hong, Amy Lugg, 2012-05-30 In 2012 Russia assumes the Chairmanship of APEC and is keen to build on its memberships of both East Asia Summit EAS and the Asia Europe Meeting ASEM Russia is geographically and historically part of Asia and the Asia Pacific and has been a dialogue partner of ASEAN since 1996 Still the obstacles of distance and languages have led ASEAN member states and Russia to know and interact little between both sides As growth poles in the world economy there is much benefit in greater interaction between their rich economies To commemorate the 15th Anniversary of the Russia ASEAN dialogue partnership in 2011 the ASEAN Studies Centre at ISEAS and its counterpart from MGIMO University Moscow co organized a two day conference that year in which papers were presented offering perspectives from Russia and the ten ASEAN member states Representatives from academia and the public and private sectors offered insights on topics including geopolitics bilateral relations business and economics and culture and education This is a timely book that affords the reader insights into where ASEAN Russia relations currently stand and suggests how they can improve and move forward

The Niche Diplomacy of Asian Middle Powers Brendan M. Howe, 2021-05-20 The four countries represented in this volume are East Asian middle powers with strategic constraints upon their traditional security policymaking These middle powers have pursued diplomatic activities raising their international profile or footprint and advancing their national interest through normative foreign policy and humanitarian channels including peacebuilding development and human security In each case therefore there is a happy coincidence of the national interest of the middle power expressed through certain diplomatic niches and benefit to regional partners in peace and development The Niche Diplomacy of Asian Middle Powers seeks to uncover the unique contributions of Asian middle powers to the furtherance of humanitarian and human related policymaking including the promotion of peace development and democracy long associated with middle powerism with particular emphasis on their involvement in the Southeast Asian subregion Japan South Korea and Taiwan have made Southeast Asia a focus for their attempts to get more bang for their foreign policy buck or Yen or Won and have adopted similar normatively justified variations on the theme of new Southern policies Meanwhile Thailand looks to

play a variety of middle power roles within a region where it is a major actor **China and Asian Regionalism** Yunling Zhang, 2010 This is the only English language publication with a distinctly Northeast Asian outside Japan and Chinese perspective on pan East Asian Regionalism including both Northeast and Southeast Asian Regionalism published within the last 5 years that is distributed internationally It traces the development of Asian regionalism and analyzes China's role and policy on East Asian cooperation and integration The 15 chapters in this volume directly involve all major policy researches and project designing in the process of the East Asia cooperation They provide valuable information for knowing understanding and studying the ongoing process of regional cooperation in East Asia Asia Redux Prasenjit Duara, 2013-06-27 In the erudite essay that opens this forum Prasenjit Duara turns to both indigenous thinkers and the premodern past for tools with which to think about Asia in a global age Contemporary modalities of regional exchange weakly bounded network oriented pluralistic multitemporal chime with earlier patterns of cultural circulation without state domination giving rise to a prophetic vision of Asia Redux This attempt to capture the contours of a re emergent region was calculated to provide And what a debate it kicks off Wang Hui resolutely reframes imagining Asia as a political project on a world historical canvas Tansen Sen greatly complicates the map of intra Asian commercial exchange in earlier times Amitav Acharya outlines five competing conceptions of Asia in the domain of international relations alone Barbara Watson Andaya teases out the paradoxical way in which regional religions make clashing claims about Asian unity and Rudolf Mrazek asks what of the Asia that bleeds what of exploitation and its spawn the inglorious built ends of the global economy The reward for those who read this collection straight through is a thrillingly cacophonous conversation about how to grasp Asia in our time Karen E Wigen Stanford University Will a re emergent Asia extend the violent rivalries and inequalities of Western dominated empires nations and capital Or can Asia somehow draw on a relatively more peaceful past of maritime trade interlinked religions and circulations beyond states to think and make a very different sort of region and world Prasenjit Duara and his interlocutors define this vital debate on Asia's future through illuminating reflections on its recent and deep past A touchstone for anyone concerned with a future shape of an inter connected Asia newly possessed of wealth and power Engseng Ho Duke University *Asia's New Regionalism* Ellen L. Frost, 2008 **Managing Great Power Politics** Kei Koga, 2022-08-31 This Open Access book explains ASEAN's strategic role in managing great power politics in East Asia Constructing a theory of institutional strategy this book argues that the regional security institutions in Southeast Asia ASEAN and ASEAN led institutions have devised their own institutional strategies vis vis the South China Sea and navigated the great power politics since the 1990s ASEAN proliferated new security institutions in the 1990s and 2000s that assumed a different functionality a different geopolitical scope and thus a different institutional strategy In so doing ASEAN formed a strategic institutional web that nurtured a quasi division of labor among the institutions to maintain relative stability in the South China Sea Unlike the conventional analysis on ASEAN this study disaggregates ASEAN as a collective regional actor

into specific individual institutions ASEAN Foreign Ministers Meeting ASEAN Summit ASEAN China dialogues ASEAN Regional Forum East Asia Summit and ASEAN Defense Ministers Meeting and ASEAN Defense Ministers Meeting Plus and explains how each of these institutions has devised and or shifted its institutional strategy to curb great powers ambition in dominating the South China Sea while navigating great power competition The book sheds light on the strategic potential and limitations of ASEAN and ASEAN led security institutions offers implications for the future role of ASEAN in the Indo Pacific region and provides an alternative understanding of the strategic utilities of regional security institutions

Indonesia Air Force Handbook Volume 1 Strategic Information and Weapon Systems IBP, Inc, *Asia's Turning Point* Ivan Tselichtchev, Philippe Debroux, 2012-11-26 Asia was probably the biggest economic sensation of the post war decades The breathtaking success of Japan was followed by a remarkable rise of four tigers then ASEAN founder states and then China The Asian miracle became a commonly accepted definition of this success In the late 1970s and especially 80s it became clear that the balance of power in the world had changed Politicians businessmen scholars began to talk about the new Asia Pacific age and Asian economic model different from and maybe even superior to Western capitalism However in 1997 98 the Asian economic crisis came and made the region a sick man Six years before that Japan the regional powerhouse entered more than a decade long period of stagnation The miracle was over However the crisis was overcome within a surprisingly short period of time Naturally the question arises What now What is going on in the region after the miracle and after the crisis What is today's face of Asian capitalism and how should we view its performance Readers interested in regional developments will find a lot of literature about miracle decades and crisis years However few analysts have addressed the challenging questions addressed in this book The authors vividly show that Asian capitalism is undergoing a radical structural transformation These changes are directly affecting its key institutions governments companies labor relations etc As a result Asian economic systems are becoming much closer to the Western style especially Anglo Saxon capitalism though the region retains some important specific features especially regarding business culture This book is a must for business people worldwide for all those who study the region in colleges and business schools for people engaged in various international activities and finally for all those who want learn more about our world at the dawn of the new century

Advancing East Asian Regionalism Melissa Curley, Nicholas Thomas, 2012-10-12 Developments in East Asia have progressed rapidly in terms of regionalism since the 1997 crisis The end of the Asian miracle called into question not only the capacity of regional states to meet the needs of their attendant peoples but also challenged the viability of regional organizations such as ASEAN to adapt and respond to the changing circumstances Advancing East Asian Regionalism looks at the ways in which ASEAN has expanded since the crisis and evaluates the potential of East Asia to come together in a regional formation one capable of representing the region as a whole akin to the European Community It draws upon the knowledge and perspectives of academics and policy makers actively engaged in the contradictory issues of regionalism Coupling case study material on regionalism institutions and sectoral cooperation with theoretical debates on regionalization this book is an invaluable resource that pushes our understanding of East Asian regionalism forward
