Regional Security In South Asia:

Regionalism and Regional Security in South Asia Zahid Shahab Ahmed, 2016-04-08 Zahid Shahab Ahmed evaluates the progress of the South Asian Association for Regional Cooperation SAARC. This study goes beyond economic integration to present a detailed appraisal of cooperation under the overarching themes of economic cooperation, environmental security, human welfare, and cooperation in security matters. According to the author, SAARC is making progress in addressing the myriad of issues on its agenda. The transition from agreements to actions and frequent interactions among the member states has boosted confidence. The progress of SAARC is more evident in the less controversial areas of human security such as poverty alleviation, health and safety, human resources development, and higher education. Notwithstanding enthusiastic commitments reflected in agreements and action plans, there is a gulf between rhetoric and implementation, most notably in sensitive areas relating to traditional security. In the light of the findings of this study, the author proposes that greater cooperation in common human security areas has a potential to pave the way for a cooperation on issues of a contentious nature, particularly terrorism.

Regional Security in South Asia David Law, 1995 **Regional Security in South Asia** Nancy Jetly, 1999. Contributed articles presented at an international seminar in 1996. Emerging Conflicts and Regional Security in South Asia, 2019 **Regional Security in South Asia and the Gulf**, 2023-02. As we move towards a world without superpowers, the dynamics within and between regions are of growing significance. Against this backdrop, this book explores the links between South Asia and the Gulf, which have existed for centuries but are undergoing important shifts in the transition to multipolarity. With a special focus on India, Pakistan, Iran, Bangladesh, Saudi Arabia, the United Arab Emirates, Sri Lanka, and Oman, this volume brings together scholars from across these regions to investigate what the decentring world order means for the relationship between South Asia and the Gulf. It employs Regional Security Complex Theory to examine the changing global patterns of power and their impact on the inter-regional patterns of amity and enmity between states in South Asia and the Gulf. It employs both constructivist and realist approaches, seeking to understand how power and social processes influence the political and security linkages between these regions.

Regional Security in Southeast Asia Mely Caballero Anthony, 2005. The book examines ASEAN's mechanisms in managing challenges and threats to regional security. Its extensive analyses of the ASEAN story of managing regional security cover the different phases of ASEAN's development as a regional organization and explore the perceptible changes that have occurred in regional mechanisms of conflict management. The book also examines the roles of relevant actors beyond the states of ASEAN and the key interactions that have evolved over time, which have been instrumental in moving regional mechanisms beyond the ASEAN way. The book argues that the ASEAN way has not been impervious to change. As the association finds its way through periods of crises and continues to confront the many challenges ahead, ASEAN and its mechanisms are already being transformed beyond the narrow confines of the modalities associated with the ASEAN way. The changes in the political and security landscape of the

region as well as the democratic transitions taking place in some member states have set the stage for a much more dynamic set of regional actors and processes that bring into question the kind of regionalism that is now taking place in the region the way regionalism is changing in Southeast Asia

Negotiating Governance on Non-Traditional Security in Southeast Asia and Beyond Mely Caballero-Anthony, 2018-12-18 The threats the world currently faces extend beyond traditional problems such as major power competition interstate conflict and nuclear proliferation Non traditional security challenges such as climate change migration and natural disasters surpass states capacity to address them These limitations have led to the proliferation of other actors regional and international organizations transnational networks local and international nongovernmental organizations that fill the gaps when states responses are lacking and provide security in places where there is none In this book Mely Caballero Anthony examines how non traditional security challenges have changed state behavior and security practices in Southeast Asia and the wider East Asia region Referencing the wide range of transborder security threats confronting Asia today she analyzes how non state actors are taking on the roles of security governors engaging with states regional organizations and

institutional frameworks to address multifaceted problems From controlling the spread of pandemics and transboundary pollution to managing irregular migration and providing relief and assistance during humanitarian crises Caballero Anthony explains how and why non state actors have become crucial across multiple levels local national and regional and how they are challenging regional norms and reshaping security governance Combining theoretical discussions on securitization and governance with a detailed and policy oriented analysis of important recent developments Negotiating Governance on Non Traditional Security in Southeast Asia and Beyond points us toward state plus governance where a multiplicity of actors form the building blocks for multilateral cooperative security processes to meet future global challenges Refugees and Regional Security in South Asia S.
